It should be read and retained for future reference.**

SUMMARY SECTION – NORTH SQUARE KENNEDY MICROCAP FUND

Investment Objective

The investment objective of the North Square Kennedy MicroCap Fund (the “Fund”) is to provide capital appreciation.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.** You may qualify for sales charge discounts if you and your family invest, or agree to invest in the future, at least \$50,000 in Class A shares of the Fund. More information about these and other discounts is available from your financial intermediary and in the section titled “Class A Shares” and in “APPENDIX A – Waivers and Discounts Available from Certain Intermediaries” of the Prospectus.

	Class A Shares	Class I Shares
Shareholder Fees <i>(fees paid directly from your investment)</i>		
Maximum sales charge (load) imposed on purchases (as a percentage of offering price)	5.75%	None
Maximum deferred sales charge (load) (as a percentage of the lesser of the value redeemed or the amount invested)	None ¹	None
Redemption fee (as a percentage of amount redeemed)	None	None
Annual Fund Operating Expenses <i>(expenses that you pay each year as a percentage of the value of your investment)</i>		
Management fees	1.20%	1.20%
Distribution and service (Rule 12b-1) fees	0.25%	None
Other expenses	0.48%	0.48%
Shareholder service fee	0.15%	0.15%
All other expenses ²	0.33%	0.33%
Total annual fund operating expenses	1.93%	1.68%
Fees waived and/or expenses reimbursed	(0.21)%	(0.21)%
Total annual fund operating expenses after waiving fees and/or reimbursing expenses³	1.72%	1.47%

- No sales charge applies on investments of \$500,000 or more, but a contingent deferred sales charge (“CDSC”) of 1% will be imposed on certain redemptions of such shares within 12 months of the date of purchase.
- “All Other Expenses” are estimated for the current fiscal year.
- North Square Investments, LLC (“North Square” or the “Adviser”), the Fund’s investment adviser, has contractually agreed to waive its fees and/or pay for or reimburse operating expenses of the Fund to ensure that total annual fund operating expenses (excluding any taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, any acquired fund fees and expenses, expenses incurred in connection with any merger or reorganization, and extraordinary expenses such as litigation expenses) do not exceed 1.72% and 1.47% of the average daily net assets of the Fund’s Class A and Class I shares, respectively. This agreement is in effect until September 30, 2025, and it may be terminated before that date only by the Board of Trustees. North Square is permitted to seek reimbursement from the Fund, subject to certain limitations, of fees waived, payments made or expenses reimbursed to the Fund for a period ending 36 months after the date of the waiver, payment or reimbursement. This reimbursement may be requested from the Fund if the reimbursement will not cause the Fund’s annual expense ratio to exceed the lesser of (a) the expense limitation amount in effect at the time such fees were waived, payments made or expenses reimbursed, or (b) the expense limitation amount in effect at the time of the reimbursement.

Example

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same (taking into account the contractual fee waiver until September 30, 2025). Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	One Year	Three Years
Class A shares	\$740	\$1,127
Class I shares	\$150	\$509

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. Since the Fund has yet to commence operations, no portfolio turnover information is available for its most recently completed fiscal year.

Principal Investment Strategies

Under normal circumstances, the Fund will invest at least 80% of its net assets (plus any borrowings for investment purposes) in equity securities of micro-capitalization companies. The Fund considers micro-capitalization companies to be companies with market capitalizations generally within the ranges of the Russell Microcap® Index at the time of purchase. As of December 31, 2023, the market capitalization range of the Russell Microcap® Index was between \$0.63 million and \$7.9 billion. The Fund's investments in equity securities may include common and preferred stock, convertible securities, securities of real estate investment trusts ("REITs") and shares of investment companies, including exchange-traded funds ("ETFs") designed to track micro-cap indices. While the Fund invests primarily in equity securities of U.S. issuers, it may invest in securities of foreign issuers, including those in emerging market countries or developing countries as defined by the World Bank, International Finance Corporation or the Morgan Stanley Capital International (MSCI) emerging market indices or other comparable indices. Investments in such foreign issuers are not expected to exceed 20% of the Fund's net assets. The Fund follows an investing style that favors core investments.

The Fund's sub-adviser, Kennedy Capital Management LLC ("Kennedy Capital" or the "Sub-Adviser"), utilizes fundamental, bottom-up research to identify companies that are able to reinvest in their businesses at attractive rates of return, and invest in those companies when prices do not, in the view of the Sub-Adviser, adequately reflect the companies' potential value creation from those investments, including their anticipated growth prospects. The Sub-Adviser believes that the operating cash-flow returns of a business is the best measure of a company's performance and that the ability to reinvest cash flows into high return projects creates a powerful compounding effect, which in turn creates value for shareholders over time. The Sub-Adviser employs a research team of sector-specific analysts to perform fundamental analysis on new potential ideas for the strategy, as well as existing holdings, in order to invest across the full spectrum of opportunities. Each company under consideration for investment is initially classified by the Sub-Adviser's research team as one of these investment types: (i) Steady Compounder, (ii) Material Positive Change (including growth prospects), (iii) Out of Favor, and (iv) Deep Value. Companies classified as Steady Compounder are established companies that are able to sustain evaluated levels of asset growth, have consistently high or expanding returns on invested capital and have high barriers to entry. Companies classified as Material Positive Change demonstrate structural change (e.g., management divesting an underperforming business segment) that improves asset growth and/or returns on invested capital ("ROIC") or cash flow return on investment ("CFROI") have a growth profile post-change and can be found anywhere along the growth life cycle. Companies classified as Out of Favor are those companies whose intrinsic business returns are undervalued and experience near term negative sentiment. Companies classified as Deep Value are those companies with a significant gap between intrinsic and market valuations and whose current levels of growth and ROIC/CFROI may be weak in comparison to their peers. This labor intensive, bottom-up approach, combined with discounted cash-flow valuation analysis, forms the basis of the Sub-Adviser's investment process.

The Sub-Adviser may sell all or a portion of a position of the Fund's portfolio holding when in its opinion one or more of the following occurs, among other reasons: (i) there is a change in the Sub-Adviser's analysis on a particular issuer; (ii) a company's stock price is at the high end of the company's historical range; (iii) the issuer's fundamentals deteriorate; (iv) the Sub-Adviser identifies more attractive investment opportunities for the Fund; (v) the issuer's market capitalization consistently exceeds the capitalization range of the Russell Microcap® Index; or (vi) the Fund requires cash to meet redemption requests.

