The Small Cap Growth Fund, Dynamic Small Cap Fund, All Cap Growth Fund, Multi Strategy Fund, and Dividend Growth Fund are diversified Funds.

The Small Cap Growth Fund’s primary investment objective is to seek capital appreciated. The All Cap Growth Fund’s primary investment objective is to seek long-term growth of capital. As of September 4, 2020, the fund name North Square Oak Ridge Disciplined Growth Fund was changed to North Square Oak Ridge All Cap Growth Fund. The investment objective and principal investment strategies and portfolio managers of the Fund were not changed in connection with the name change. Effective the close of business on May 10, 2019, the All Cap Growth Fund acquired all the assets and assumed the liabilities of the Oak Ridge Disciplined Growth Fund (the “Predecessor Fund”), a series of Investment Managers Series Trust.

The Multi Strategy Fund’s primary investment objective is to seek capital appreciation. The shares of each class represent an interest in the same portfolio of investments of the Fund and have equal rights as to voting, redemptions, dividends and liquidation, subject to the approval of the Trustees. Income, expenses (other than expenses attributable to a specific class) and realized and unrealized gains and losses on investments are allocated to each class of shares in proportion to their relative shares outstanding. Shareholders of a class that bears distribution and service expenses under the terms of a distribution plan have exclusive voting rights to that distribution plan.

Each Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification Topic 946 “Financial Services—Investment Companies”.

Note 2 – Accounting Policies

The following is a summary of the significant accounting policies consistently followed by the Funds in the preparation of their financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

(a) Valuation of Investments

Each Fund values equity securities at the last reported sale price on the principal exchange or in the principal over the counter (“OTC”) market in which such securities are traded, as of the close of regular trading on the NYSE on the day the securities are being valued or, if the last-quoted sales price is not readily available, the securities will be valued at the last bid or the mean between the last available bid and ask price. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price (“NOCP”). Investments in open-end investment companies are valued at the daily closing net asset value of the respective investment company. Debt securities are valued by utilizing a price supplied by independent pricing service providers. The independent pricing service providers may use various valuation methodologies including matrix pricing and other analytical pricing models as well as market transactions and dealer quotations. These models generally consider such factors as yields or prices of bonds of comparable quality, type of issue, coupon,

maturity, ratings and general market conditions. If a price is not readily available for a portfolio security, the security will be valued at fair value (the amount which the Fund might reasonably expect to receive for the security upon its current sale) as determined in good faith by the Fund's advisor, subject to review and approval by the Valuation Committee, pursuant to procedures adopted by the Board of Trustees. The actions of the Valuation Committee are subsequently reviewed by the Board at its next regularly scheduled board meeting. The Valuation Committee meets as needed. The Valuation Committee is comprised of all the Trustees, but action may be taken by any one of the Trustees.

Fair value pricing may be applied to foreign securities held by the Funds upon the occurrence of an event after the close of trading on non-U.S. markets but before the close of trading on the NYSE when each Fund's NAV is determined. If the event may result in a material adjustment to the price of the Fund's foreign securities once non-U.S. markets open on the following business day (such as, for example, a significant surge or decline in the U.S. market), the Fund may value such foreign securities at fair value, taking into account the effect of such event, in order to calculate the Fund's NAV. Other types of portfolio securities that the Fund may fair value include, but are not limited to: (1) investments that are illiquid or traded infrequently, including "restricted" securities and private placements for which there is no public market; (2) investments for which, in the judgment of the advisor, the market price is stale; (3) securities of an issuer that has entered into a restructuring; (4) securities for which trading has been halted or suspended; and (5) fixed income securities for which there is not a current market value quotation.

Foreign securities traded in countries outside the U.S. are fair valued by utilizing the quotations of an independent pricing service or from a brokerage firm. The pricing service or broker will use a statistical analyses and quantitative models to adjust local prices using factors such as subsequent movement and changes in the prices of indexes, securities and exchange rates in other markets in determining fair value as of the time the Fund calculates the NAVs. The Board reviews the independent third party fair valuation analysis report quarterly.

