The Fund has adopted the historical performance of the Oak Ridge Dynamic Small Cap Fund as a result of a reorganization on May 10, 2019. At the time of the reorganization, the Fund and the predecessor fund had substantially the same investment strategies. Additionally, the performance information presented for periods prior to September 30, 2015 is also based on a different predecessor fund. The predecessor fund's and the Fund's objectives, policies, guidelines and restrictions are, in all material respects, equivalent to those of the predecessor account. Please see the Fund's prospectus for additional information.

The Russell 2000® Index measures the performance of the small cap segment of the U.S. equity universe. The Russell 2000 Index is a subset of the Russell 3000® Index representing approximately 10% of the total market capitalization of that index. It includes approximately 2000 of the smallest securities based on a combination of their market cap and current index membership. The volatility (beta) of the account may be greater or less than that of the benchmark. It is not possible to invest directly in an index.

The Morningstar Rating™ for funds, or “star rating”, is calculated monthly for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product’s monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. The Ranking may reflect the waiver of all or a portion of the fund’s fees. Without such waiver, the Rankings may have been lower. © 2023 Morningstar, Inc. All Rights Reserved. **Price-to-Earnings Ratio** is the price of a stock divided by its earnings per share.

**Active Share** is a measure of the percentage of stock holdings in a manager’s portfolio that differ from the benchmark index.

**“High-Alpha”** is a term used in investing to describe an investment strategy’s ability to beat the market, or the “edge” that the strategy is intended to possess. Alpha is also often referred to as excess return.

\*\*\*The “Fi360 Fiduciary Score®” is a peer percentile ranking of an investment against a set of quantitative due diligence criteria selected to reflect prudent fiduciary management. The Fi360 Fiduciary Score® Average is a one-, three-, five-, or ten-year rolling average of an investment’s Fi360 Fiduciary Score®. Each investment is evaluated against a set of factors and thresholds and allotted points. The points are totaled and compared to all other investments within the peer group. Investments with 0 points are automatically given an Fi360 Fiduciary Score® of 0. Every other investment is then given a Score of 1-100, representing their percent ranking based on its placement in the distribution of their peer group. An Fi360 Fiduciary Score® of 0 is most favorable. It represents that an investment meets or exceeds all of Broadridge Fi360 Solutions’ recommended due diligence thresholds. A Score of 100 is least favorable. Visit [www.fi360.com/fi360-Fiduciary-Score](http://www.fi360.com/fi360-Fiduciary-Score) for the complete methodology document.