The Fund also may invest in American, European, and Global Depositary Receipts ("ADRs," "EDRs," and "GDRs," respectively). ADRs are receipts that represent interests in foreign securities held on deposit by U.S. banks. EDRs and GDRs have the same qualities as ADRs, except that they may be traded in several international trading markets. The Fund may also invest in initial public offerings ("IPOs") of equity securities.

Principal Risks of Investing

Risk is inherent in all investing, including an investment in the Fund. An investment in the Fund involves risk, including the following principal risks, among others: Equity Risk, Preferred Stock Risk, Convertible Securities Risk, Sector Focus Risk, Portfolio Turnover Risk, Market Risk, Micro-Cap and Small-Cap-Sized Company Risk, Growth-Oriented Investment Strategies Risk, Value-Oriented Investment Strategies Risk, Reliance on Technology Risk, Cybersecurity Risk, ETF and Mutual Funds Risk, Real Estate Investments Trust Risk, Liquidity Risk, Currency Risk, Foreign Investment Risk, Emerging Market Risk, Initial Public Offering ("IPO") Risk, Limited Operating History Risk and Management and Strategy Risk. Summary descriptions of these and other principal risks of investing in the Fund are set forth below. Before you decide whether to invest in the Fund, carefully consider these risk factors and special considerations associated with investing in the Fund, which may cause investors to lose money. There can be no assurance that the Fund will achieve its investment objective. An investment in the Fund is not a deposit of the bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Equity Risk. The value of the equity securities held by the Fund may fall due to general market and economic conditions, perceptions regarding the industries in which the issuers of securities held by the Fund participate, or factors relating to specific companies in which the Fund invests.

Preferred Stock Risk. Preferred stock represents an equity interest in a company that generally entitles the holder to receive, in preference to the holders of other stocks such as common stock, dividends and a fixed share of the proceeds resulting from a liquidation of the company. The market value of preferred stock is subject to company-specific and market risks applicable generally to equity securities and is also sensitive to changes in the company's creditworthiness, the ability of the company to make payments on the preferred stock, and changes in interest rates, typically declining in value if interest rates rise.

Convertible Securities Risk. Convertible securities are subject to market and interest rate risk and credit risk. When the market price of the equity security underlying a convertible security decreases the convertible security tends to trade on the basis of its yield and other fixed income characteristics, and is more susceptible to credit and interest rate risks. When the market price of such equity security rises, the convertible security tends to trade on the basis of its equity conversion features and be more exposed to market risk. Convertible securities are frequently issued by smaller capitalized companies with stock prices that may be more volatile than those of other companies.

Real Estate Investment Trust (“REIT”) Risk. The Fund’s investment in REITs will subject the Fund to risks similar to those associated with direct ownership of real estate, including losses from casualty or condemnation, and changes in local and general economic conditions, supply and demand, interest rates, zoning laws, regulatory limitations on rents, property taxes and operating expenses.

ETF and Mutual Funds Risk. The Fund’s investment in ETFs and mutual funds (including other funds managed by the Adviser), generally reflects the risks of owning the underlying securities the ETF or mutual fund holds. It may also be more expensive for the Fund to invest in an ETF or mutual fund than to own the portfolio securities of these investment vehicles directly. An ETF may also trade at a discount to its net asset value. Investing in ETFs or mutual funds involves duplication of advisory fees and certain other expenses. The Fund will pay brokerage commissions in connection with the purchase and sale of shares of ETFs. In addition, the Fund may invest in underlying funds which invest a larger portion of their assets in one or more sectors than many other mutual funds, and thus will be more susceptible to negative events affecting those sectors. The Fund will be indirectly exposed to the risks of the portfolio assets held by an underlying fund in which the Fund invests, including, but not limited to, derivatives, currencies and leverage risk.

Sector Focus Risk. The Fund may from time to time invest a larger portion of its assets in one or more sectors than many other mutual funds, and thus will be more susceptible to negative events affecting those sectors.

Portfolio Turnover Risk. High portfolio turnover (generally, turnover in excess of 100% in any given fiscal year) may result in increased transaction costs to a Portfolio, which may result in higher fund expenses and lower total return.

Market Risk. The market price of a security or instrument may decline, sometimes rapidly or unpredictably, due to general market conditions that are not specifically related to a particular company, such as real or perceived adverse economic or political conditions throughout the world, including war, public health crises (including the occurrence of a contagious disease or illness, such as COVID-19), changes in the general outlook for corporate earnings, inflation, changes in interest or currency rates or adverse investor sentiment generally. The market value of a security or instrument also may decline because of factors that affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry.

Micro-Cap and Small-Cap-Sized Company Risk. The securities of micro- and small-capitalization companies may be subject to more abrupt or erratic market movements and may have lower trading volumes or more erratic trading than securities of larger, more established companies or market averages in general. In addition, such companies typically are more likely to be adversely affected than large-capitalization companies by changes in earning results, business prospects, investor expectations or poor economic or market conditions.

Growth-Oriented Investment Strategies Risk. Growth funds generally focus on stocks of companies believed to have above-average potential for growth in revenue and earnings. Growth securities typically are very sensitive to market movements because their market prices frequently reflect projections of future earnings or revenues, and when it appears that those expectations will not be met, the prices of growth securities typically fall.

Value-Oriented Investment Strategies Risk. Value stocks are those that are believed to be undervalued in comparison to their peers due to adverse business developments or other factors. Value investing is subject to the risk that the market will not recognize a security’s inherent value for a long time or at all, or that a stock judged to be undervalued may actually be appropriately priced or overvalued. In addition, during some periods (which may be extensive) value stocks generally may be out of favor in the markets.

Reliance on Technology Risk. The Fund’s trading strategies are highly reliant on technology, including hardware, software and telecommunications systems. In addition, data gathering, research, forecasting, order execution, trade allocation, risk management, operational, back office and accounting systems are all highly automated and computerized. Such automation and computerization relies on an extensive amount of both proprietary software and third party hardware and software.

Cybersecurity Risk. Cybersecurity incidents may allow an unauthorized party to gain access to Fund assets, customer data (including private shareholder information), or proprietary information, or cause the Fund, the Adviser, the Sub-Adviser and/or other service providers (including custodians, sub-custodians, transfer agents and financial intermediaries) to suffer data breaches, data corruption or loss of operational functionality. In an extreme case, a shareholder’s ability to exchange or redeem Fund shares may be affected.