The global outbreak of COVID-19 (commonly referred to as "coronavirus") has disrupted economic markets and the prolonged economic impact is uncertain. The ultimate economic fallout from the pandemic, and the long-term impact on economies, markets, industries and individual issuers, are not known. The operational and financial performance of the issuers of securities in which the Funds invest depends on future developments, including the duration and spread of the outbreak, and such uncertainty may in turn adversely affect the value and liquidity of the Funds' investments, impair the Funds' ability to satisfy redemption requests, and negatively impact the Funds' performance.

(b) Investment Transactions, Investment Income and Expenses

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Dividend income is recorded net of applicable withholding taxes on the ex-dividend date and interest income is recorded on an accrual basis. Withholding taxes on foreign dividends, if applicable, are paid (a portion of which may be reclaimable) or provided for in accordance with the applicable country's tax rules and rates and are disclosed in the Statements of Operations. Withholding tax reclaims are filed in certain countries to recover a portion of the amounts previously withheld. The Funds record a reclaim receivable based on a number of factors, including a jurisdiction's legal obligation to pay reclaims as well as payment history and market convention. Discounts or premiums on debt securities are accreted or amortized to interest income over the lives of the respective securities using the effective interest method. Income and expenses of the Funds are allocated on a pro rata basis to each class of shares. Expenses incurred by the Trust with respect to more than one fund are allocated in proportion to the net assets of each fund except where allocation of direct expenses to each fund or an alternative allocation method can be more appropriately made. Expenses such as distribution and service fees pursuant to Rule 12b-1, transfer agent fees and expenses with respect to the Funds, that are specific to individual share classes, are accrued directly to the respective share class.

(c) Federal Income Taxes

Each Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its net investment income and any net realized gains to its shareholders. Therefore, no provision is made for federal income or excise taxes. Due to the timing of dividend distributions and the differences in accounting for income and realized gains and losses for financial statement and federal income tax purposes, the fiscal year in which amounts are distributed may differ from the year in which the income and realized gains and losses are recorded by the Funds.

Accounting for Uncertainty in Income Taxes (the "Income Tax Statement") requires an evaluation of tax positions taken (or expected to be taken) in the course of preparing a Fund's tax returns to determine whether these positions meet a "more-likely-than-not" standard that, based on the technical merits, have a more than fifty percent likelihood of being sustained by a taxing authority upon examination. A tax position that meets the "more-likely-than-not" recognition threshold is measured to determine the amount of benefit to recognize in the financial statements. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations.

North Square Funds
NOTES TO FINANCIAL STATEMENTS – Continued
November 30, 2020 (Unaudited)

The Income Tax Statement requires management of the Funds to analyze tax positions taken in the prior three open tax years, if any, and tax positions expected to be taken in the Funds' current tax year, as defined by the IRS statute of limitations for all major jurisdictions, including federal tax authorities and certain state tax authorities. As of and during the open years ended May 31, 2018-2020 the Funds did not have a liability for any unrecognized tax benefits. The Funds have no examination in progress and are not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

The Funds may utilize equalization accounting for tax purposes and designate earnings and profits, including net realized gains distributed to shareholders on redemption of shares, as part of the dividends paid deduction for income tax purposes.

(d) Distributions to Shareholders

The Dividend Growth Fund will make distributions of net investment income quarterly. The Small Cap Growth Fund, Dynamic Small Cap Fund, All Cap Growth Fund, and Multi Strategy Fund will make distributions of net investment income, if any, at least annually. Each Fund makes distributions of its net capital gains, if any, at least annually. Distributions to shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

The character of distributions made during the year from net investment income or net realized gains may differ from the characterization for federal income tax purposes due to differences in the recognition of income, expense and gain (loss) items for financial statement and tax purposes.

Note 3 – Reorganization Information

Effective upon the close of business on May 29, 2020, the outstanding Class A shares of the Dynamic Small Cap Fund and the Dividend Growth Fund and effective upon the close of business on October 9, 2020, the outstanding Class C shares and Class K shares of the Small Cap Growth Fund and Class C shares of the North Square Multi Strategy Fund were converted into Class I shares of their respective funds, as applicable (the "Class Conversion") pursuant to the Supplement to the Prospectus dated April 29, 2020 and August 10, 2020, respectively. Note 4 – Investment Advisory and Other Agreements

The Trust, on behalf of the Funds, entered into an Investment Advisory Agreement (the “Agreement”) with North Square Investments, LLC (the “Advisor” or “NSI”). Under the terms of the Agreement, the Funds pay a monthly investment advisory fee to the Advisor based on each Fund’s average daily net assets. Fees paid to the Advisor for the period ended November 30, 2020 are reported on the Statements of Operations. The annual and tiered rates are listed by Fund in the below table:

	Investment Advisory Fees
Small Cap Growth Fund	
First \$1 billion	0.85%
Thereafter	0.80%
Dynamic Small Cap Fund	0.90%
All Cap Growth Fund	0.70%
Multi Strategy Fund	0.00% – 0.50% ¹
Dividend Growth Fund	0.75%

¹ The annual advisory fee is calculated as follows: (i) 0.00% for Fund assets invested in other series of the Trust advised by the Advisor (“affiliated investments”) and (ii) 0.50% for Fund assets invested in non-affiliated investments. For the period ended November 30, 2020, the amount of advisory fees waived due to affiliated investments is reported under “Affiliated fund fees waived” on the Statements of Operations.

The Advisor engages Oak Ridge Investments, LLC (“Oak Ridge”) to manage the Small Cap Growth Fund, All Cap Growth Fund, Multi Strategy Fund and Dividend Growth Fund as a sub-advisor. The Advisor also engages Algert Global LLC (“Algert Global”) to manage the Dynamic Small Cap Fund as a sub-advisor. Each sub-advisor is entitled to receive an annual fee paid solely by the Adviser in the amount of 50% of the investment advisory fees.

The Advisor has contractually agreed to waive its fee and, if necessary, to absorb other operating expenses to ensure that total annual operating expenses (excluding taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses as determined in accordance with Form N-1A, expenses incurred in connection with any merger or reorganization, or extraordinary expenses such as litigation expenses) are limited. The agreements are effective until the dates listed below and may be terminated before those dates only by the Trust’s Board of Trustees. The table below contains the agreement expiration and expense cap by Fund and by Class:

	Agreement Expires	Total Limit on Annual Operating Expenses			
		Class A Shares†	Class C Shares†	Class I Shares†	Class K Shares†

Each Fund’s advisor is permitted to seek reimbursement from the Fund, subject to certain limitations, of fees waived or payments made to the Fund for a period ending thirty-six months after the date of the waiver or payment. The Multi Strategy Fund includes a maximum reimbursement of 0.20% per fiscal year. This reimbursement may be requested from the Fund if the reimbursement will not cause the Fund’s annual expense ratio to exceed the lesser of (a) the expense limitation amount in effect at the time such fees were waived or payments made, or (b) the expense limitation amount in effect at the time of the reimbursement. The Advisor may recapture all or a portion of this amount no later than the dates stated below:

The Trust, on behalf of the Funds, has adopted a Shareholder Servicing Plan to pay a fee at an annual rate of up to 0.15% of each Fund's average daily net assets of shares serviced by shareholder servicing agents who provide administrative and support services to their customers.

For the period ended November 30, 2020, shareholder servicing fees incurred are disclosed on the Statements of Operations.

Note 8 – Distribution Plan

The Trust, on behalf of each Fund, has adopted a Distribution Plan (the "Plan") pursuant to Rule 12b-1 under the 1940 Act that allows each Fund to pay distribution fees for the sale and distribution of its Class A and Class C shares. The Plan provides for the payment of distribution fees at the annual rate of up to 0.25% of each Fund's average daily net assets attributable to Class A shares and 1.00% of average daily net assets attributable to Class C shares.

For the period ended November 30, 2020, distribution fees incurred with respect to Class A and Class C shares are disclosed on the Statements of Operations.

Note 9 – Indemnifications

In the normal course of business, the Funds enter into contracts that contain a variety of representations which provide general indemnifications. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds expect the risk of loss to be remote.