Liquidity Risk. The Fund may not be able to sell some or all of the investments that it holds due to a lack of demand in the marketplace or other factors such as market turmoil, or if the Fund is forced to sell an illiquid investment to meet redemption requests or other cash needs it may only be able to sell those investments at a loss. Illiquid investments may also be difficult to value.

Currency Risk. The values of investments in securities denominated in foreign currencies increase or decrease as the rates of exchange between those currencies and the U.S. Dollar change. Currency conversion costs and currency fluctuations could erase investment gains or add to investment losses. Currency exchange rates can be volatile and are affected by factors such as general economic conditions, the actions of the United States and foreign governments or central banks, the imposition of currency controls, and speculation.

Foreign Investment Risk. The prices of foreign securities may be more volatile than the prices of securities of U.S. issuers because of economic and social conditions abroad, political developments, and differences and changes in the regulatory environments of foreign countries. In addition, changes in exchange rates and interest rates may adversely affect the values of the Fund’s foreign investments. Foreign companies are generally subject to different legal and accounting standards than U.S. companies, and foreign financial intermediaries may be subject to less

supervision and regulation than U.S. financial firms. Foreign securities include ADRs, EDRs and GDRs. Unsponsored ADRs and GDRs are organized independently and without the cooperation of the foreign issuer of the underlying securities, and involve additional risks because U.S. reporting requirements do not apply. In addition, the issuing bank may deduct shareholder distribution, custody, foreign currency exchange, and other fees from the payment of dividends. Emerging markets tend to be more volatile than the markets of more mature economies and generally have less diverse and less mature economic structures and less stable political systems than those of developed countries.

Emerging Market Risk. Many of the risks with respect to foreign investments are more pronounced for investments in issuers in developing or emerging market countries. Emerging market countries tend to have more government exchange controls, more volatile interest and currency exchange rates, less market regulation, and less developed economic, political and legal systems than those of more developed countries. In addition, emerging market countries may experience high levels of inflation and may have less liquid securities markets and less efficient trading and settlement systems. In addition, companies in emerging market countries may not be subject to accounting, auditing, financial reporting and recordkeeping requirements that are as robust as those in more developed countries, and therefore, material information about a company may be unavailable or unreliable, and U.S. regulators may be unable to enforce a company’s regulatory obligations.

Initial Public Offering (“IPO”) Risk. The market value of IPO shares will fluctuate considerably due to factors such as the absence of a prior public market, unseasoned trading, the small number of shares available for trading and limited information about the issuer. The purchase of IPO shares may involve high transaction costs. IPO shares are subject to market risk and liquidity risk.

Limited Operating History Risk. The Fund is a recently organized series of an open-end management investment company and has limited operating history. As a result, prospective investors have a limited track record or history on which to base their investment decisions.

Management and Strategy Risk. The value of your investment depends on the judgment of the Adviser or Sub-Adviser about the quality, relative yield, value or market trends affecting a particular security, industry, sector or region, which may prove to be incorrect. Investment strategies employed by the Adviser or Sub-Adviser in selecting investments for the Fund may not result in an increase in the value of your investment or in overall performance equal to other investments.

Performance

Because the Fund has only recently commenced investment operations, no performance information is presented for the Fund at this time. In the future, performance information will be presented in this section of this Prospectus. In addition, shareholder reports containing financial and performance information will be available to shareholders semi-annually. Updated performance information is available at the Fund’s website, www.northsquareinvest.com, or by calling the Fund at 1-855-551-5521.

Investment Adviser and Sub-Adviser

North Square Investments, LLC is the Fund’s investment adviser. Kennedy Capital Management LLC (“Kennedy Capital” or the “Sub-Adviser”) is the Fund’s investment sub-adviser.

Portfolio Manager

The Sub-Adviser’s portfolio manager is Sean McMahon. Mr. McMahon is primarily responsible for the day-to-day management of the Fund’s portfolio. Mr. McMahon has been the portfolio manager of the Fund since the Fund’s inception in June 2024.

Purchase and Sale of Fund Shares

Currently, the Fund offers Class A Shares and Class I Shares. To purchase shares of the Fund, you must invest at least the minimum amount shown for each class in the chart below.

Minimum Investments	To Open Your Account	To Add to Your Account
Class A Shares		
All Accounts	\$1,000	\$100
Class I Shares		
All Accounts	\$100,000	None

As described below, the minimums can be waived in certain circumstances and by certain financial institutions.

Fund shares are redeemable on any business day the New York Stock Exchange (the “NYSE”) is open for business, by written request or by telephone.

Tax Information

The Fund’s distributions are generally taxable and will ordinarily be taxed as ordinary income, qualified dividend income or capital gains, unless you are investing through a tax-advantaged arrangement, such as a 401(k) plan or an individual retirement account (“IRA”). Shareholders investing through such tax-advantaged arrangements may be taxed later upon withdrawal of monies from those arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.

MORE ABOUT THE FUND'S INVESTMENT OBJECTIVES, PRINCIPAL INVESTMENT STRATEGIES AND RISKS

The Fund's investment objective is non-fundamental and may be changed by the Board of Trustees without shareholder approval. The Fund will provide written notice to shareholders prior to, or concurrent with, any such changes as required by applicable law. Should the Fund change its policy of investing at least 80% of its assets (net assets, plus the amount of any borrowings for investment purposes) in equity securities of micro-capitalization companies, the Fund will provide shareholders at least 60 days' notice prior to making the change. The Fund's investment strategies and policies may be changed from time to time without shareholder approval or prior written notice, unless specifically stated otherwise in this Prospectus or the Statement of Additional Information ("SAI"). There can be no guarantee that the Fund will achieve its investment objective.

The Fund's investment policies and limitations typically apply at the time an investment is made. As a result, the Fund generally may continue to hold positions that met a particular investment policy or limitation at the time the investment was made but subsequently do not meet the investment policy or limitation.

North Square Kennedy MicroCap Fund

Investment Objective

The North Square Kennedy MicroCap Fund seeks to provide capital appreciation.

Principal Investment Strategies

Under normal circumstances, the Fund will invest at least 80% of its net assets (plus any borrowings for investment purposes) in equity securities of micro-capitalization companies. The Fund considers micro-capitalization companies to be companies with market capitalizations generally within the ranges of the Russell Microcap[®] Index at the time of purchase. As of December 31, 2023, the market capitalization range of the Russell Microcap[®] Index was between \$0.63 million and \$7.9 billion. The Fund's investments in equity securities may include common and preferred stock, convertible securities, securities of real estate investment trusts ("REITs") and shares of investment companies, including exchange-traded funds ("ETFs") designed to track micro-cap indices. While the Fund invests primarily in equity securities of U.S. issuers, it may invest in securities of foreign issuers, including those in emerging market countries or developing countries as defined by the World Bank, International Finance Corporation or the Morgan Stanley Capital International (MSCI) emerging market indices or other comparable indices. Investments in such foreign issuers are not expected to exceed 20% of the Fund's net assets. The Fund follows an investing style that favors core investments.