Note 10 – Fair Value Measurements and Disclosure

Fair Value Measurements and Disclosures defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosure about fair value measurements. It also provides guidance on determining when there has been a significant decrease in the volume and level of activity for an asset or a liability, when a transaction is not orderly, and how that information must be incorporated into a fair value measurement.

Under *Fair Value Measurements and Disclosures*, various inputs are used in determining the value of the Funds' investments. These inputs are summarized into three broad Levels as described below:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.
- Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

North Square Funds
NOTES TO FINANCIAL STATEMENTS – Continued
November 30, 2020 (Unaudited)

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs to measure fair value may fall into different Levels of the fair value hierarchy. In such cases, for disclosure purposes, the Level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest Level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of the inputs used, as of November 30, 2020, in valuing the Funds' assets carried at fair value:

¹ The investment advisor considers relevant indications of value that are reasonably and timely available to it in determining the fair value to be assigned to a particular security, such as the type and cost of the security; contractual or legal restrictions on resale of the security; relevant financial or business developments of the issuer; actively traded related securities; conversion or exchange rights on the security; related corporate actions; significant events occurring after the close of trading in the security; and changes in overall market conditions. The Fund's use of fair value pricing may cause the net asset value of Fund shares to differ from the net asset value that would be calculated using market quotations. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security may be materially different than the value that could be realized upon the sale of that security.

² This column represents the directional change in the fair value of the Level 3 investments that would result from an increase to the corresponding unobservable input. A decrease to the unobservable input would have the opposite effect.

Note 11 – Investments in Affiliated Issuers

An affiliated issuer is an entity in which the Fund has ownership of at least 5% of the voting securities or any investment in a North Square Fund. Issuers that are affiliates of the Fund at period-end are noted in the Fund's Schedule of Investments. Additional security purchases and the reduction of certain securities shares outstanding of existing portfolio holdings that were not considered affiliated in prior years may result in the Fund owning in excess of 5% of the outstanding shares at period-end. The table below reflects transactions during the period with entities that are affiliates as of November 30, 2020 and may include acquisitions of new investments, prior year holdings that became affiliated during the period and prior period affiliated holdings that are no longer affiliated as of period-end.

Note 12 – Events Subsequent to the Fiscal Period End

The Funds have adopted financial reporting rules regarding subsequent events which require an entity to recognize in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet. Management has evaluated the Funds' related events and transactions that occurred through the date of issuance of the Funds' financial statements.

At a regular meeting of the Board of Trustees on December 16, 2020, the Advisor and the Board approved a resolution to acquire the Stadion Tactical Growth Fund, Stadion Tactical Defensive Fund, and Stadion Trilogy Alternative Return Fund (the "Stadion Funds"). Board Consideration of the Continuation of the Investment Management and Sub-Advisory Agreements

Section 15(c) of the Investment Company Act of 1940, as amended (the “1940 Act”), requires that each mutual fund’s board of trustees, including a majority of those trustees who are not “interested persons” of the fund, as defined in the 1940 Act (the “Independent Trustees”), initially approve, and annually review and consider the continuation of, the fund’s investment advisory and sub-advisory agreements. At a meeting held on August 6, 2020 (the “Meeting”), the Board of Trustees (the “Board”) of North Square Investments Trust (the “Trust”), including each of the Independent Trustees, unanimously voted to approve the continuation of: (i) the investment management agreement (the “Management Agreement”) between North Square Investments, LLC (the “Adviser”) and the Trust, on behalf of each of its series (each, a “Fund” and collectively, the “Funds”); (ii) the investment sub-advisory agreement between the Adviser and Oak Ridge Investments, LLC (“Oak Ridge Investments”), with respect to North Square Oak Ridge Small Cap Growth Fund, North Square Oak Ridge Disciplined Growth Fund, North Square Oak Ridge Dividend Growth Fund and North Square Multi Strategy Fund; and (iii) the investment sub-advisory agreement between the Adviser and Algert Global LLC (“Algert Global” and collectively with Oak Ridge Investments, the “Sub-Advisers”), with respect to North Square Dynamic Small Cap Fund. The Adviser and the Sub-Advisers are collectively referred to as the “Advisers.” The investment sub-advisory agreements with the Sub-Advisers are collectively referred to as the “Sub-Advisory Agreements,” and the Management Agreement and the Sub-Advisory Agreements are collectively referred to as the “Agreements.”