The Fund's sub-adviser, Kennedy Capital Management LLC ("Kennedy Capital" or the "Sub-Adviser"), utilizes fundamental, bottom-up research to identify companies that are able to reinvest in their businesses at attractive rates of return, and invest in those companies when prices do not, in the view of the Sub-Adviser, adequately reflect the companies' potential value creation from those investments, including their anticipated growth prospects. The Sub-Adviser believes that the operating cash-flow returns of a business is the best measure of a company's performance and that the ability to reinvest cash flows into high return projects creates a powerful compounding effect, which in turn creates value for shareholders over time. The Sub-Adviser employs a research team of sector-specific analysts to perform fundamental analysis on new potential ideas for the strategy, as well as existing holdings, in order to invest across the full spectrum of opportunities. Each company under consideration for investment is initially classified by the Sub-Adviser's research team as one of these investment types: (i) Steady Compounder, (ii) Material Positive Change (including growth prospects), (iii) Out of Favor, and (iv) Deep Value. Companies classified as Steady Compounder are established companies that are able to sustain evaluated levels of asset growth, have consistently high or expanding returns on invested capital and have high barriers to entry. Companies classified as Material Positive Change demonstrate structural change (e.g., management divesting an underperforming business segment) that improves asset growth and/or returns on invested capital ("ROIC") or cash flow return on investment ("CFROI") have a growth profile post-change and can be found anywhere along the growth life cycle. Companies classified as Out of Favor are those companies whose intrinsic business returns are undervalued and experience near term negative sentiment. Companies classified as Deep Value are those companies with a significant gap between intrinsic and market valuations and whose current levels of growth and ROIC/CFROI may be weak in comparison to their peers. This labor intensive, bottom-up approach, combined with discounted cash-flow valuation analysis, forms the basis of the Sub-Adviser's investment process.

The Sub-Adviser may sell all or a portion of a position of the Fund's portfolio holding when in its opinion one or more of the following occurs, among other reasons: (i) there is a change in the Sub-Adviser's analysis on a particular issuer; (ii) a company's stock price is at the high end of the company's historical range; (iii) the issuer's fundamentals deteriorate; (iv) the Sub-Adviser identifies more attractive investment opportunities for the Fund; (v) the issuer's market capitalization consistently exceeds the capitalization range of the Russell Microcap[®] Index; or (vi) the Fund requires cash to meet redemption requests.

The Fund also may invest in American, European, and Global Depositary Receipts ("ADRs," "EDRs," and "GDRs," respectively). ADRs are receipts that represent interests in foreign securities held on deposit by U.S. banks. EDRs and GDRs have the same qualities as ADRs, except that they may be traded in several international trading markets.

Principal Risks of Investing in the Fund

This section of the Prospectus provides additional information about the Fund's investment practices and related risks, including principal and non-principal strategies and risks. This Prospectus does not describe all of the Fund's investment practices; additional information about the Fund's risks and investments can be found in the Fund's SAI. The Fund's exposure to the risks discussed below may be through the Fund's direct investments or indirect through the Fund's investments in underlying funds, if applicable. Before you decide whether to invest in the Fund, carefully consider these risks and special considerations associated with investing in the Fund, which may cause you to lose money. An investment in the Fund is not bank deposit and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Equity Risk. The value of equity securities held by the Fund may fall due to general market and economic conditions, perceptions regarding the industries in which the issuers of securities held by the Fund participates, or factors relating to specific companies in which the Fund invests. The price of common stock of an issuer in the Fund's portfolio may decline if the issuer fails to make anticipated dividend payments because, among other reasons, the financial condition of the issuer declines. Common stock is subordinated to preferred stocks, bonds and other debt instruments in a company's capital structure in terms of priority with respect to corporate income, and therefore will be subject to greater dividend risk than preferred stocks or debt instruments of such issuers. In addition, while broad market measures of common stocks have historically generated higher average returns than fixed income securities, common stocks have also experienced significantly more volatility in those returns.

Convertible Securities Risk. Convertible securities are securities that are convertible into or exchangeable for common or preferred stock. The values of convertible securities may be affected by changes in interest rates, the creditworthiness of their issuer, and the ability of the issuer to repay principal and to make interest payments. A convertible security tends to perform more like a stock when the underlying stock price is high and more like a debt security when the underlying stock price is low. A convertible security is not as sensitive to interest rate changes as a similar non-convertible debt security and generally has less potential for gain or loss than the underlying stock.

Sector Focus Risk. The Fund may invest a larger portion of its assets in one or more sectors than many other mutual funds and thus will be more susceptible to negative events affecting those sectors. At times the performance of the Fund's investments may lag the performance of other sectors or the broader market as a whole. Such underperformance may continue for extended periods of time.

Portfolio Turnover Risk. As a result of its trading strategies, the Fund may sell portfolio securities without regard to the length of time they have been held and will likely have a higher portfolio turnover rate than other mutual funds. Since portfolio turnover may involve paying brokerage commissions and other transaction costs, higher turnover generally results in additional Fund expenses. High rates of portfolio turnover may lower the performance of the Fund due to these increased costs and may also result in the realization of short-term capital gains. If the Fund realizes capital gains when Fund Investments are sold, the Fund must generally distribute those gains to shareholders, increasing the Fund's taxable distributions. High rates of portfolio turnover in a given year would likely result in short-term capital gains that are taxed to shareholders at ordinary income tax rates.