In connection with its consideration of the Agreements, the Board requested and reviewed with the advice of counsel, responses from the Advisers to questions posed to the Advisers on behalf of the Independent Trustees and supporting materials relating to those questions and responses. In this capacity, the Board reviewed and discussed various information that had been provided prior to the Meeting, including the Management Agreement, the Sub-Advisory Agreements, memorandums provided by both legal counsel and independent trustee counsel summarizing the guidelines relevant to the Board’s consideration of the approvals of such Agreements, a memorandum and other information provided in response to a request from the Board from the Adviser (including, but not limited to, each of the Advisers’ Form ADV Part 1A, brochures and brochure supplements, profitability information, comparative information about the Funds’ performance for periods ended June 30, 2020, management fees and expense ratios, information about similar accounts managed by the Adviser, and other pertinent information. In addition, the Board considered such additional information as it deemed reasonably necessary, including information provided by the Advisor during the course of the year, to evaluate the Agreements, as applicable, with respect to each Fund.

The Board considered the Adviser’s 15(c) response and discussed various questions and information with representatives of the Advisers at the Meeting. The Board also considered the materials and presentations by Fund officers and representatives of the Advisers and Sub-Advisers received at the Meeting concerning the Agreements. The Board also took into account information reviewed periodically throughout the year that was relevant to its consideration of the Agreements, including performance, management fee and other expense information and discussions with the Funds’ portfolio managers. Based on its evaluation of this information, the Board, including the Independent Trustees, unanimously approved the continuation of the Agreements for the Funds for an additional one-year period.

In determining whether to approve the Agreements for a Fund, the members of the Board reviewed and evaluated information and factors they believed to be relevant and appropriate in the exercise of their reasonable business judgment. While individual members of the Board may have weighed certain factors differently, the Board’s determination to approve the Agreements was based on a comprehensive consideration of all information provided to the Board with respect to the approval of the Agreements. The Board was also furnished with an analysis of its fiduciary obligations in connection with its evaluation of the Agreements and, throughout the evaluation process, the Board was assisted by counsel for the Funds. The Independent Trustees were also separately assisted by independent legal counsel, from whom they received separate legal advice and with whom they met separately. A more detailed summary of the significant factors the Board considered with respect to its renewal of the Agreements is provided below.

Nature, Extent and Quality of Services

The Board considered information regarding the nature, extent and quality of services being provided to the Funds by the Advisers. The Board considered, among other things, the terms of the Agreements and the range of services being provided by the Advisers. The Board noted the non-investment advisory services being provided by the Adviser is consistent with the terms of the Management Agreements, including the supervision and coordination of the Funds’ services providers and the provision of related administrative and other services. The Board considered each Adviser’s reputation, organizational structure, resources and overall financial strength, as well as its willingness to consider and implement organizational and operational changes designed to enhance services to the Funds. The Board also considered the Advisers’ professional personnel who provide services to the Funds, including each Adviser’s ability and

North Square Funds

SUPPLEMENTAL INFORMATION (Unaudited) – Continued

experience in attracting and retaining qualified personnel to service the Funds. In addition, the Board considered the compliance programs and compliance records of the Advisers. The Board noted the Advisers' support of the Funds' compliance control structure, including the resources that are devoted by the Advisers in support of the Funds' obligations pursuant to Rule 38a-1 under the 1940 Act and the efforts of the Advisers to combat cybersecurity risks and invest in business continuity planning, including the steps taken by the Adviser to address the challenges created by the Covid-19 pandemic.