Market Risk. The market price of a security or instrument may decline, sometimes rapidly or unpredictably, due to general market conditions that are not specifically related to a particular company, such as real or perceived adverse economic or political conditions throughout the world, including war, public health crises (including the occurrence of a contagious disease or illness, such as COVID-19), changes in the general outlook for corporate earnings, inflation, changes in interest or currency rates or adverse investor sentiment generally. The market value of a security or instrument also may decline because of factors that affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry. For example, the financial crisis that began in 2008 caused a significant decline in the value and liquidity of many securities; in particular, the values of some sovereign debt and of securities of issuers that invest in sovereign debt and related investments fell, credit became more scarce worldwide and there was significant uncertainty in the markets. Such environments could make identifying investment risks and opportunities especially difficult for the Sub-Adviser. In response to the crisis, the United States and other governments took steps to support financial markets. The withdrawal of this support or failure of efforts in response to the crisis could negatively affect financial markets generally as well as the value and liquidity of certain securities. In addition, policy and legislative changes in the United States and in other countries are changing many aspects of financial regulation. The impact of these changes on the markets, and the practical implications for market participants, may not be fully known for some time. The current contentious domestic political environment, as well as political and diplomatic events within the United States and abroad, such as the U.S. government's inability at times to agree on a long-term budget and deficit reduction plan, has in the past resulted, and may in the future result, in a government shutdown, which could have an adverse impact on the Fund's investments and operations. Additional and/or prolonged U.S. federal government shutdowns may affect investor and consumer confidence and may adversely impact financial markets and the broader economy, perhaps suddenly and to a significant degree.

Micro-Cap and Small-Cap-Sized Company Risk. The securities of micro- and small-capitalization companies may be subject to more abrupt or erratic market movements and may have lower trading volumes or more erratic trading than securities of larger, more established companies or market averages in general. In addition, such companies typically are more likely to be adversely affected than large capitalization companies by changes in earning results, business prospects, investor expectations or poor economic or market conditions. Many micro- and small-capitalization companies may be in the early stages of development. Since equity securities of smaller companies may lack sufficient market liquidity and may not be regularly traded, it may be difficult or impossible to sell securities at an advantageous time or a desirable price. Further, micro- and small-capitalization companies may be exposed to additional risks including, but not limited to, having little or no recent financial information or disclosures available as many micro-capitalization companies do not file financial reports with the SEC, the potential for halted or restricted trading in their shares, and being more susceptible to manipulation due to their low trading volume and lack of analyst coverage.

Growth-Oriented Investment Strategies Risk. Growth funds generally focus on stocks of companies believed to have above-average potential for growth in revenue and earnings. Growth securities typically are very sensitive to market movements because their market prices frequently reflect projections of future earnings or revenues, and when it appears that those expectations will not be met the prices of growth securities typically fall. Prices of these companies' securities may be more volatile than those of other securities, particularly over the short term.

Value-Oriented Investment Strategies Risk. Value stocks are those that are believed to be undervalued in comparison to their peers due to adverse business developments or other factors. Value investing carries the risk that the market will not recognize a security's inherent value for a long time or at all, or that a stock judged to be undervalued may actually be appropriately priced or overvalued. In addition, during some periods (which may be extensive) value stocks generally may be out of favor in the markets. Therefore, the Fund is most suitable for long-term investors who are willing to hold their shares for extended periods of time through market fluctuations and the accompanying changes in share prices.

Initial Public Offering ("IPO") Risk. The market value of IPO shares will fluctuate considerably due to factors such as the absence of a prior public market, unseasoned trading, the small number of shares available for trading and limited information about the issuer. The purchase of IPO shares may involve high transaction costs. IPO shares are subject to market risk and liquidity risk.

Reliance on Technology Risk. The Fund's trading strategies are highly reliant on technology, including hardware, software and telecommunications systems. In addition, data gathering, research, forecasting, order execution, trade allocation, risk management, operational, back office and accounting systems are all highly automated and computerized. Such automation and computerization relies on an extensive amount of both proprietary software and third party hardware and software. Because of the quantity and nature of the software utilized, software errors may occur, and certain of these errors may impact portfolios. Additionally, with respect to third party hardware and software, such errors are often entirely outside of the control of the Fund. The Sub-Adviser seeks to reduce the incidence of software errors through a certain degree of internal testing and seeks to reduce the impact of such errors through monitoring and the use of certain independent safeguards in the overall portfolio management system and often, with respect to proprietary software, in the software code itself. Despite such testing, monitoring and independent safeguards, these software errors may result in, among other things, the execution of unanticipated trades, the failure to execute anticipated trades, the failure to properly allocate trades among clients, the failure to properly gather and organize available data and/or the failure to take certain hedging or risk reducing actions. These errors may be extremely hard to detect. Regardless of how difficult their detection appears in retrospect, some of these errors may go undetected for long periods of time and some may never be detected. The impact caused by errors may be compounded over time. The Fund assumes that software errors and their ensuing risks are an inherent part of investing with a process-driven, systematic investment manager, and does not expect to perform a materiality analysis on the vast majority of errors it discovers. The Sub-Adviser seeks, on an ongoing basis, to create adequate backups of software and hardware where possible but there is no guarantee that such efforts will be successful. Further, to the extent that an unforeseeable software or hardware malfunction or problem is caused by a defect, virus or other outside force, investors may be materially adversely affected.

Cybersecurity Risk. Cybersecurity incidents may allow an unauthorized party to gain access to Fund assets, customer data (including private shareholder information), or proprietary information, or cause the Fund, the Adviser, the Sub-Adviser, and/or other service providers (including custodians, sub-custodians, transfer agents and financial intermediaries) to suffer data breaches, data corruption or loss of operational functionality. In an extreme case, a shareholder's ability to exchange or redeem Fund shares may be affected.

REIT Risk. The Fund's investments in REITs will subject the Fund to risks similar to those associated with direct ownership of real estate, including losses from casualty or condemnation, and changes in local and general economic conditions, supply and demand, interest rates, zoning laws, regulatory limitations on rents, property taxes and operating expenses. Investment in REITs is subject to additional risks, such as poor performance by the manager of the REIT, adverse changes to the tax laws or failure by the REIT to qualify for the favorable tax treatment generally available to REITs under the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"). In addition, some REITs have limited diversification because they invest in a limited number of properties, a narrow geographic area, or a single type of property.

ETF and Mutual Funds Risk. Investing in an ETF or mutual fund will provide the Fund with exposure to the securities held by the mutual fund or ETF and will expose the Fund to risks similar to those of investing directly in those securities. An ETF may also trade at a discount to its net asset value. For example, where all or a portion of an ETF's underlying securities trade in a market that is closed when the market in which the ETF's shares are listed and trading in that market is open, there may be changes between the last quote from its closed foreign market and the value of such security during the ETF's domestic trading day. This could, in turn, result in differences between the market price of the ETF's shares and the underlying value of those shares. The Fund will pay brokerage commissions in connection with the purchase and sale of shares of ETFs. In addition, the Fund may invest in underlying funds which invest a larger portion of their assets in one or more sectors than many other mutual funds, and thus will be more susceptible to negative events affecting those sectors. The Fund will be indirectly exposed to the risks of the portfolio assets held by an underlying fund in which the Fund invests, including, but not limited to, derivatives, currencies and leverage risk.

The Fund may invest in ETFs and mutual funds (including other funds advised or sub-advised by the Adviser or its affiliates ("North Square-Related Funds")) in connection with any such investment. The Adviser or Sub-Adviser may be subject to potential conflicts of interest in selecting underlying funds because, among other reasons, the fees paid to it by North Square-Related Funds may be higher than the fees paid by other potential underlying funds and other benefits to the Adviser and Sub-Adviser may result from investments in North Square-Related Funds. To the extent the Fund invests a significant percentage of its assets in any one North Square-Related Fund or across multiple North Square-Related Funds, the Fund will be subject to a greater degree to the risks particular to the investment strategies employed by the Adviser or Sub-Adviser.

Liquidity Risk. The Fund may not be able to sell some or all of the investments that it holds due to a lack of demand in the marketplace or other factors such as market turmoil, or if the Fund is forced to sell an illiquid investment to meet redemption requests or other cash needs it may only be able to sell those investments at a loss. Illiquid investments may also be difficult to value.

Currency Risk. The values of investments in securities denominated in foreign currencies increase or decrease as the rates of exchange between those currencies and the U.S. Dollar change. Currency conversion costs and currency fluctuations could erase investment gains or add to investment losses. Currency exchange rates can be volatile and are affected by factors such as general economic conditions, the actions of the United States and foreign governments or central banks, the imposition of currency controls, and speculation.

Preferred Stock Risk. Preferred stock represents an equity interest in a company that generally entitles the holder to receive, in preference to the holders of other stocks such as common stocks, dividends and a fixed share of the proceeds resulting from a liquidation of the company. Preferred stocks may pay fixed or adjustable rates of return. The market value of preferred stock is subject to issuer-specific and market risks applicable generally to equity securities and is sensitive to changes in the issuer's creditworthiness, the ability of the issuer to make payments on the preferred stock and changes in interest rates, typically declining in value if interest rates rise. In addition, a company's preferred stock generally pays dividends only after the company makes required payments to holders of its bonds and other debt. Therefore, the value of preferred stock will usually react more strongly than bonds and other debt to actual or perceived changes in the company's financial condition or prospects.

Foreign Investment Risk. Investments in foreign securities are affected by risk factors generally not thought to be present in the United States. The prices of foreign securities may be more volatile than the prices of securities of U.S. issuers because of economic and social conditions abroad, political developments, and differences and changes in the regulatory environments of foreign countries. Special risks associated with investments in foreign markets include less liquidity, less developed or less efficient trading markets, lack of comprehensive company information, less government supervision of exchanges, brokers and issuers, greater risks associated with counterparties and settlement, and difficulty in enforcing contractual obligations. In addition, changes in exchange rates and interest rates, and imposition of foreign taxes, may adversely affect the value of the Fund's foreign investments. Foreign companies are generally subject to different legal and accounting standards than U.S. companies, and foreign financial intermediaries may be subject to less supervision and regulation than U.S. financial firms. The Fund's investments in depositary receipts (including ADRs and GDRs) are subject to these risks, even if denominated in U.S. Dollars, because changes in currency and exchange rates affect the values of the issuers of depositary receipts. In addition, the underlying issuers of certain depositary receipts, particularly unsponsored or unregistered depositary receipts, are under no obligation to distribute shareholder communications to the holders of such receipts, or to pass through to them any voting rights with respect to the deposited securities.

Emerging Market Risk. Many of the risks with respect to foreign investments are more pronounced for investments in issuers in developing or emerging market countries. Emerging market countries tend to have more government exchange controls, more volatile interest and currency exchange rates, less market regulation, and less developed economic, political and legal systems than those of more developed countries. In addition, emerging market countries may experience high levels of inflation and may have less liquid securities markets and less efficient trading and settlement systems. Their economies also depend heavily upon international trade and may be adversely affected by protective trade barriers and the economic conditions of their trading partners. Emerging market countries may have fixed or managed currencies that are not free-floating against the U.S. Dollar and may not be traded internationally. Some countries with emerging securities markets have experienced high rates of inflation for many years. Inflation and rapid fluctuations in inflation rates have had and may continue to have negative effects on the economies and securities markets of certain countries. Emerging securities markets typically have substantially less volume than U.S. markets, securities in these markets are less liquid, and their prices often are more volatile than those of comparable U.S. companies. Delays may occur in settling securities transactions in emerging market countries, which could adversely affect the Fund's ability to make or liquidate investments in those markets in a timely fashion. In addition, it may not be possible for the Fund to find satisfactory custodial services in an emerging market country, which could increase the Fund's costs and cause delays in the transportation and custody of its investments. Companies in emerging market countries may not be subject to accounting, auditing, financial reporting and recordkeeping requirements that are as robust as those in more developed countries, and therefore, material information about a company may be unavailable or unreliable, and U.S. regulators may be unable to enforce a company's regulatory obligations.

Limited Operating History Risk. The Fund is a recently organized series of an open-end management investment company and has limited operating history. As a result, prospective investors have a limited track record or history on which to base their investment decisions.

Management and Strategy Risk. The value of your investment depends on the judgment of the Sub-Adviser about the quality, relative yield, value or market trends affecting a particular security, industry, sector or region, which may prove to be incorrect. Investment strategies employed by the Sub-Adviser in selecting investments for the Fund may not result in an increase in the value of your investment or in overall performance equal to other investments.

Portfolio Holdings Information

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the Fund's SAI.

MANAGEMENT OF THE FUND

Investment Adviser

North Square, a Delaware limited liability company with its principal place of business at 200 West Madison Street, Suite 2610, Chicago, Illinois 60606, is the Fund's investment adviser and provides investment advisory services to the Fund pursuant to an investment advisory agreement between the Adviser and the North Square Investments Trust ("Trust"), on behalf of the Fund (the "Advisory Agreement"). Founded in September 2018, North Square is a registered investment adviser. Effective on or about June 24, 2024, the Trust is expected to change its name from "North Square Investments Trust" to "Exchange Place Advisors Trust."