With respect to the Adviser, the Board considered the Funds' ongoing operation in a "manager-of-managers" structure and reviewed the responsibilities that the Adviser has under this structure, including monitoring and evaluating the performance of the Sub-Advisers, monitoring the Sub-Advisers for adherence to the stated investment objectives, strategies, policies and restrictions of the Funds, and supervising the Sub-Advisers with respect to the services that the Sub-Advisers currently provide under the Sub-Advisory Agreements. In this regard, the Board evaluated information about the nature and extent of responsibilities retained and risks assumed by the Adviser and not delegated to or assumed by the Sub-Advisers. The Board also considered the process used by the Adviser, consistent with this structure, to identify and recommend sub-advisers, and its ability to monitor and oversee sub-advisers and recommend replacement sub-advisers, when necessary, and provide other services under the Management Agreement.

With respect to the Sub-Advisers, which provide certain day-to-day portfolio management services for the Funds, subject to oversight by the Adviser, the Board considered, among other things, the quality of each Sub-Adviser's investment personnel, its investment philosophies and processes, its investment research capabilities and resources, its performance record, its experience, its trade execution capabilities and its approach to managing risk. The Board considered the experience of each Fund's portfolio managers, the number of accounts managed by the portfolio managers, and each Sub-Adviser's method for compensating the portfolio managers. Moreover, the Board considered that the Adviser oversees potential conflicts of interest between each Fund's investments and those of other funds or accounts managed by the Fund's portfolio managers.

After consideration of the foregoing factors, among others, the Board concluded that the nature, extent and quality of services being provided by the Adviser and the Sub-Advisers, taken as a whole, remain appropriate and consistent with the terms of the Management Agreement and the Sub-Advisory Agreements. In addition, the Board concluded that each Fund was likely to continue to benefit from services being provided under each of the Agreements.

Fund Performance

The Board reviewed the performance of each Fund over different time periods presented in the materials. The Board noted that performance for certain longer time periods were the performance of Predecessor Funds that had similar investment objectives that were managed by the same Sub-Advisers prior to joining the Trust.

The Board considered various data and materials provided to the Board by the Advisers concerning Fund performance, as well as information from Morningstar Inc. ("Morningstar"), an independent provider of investment company data, comparing the investment performance of each Fund to its respective benchmark index, and to a universe of peer funds as determined by Morningstar (the "Universe") and a more focused peer group of funds selected from the Universe by Morningstar (the "Peer Group"). The Board received a description of the methodology used by Morningstar to select the funds in each Fund's Peer Group and Universe.

The Board received information concerning, and discussed factors contributing to, the performance of the Funds relative to their respective benchmarks and Universes for the relevant periods. The Board evaluated the explanations for any relative underperformance of a Fund during these periods, including with respect to investment decisions and market and other factors that affected the Fund's investment performance.

Based on these considerations, the Board concluded that it was satisfied that the Adviser and the Sub-Advisers continue to have the capability of providing satisfactory investment performance for the Funds, as applicable.

Management Fees and Expenses

The Board reviewed and considered the management fee rate of each Fund that is being paid to the Adviser under the Management Agreement and each Fund's total net expense ratio. The Board noted that each Fund's total net expense ratio was as a result of the Adviser's contractual agreement to limit each Funds' total operating expenses to specified levels for a period of at least two years from the date of the initial prospectus for each Fund. The Board also reviewed and considered the sub-advisory fee rates being paid by the Adviser to each Sub-Adviser for sub-advisory services. The Board reviewed information from Morningstar comparing each Fund's management fee rate and total expense ratio relative to a group of its peer funds. While the Board recognized that comparisons between a Fund and its peer funds may be imprecise, the comparative information provided by Morningstar assisted the Board in evaluating the reasonableness of each Fund's fees and total expense ratio. For details regarding each Fund's expenses, see the Fund-by-Fund synopsis below.

North Square Funds

SUPPLEMENTAL INFORMATION (Unaudited) – Continued

The Board also received and considered information about the portion of the management fee that is being retained by the Adviser after payment of the fee to each Sub-Adviser for sub-advisory services. In assessing the reasonableness of this amount, the Board received and evaluated information about the nature and extent of responsibilities that are retained and risks that are assumed by Adviser and not delegated to or assumed by the Sub-Advisers, and about the Adviser's on-going oversight services. The Board also considered that the sub-advisory fees being paid to each Sub-Adviser had been negotiated by the Adviser on an arm's length basis.