Under the Advisory Agreement, the Adviser is responsible for providing or overseeing the provision of all investment management services to the Fund, including furnishing a continuous investment program for the Fund and determining what securities and other investments the Fund should buy and sell. The Adviser, together with the administrator to the Fund, is also responsible for assisting in the supervision and coordination of all aspects of the Fund's operations, including the coordination of the Fund's other services providers and the provision of related administrative and other services. The Adviser is authorized to delegate certain of its duties with respect to the Fund to one or more sub-advisers. The Adviser has engaged Kennedy Capital Management LLC ("Kennedy Capital" or the "Sub-Adviser") pursuant to this authority and is responsible for overseeing the Sub-Adviser and recommending its hiring, termination, and replacement for approval by the Board of Trustees (the "Board of Trustees" or the "Board"). The Adviser is also responsible for determining the portion of the Fund's assets to be managed by any given sub-adviser and reallocating those assets as necessary from time to time.

For a sub-advised Fund, the Adviser retains overall responsibility for the management and investment of the assets of the Fund. In this capacity, the Adviser plays an active role in overseeing, monitoring and reviewing the Sub-Adviser in the performance of its duties. The Adviser monitors the investment performance of the Sub-Adviser and also evaluates the portfolio management teams to determine whether their investment activities remain consistent with the Fund's investment objective, strategies and policies. The Adviser also monitors changes that may impact the Sub-Adviser's overall business and regularly performs due diligence reviews of the Sub-Adviser. In addition, the Adviser obtains detailed, comprehensive information concerning the Sub-Adviser's performance and Fund operations and provides regular reports on these matters to the Board. In its role as sponsor and primary investment adviser to the Fund, the Adviser assumes reputational and other risks associated with the operation of the Fund and provides the Fund with the ability to use the Adviser's name and brand, as well as access to other services provided by the Adviser and its affiliates.

For its services, the Adviser is entitled to receive the below annual management fee from the Fund, calculated daily and payable monthly, as a percentage of the Fund's average daily net assets.

Fund	Contractual Advisory Fees As a Percentage of Average Daily Net Assets
North Square Kennedy MicroCap Fund	1.20%

Manager-of-Managers Arrangement

Section 15(a) of the Investment Company Act of 1940, as amended (the "1940 Act") requires that all contracts pursuant to which persons serve as investment advisers to investment companies be approved by shareholders. This requirement also applies to the appointment of sub-advisers to the Fund. The Trust and the Adviser have been granted exemptive relief from the SEC (the "Order"), which permits the Adviser, on behalf of the Fund and subject to the approval of the Board, including a majority of the independent members of the Board, to hire, and to modify any existing or future sub-advisory agreement with, unaffiliated sub-advisers and affiliated sub-advisers, including sub-advisers that are wholly-owned subsidiaries (as defined in the 1940 Act) of the Adviser or its parent company and sub-advisers that are partially-owned by, or otherwise affiliated with, the Adviser or its parent company (the "Manager-of-Managers Structure"). The Adviser has the ultimate responsibility for overseeing the Fund's sub-advisers and recommending their hiring, termination and replacement, subject to oversight by the Board. The Order also provides relief from certain disclosure obligations with regard to sub-advisory fees. With this relief, the Fund may elect to disclose the aggregate fees payable to the Adviser and wholly-owned sub-advisers and the aggregate fees payable to unaffiliated sub-advisers and sub-advisers affiliated with the Adviser or its parent company, other than wholly-owned sub-advisers. The Order is subject to various conditions, including that the Fund will notify shareholders and provide them with certain information required by the exemptive order within 90 days of hiring a new sub-adviser. The Fund may also rely on any other current or future laws, rules or regulatory guidance from the SEC or its staff applicable to the Manager-of-Managers Structure. The sole initial shareholder of the Fund has approved the operation of the Fund under a Manager-of-Managers Structure with respect to any affiliated or unaffiliated sub-adviser, including in the manner that is permitted by the Order.

The Manager-of-Managers Structure enables the Trust to operate with greater efficiency by not incurring the expense and delays associated with obtaining shareholder approvals for matters relating to sub-advisers or sub-advisory agreements. Operation of the Fund under the Manager-of-Managers Structure does not permit management fees paid by the Fund to the Adviser to be increased without shareholder approval. Shareholders will be notified of any changes made to sub-advisers or material changes to sub-advisory agreements within 90 days of the change.

The Adviser and its affiliates may have other relationships, including significant financial relationships, with current or potential sub-advisers or their affiliates, which may create a conflict of interest. However, in making recommendations to the Board to appoint or to change a sub-adviser, or to change the terms of a sub-advisory agreement, the Adviser considers the sub-adviser's investment process, risk management, and historical performance with the goal of retaining sub-advisers for the Fund that the Adviser believes are skilled and can deliver appropriate risk-adjusted returns over a full market cycle. The Adviser does not consider any other relationship it or its affiliates may have with a sub-adviser or its affiliates, and the Adviser discloses to the Board the nature of any material relationships it has with a sub-adviser or its affiliates when making recommendations to the Board to appoint or to change a sub-adviser, or to change the terms of a sub-advisory agreement.

Sub-Adviser

Kennedy Capital Management LLC, a Delaware limited liability company, formed in 1980, which maintains its principal offices at 10829 Olive Boulevard, Suite 100, St. Louis, Missouri 63141, acts as investment sub-adviser to the North Square Kennedy MicroCap Fund pursuant to an investment sub-advisory agreement. The Sub-Adviser is an investment adviser registered with the U.S. Securities and Exchange Commission and provides investment advice to open-end funds, private investment funds, collective investment trust funds, and institutional and high net worth clients. The Sub-Adviser has approximately \$4.77 billion in assets under management as of December 31, 2023.

For its investment sub-advisory services, the Sub-Adviser is entitled to receive an annual fee of 0.27% of the Fund's first \$50 million of average daily net assets; 0.68% of the Fund's next \$50-\$225 million of average daily net assets; and 0.72% of the Fund's average daily net assets over \$225 million, paid solely by the Adviser from the fees it receives from the Fund's average daily net assets.

A discussion regarding the basis for the Board's approval of the Advisory Agreement and Sub-Advisory Agreement for the North Square Kennedy MicroCap Fund will be available in the Fund's Semi-Annual Report to shareholders for the fiscal period ended November 30, 2024.

Portfolio Manager

Portfolio Manager for Kennedy Capital

The Portfolio of the North Square Kennedy MicroCap Fund is managed by Sean McMahon.