The Board also received and considered information about the nature and extent of services offered and fee rates charged by the Adviser and the Sub-Advisers to other types of clients with investment strategies similar to those of the Funds. In this regard, the Board received information about the significantly greater scope of services, and compliance, reporting and other legal burdens and risks of managing proprietary mutual funds compared with those associated with managing assets of other types of clients, including non-mutual fund clients such as institutional separate accounts.

Based on its consideration of the factors and information it deemed relevant, including those described here, the Board concluded that the compensation payable to the Adviser under the Management Agreement and to the Sub-Advisers under the Sub-Advisory Agreements were reasonable.

Profitability

The Board received and considered information concerning the Adviser's costs of sponsoring the Funds and the profitability to the Adviser from providing services to the Funds. The Adviser reported on the methodologies and estimates used in calculating profitability, including a description of the methodology used to allocate certain expenses. The Board noted that the levels of profitability reported on a Fund-by-Fund basis may be affected by numerous factors including, among other things, the size, type and age of the Fund and fee waivers and expense reimbursements by the Adviser. The Board also received information relating to the operations and profitability to each Sub-Adviser from providing services to the Funds. The Board considered representations from the Adviser and each Sub-Adviser that the Sub-Adviser's fees were negotiated at arm's length on a Fund-by-Fund basis and that the sub-advisory fees are paid by the Adviser and not the Funds. Accordingly, the Board concluded that the profitability of each Sub-Adviser is a less relevant factor with respect to the Board's consideration of the Sub-Advisory Agreements. In addition, the Board took note that each of the Funds remains in an early stage of development.

Based on its review, the Board did not deem the profits reported by the Advisers from services being provided to the Funds to be at a level that would prevent it from approving the Agreements.

Economies of Scale

The Board received and considered information about the potential for the Adviser to experience economies of scale in the provision of management services to each Fund, the difficulties of calculating economies of scale at an individual fund level, and the extent to which potential scale benefits may be shared with shareholders of the Fund. The Board reviewed the breakpoints in the management fee schedule for each Fund, if any, which reduce fee rates as the Fund's assets grow over time. The Board considered that in addition to management fee breakpoints, the Adviser may share potential economies of scale from its management business in a variety of ways, including through fee waiver and expense reimbursement arrangements, services that benefit shareholders, competitive management fee rates set at the outset without regard to breakpoints, and investments in the business intended to enhance services available to shareholders. The Board observed that each of the Funds remains in an early stage of development.

The Board concluded that the Adviser's arrangements with respect to the Funds constituted a reasonable approach to sharing potential economies of scale with the Funds and their shareholders.

"Fall-Out" Benefits

The Board received and considered information regarding potential "fall-out" or ancillary benefits that the Adviser and its affiliates may receive as a result of their relationships with the Funds. Ancillary benefits could include, among others, benefits directly attributable to other relationships with the Fund and benefits potentially derived from an increase in the Adviser's business as a result of their relationships with the Fund. In addition, the Board considered the potential benefits, other than sub-advisory fees, that the Sub-Advisers and their affiliates may receive because of their relationships with the Funds, including the benefits of research services that may be available to the Sub-Adviser as a result of securities transactions effected for the Funds and other investment advisory clients, as well as other benefits from increases in assets under management.

Based on its consideration of the factors and information it deemed relevant, including those described here, the Board did not find that any ancillary benefits that may be received by the Advisers and their affiliates are unreasonable.

Conclusion

At the Meeting, after considering the above-described material factors and based on its deliberations and its evaluation of the information described above, and assisted by the advice of both Fund and independent legal counsel, the Board, including the Independent Trustees, concluded that the approval of the renewal and continuation of the Agreements is in the best interest of each Fund and its shareholders.

Liquidity Risk Management Program

In accordance with Rule 22e-4 under the Investment Company Act of 1940, as amended (the “Liquidity Rule”), the North Square Investments Trust (the “Trust”) has adopted and implemented a liquidity risk management program (the “Program”) for the funds within the Trust (the “Funds”). The Program seeks to assess and manage each Funds’ liquidity risk. “Liquidity risk” is defined under the Liquidity Rule as the risk that each Fund is unable to meet redemption requests without significantly diluting remaining investors’ interests in the Fund. The Trust’s Board of Trustees (the “Board”) has approved the designation of the Funds’ investment adviser as the administrator for the Program (the “Trust Program Administrator”).

At its meeting on December 16, 2020, the Board received and reviewed a written report (the “Report”) from the Trust’s Vice President, on behalf of the Trust Program Administrator, concerning the operation of the Program for the period from the Program’s inception on June 1, 2019 through September 30, 2020 (the “Period”). The Report noted that the Program complied with the key factors for consideration under the Liquidity Rule for assessing, managing and periodically reviewing a Fund’s liquidity risk, including the following: (1) the periodic assessment (no less frequently than annually) of certain factors that influence each Fund’s liquidity risk; (2) the periodic classification (no less frequently than monthly) of the Fund’s investments into one of four liquidity categories that reflect an estimate of their liquidity under current market conditions; (3) a 15% limit on the acquisition of “illiquid investments” (as defined under the Liquidity Rule); (4) to the extent a Fund does not invest primarily in “highly liquid investments” (as defined under the Liquidity Rule), the determination of a minimum percentage of the Fund’s assets that generally will be invested in highly liquid investments (an “HLIM”); (5) if a Fund has established an HLIM, the periodic review (no less frequently than annually) of the HLIM and the adoption of policies and procedures for responding to a shortfall of the Fund’s highly liquid investments below its HLIM; and (6) periodic reporting to the Board.

The Report summarized the operation of the Program and the information and factors considered by the Trust Program Administrator in assessing whether the Program has been adequately and effectively implemented with respect to the Funds. The Report considered each Fund’s liquidity risk under both normal and reasonably foreseeable stressed market conditions using certain factors required by the Rule and the Program, to the extent deemed appropriate by the Trust Program Administrator. The Report stated that the Funds have retained ICE Data Services, a third-party vendor, to provide a liquidity risk classification specified by the Rule. The Report also noted that each Fund primarily held investments that were classified as highly liquid during the review period and that each Fund’s portfolio is expected to continue to primarily hold highly liquid investments. Thus, the Trust Program Administrator concluded in the Report that each Fund is considered a “primarily highly liquid fund” (as defined in the Rule and Program) and each Fund can therefore rely on the exclusion in the Rule from the requirements to establish an HLIM and to adopt policies and procedures for responding to a HLIM shortfall. There were no material changes to the Program during the Period.

Based on its review, the Report of the Trust Program Administrator concluded that the Program is reasonably designed to assess and manage liquidity risk and has been and continues to be adequately and effectively implemented to monitor and, as applicable, respond to each Funds’ liquidity developments.

EXPENSE EXAMPLES
For the Six Months Ended November 30, 2020 (Unaudited)

Expense Examples

As a shareholder of the Funds, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments (Class A only); and redemption fees; and (2) ongoing costs, including management fees; distribution and/or service (12b-1) fees (Class A only); and other Fund expenses. The examples below are intended to help you understand your ongoing costs (in dollars) of investing in the Funds and to compare these costs with the ongoing costs of investing in other mutual funds.

These examples are based on an investment of \$1,000 invested at the beginning of the period and held for the entire six month period from June 1, 2020 to November 30, 2020.

Actual Expenses

The information in the row titled “Actual Performance” of the table below provides actual account values and actual expenses. You may use the information in these columns, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the appropriate row for your share class, in the column titled “Expenses Paid During Period” to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The information in the row titled “Hypothetical (5% annual return before expenses)” of the table below provides hypothetical account values and hypothetical expenses based on each Fund’s actual expense ratios and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare these 5% hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transaction costs, such as sales charges (loads) or redemption fees. Therefore, the information in the row titled “Hypothetical (5% annual return before expenses)” is useful in comparing ongoing costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.