Sean McMahon has approximately 20 years of investment experience and serves as Portfolio Manager for Kennedy Capital's micro cap and micro cap opportunities strategies. He also serves as Assistant Portfolio Manager for Kennedy Capital's extended small cap strategy. Sean joined Kennedy Capital in 2005 following his internship at Kennedy Capital. Sean earned a B.S. in Business Administration from the University of Missouri – St. Louis and an M.B.A. from Washington University.

The SAI provides additional information about the portfolio manager's method of compensation, other accounts managed by the portfolio manager and the portfolio manager's ownership of shares of the Fund.

Prior Performance for Similar Accounts Managed by the Sub-Adviser

Micro Cap Opportunities Composite

The following table sets forth performance data relating to the historical performance of all private accounts managed by the Sub-Adviser for the periods indicated that have investment objectives, policies, and strategies substantially similar to those of the Fund. **The data is provided to illustrate the past performance of the Sub-Adviser in managing substantially similar accounts as measured against a market index and does not represent the performance of the Fund. You should not consider this performance data as an indication of future performance of the Fund.**

The private accounts that are included in the performance data set forth below are not subject to the same types of expenses to which the Fund is subject, or to the diversification requirements, specific tax restrictions and investment limitations imposed on the Fund by the 1940 Act, or Subchapter M of the Internal Revenue Code. Consequently, the performance results for these private accounts could have been adversely affected if the private accounts had been registered investment companies.

The composite returns below were calculated in accordance with recognized industry standards which are calculated differently than the SEC method for calculating performance for registered investment companies. Monthly returns of the composite combine the individual accounts' returns (calculated on a time-weighted rate of return basis) by asset weighting each account's asset value as of the beginning of the month. Annual returns are calculated by geometrically linking (i.e., calculating the product of) the monthly returns.

Average Annual Total Returns For the Period Ended December 31, 2023

	One Year	Three Years	Since Inception (1/1/2020)
Micro Cap Opportunities Composite			
Net Returns, after fees/expenses*	11.17%	21.95%	26.30%
Gross Returns	11.97%	22.99%	27.40%
Russell Microcap® Index	9.33%	0.61%	5.35%

* The net returns for the composite are shown net of all actual fees and expenses. The fees and expenses of accounts included in the composite are lower than the anticipated operating expenses of the Fund and accordingly, the performance results of the composite are higher than what the Fund's performance would have been.

The Micro Cap Opportunities Composite was created December 2, 2019 with an inception date of January 1, 2020 and includes all discretionary accounts managed in the strategy. The composite name was changed from Micro Cap Emerging Growth to Micro Cap Opportunities effective December 31, 2021. The Micro Cap Opportunities Composite contains fully discretionary micro cap accounts that are invested primarily in micro cap companies (market cap generally in line with the Russell Microcap[®] Index) that have opportunities to grow within their respective markets. For comparison purposes the composite is measured against the Russell Microcap[®] Index. The U.S. Dollar is the currency used to express performance.

The Russell Microcap[®] Index measures the performance of the microcap segment of the U.S. equity universe. Microcap stocks make up less than 2% of the U.S. equity market (by market cap, as of the most recent reconstitution) and consist of the smallest 1,000 securities in the small-cap Russell 2000[®] Index, plus the next 1,000 smallest eligible securities by market cap. The Russell Microcap[®] Index is constructed to provide a comprehensive and unbiased barometer for the microcap segment trading on national exchanges, while excluding lesser-regulated OTC bulletin board securities and pink-sheet stocks due to their failure to meet national exchange listing requirements. The Russell Microcap[®] Index is completely reconstituted annually to ensure new and growing equities are reflected and companies continue to reflect appropriate capitalization and value characteristics.

Other Service Providers

Foreside Fund Services, LLC, a wholly-owned subsidiary of Foreside Financial Group, LLC (d/b/a ACA Group), (the “Distributor”) is the Trust’s principal underwriter and acts as the Trust’s distributor in connection with the offering of Fund shares. The Distributor may enter into agreements with banks, broker-dealers, or other financial intermediaries through which investors may purchase or redeem shares. The Distributor is not affiliated with the Trust, the Adviser, the Sub-Adviser or any other service provider for the Fund.

Fund Expenses

The Fund is responsible for its own operating expenses (all of which will be borne directly or indirectly by the Fund’s shareholders), including among others, legal fees and expenses of counsel to the Fund and the Fund’s independent trustees; insurance (including trustees’ and officers’ errors and omissions insurance); auditing and accounting expenses; taxes and governmental fees; listing fees; fees and expenses of the Fund’s custodians, administrators, transfer agents, registrars and other service providers; expenses for portfolio pricing services by a pricing agent, if any; expenses in connection with the issuance and offering of shares; brokerage commissions and other costs of acquiring or disposing of any portfolio holding of the Fund and any litigation expenses.

The Adviser has contractually agreed to waive its fees and/or pay for or reimburse operating expenses of the Fund to ensure that the total annual fund operating expenses (excluding any taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, any acquired fund fees and expenses, expenses incurred in connection with any merger or reorganization, extraordinary expenses such as litigation expenses, and payments, if any, under a Rule 12b-1 Distribution Plan) do not exceed the following:

Fund	As a Percentage of Average Daily Net Assets
North Square Kennedy MicroCap Fund	
Class A	1.72%
Class I	1.47%

This agreement is in effect until September 30, 2025 for the Fund, and may be terminated or amended prior to the end of the term only with the approval of the Board of Trustees.

Any waiver of advisory fees or payment or reimbursement of the Fund’s expenses made by the Adviser in a fiscal year may be reimbursed by the Fund for a period ending 36 months after the date of the waiver, payment or reimbursement if the Adviser so requests. This reimbursement may be requested from the Fund if the reimbursement will not cause the Fund’s annual expense ratio to exceed the lesser of (a) the expense limitation amount in effect at the time such fees were waived, payments made or expenses reimbursed, or (b) the expense limitation amount in effect at the time of the reimbursement. The reimbursement amount may not exceed the total amount of fees waived and/or Fund expenses paid or reimbursed by the Adviser and will not include any amounts previously reimbursed to the Adviser by the Fund. Any such reimbursement is contingent upon the Board’s subsequent review of the reimbursed amounts. The Fund must pay current ordinary operating expenses before the Adviser is entitled to any reimbursement of fees and/or Fund expenses.

DISTRIBUTION AND SHAREHOLDER SERVICE PLAN

Distribution and Service (Rule 12b-1) Fees

The Trust, on behalf of the North Square Kennedy MicroCap Fund, has adopted a Rule 12b-1 plan (the “12b-1 Plan”) with respect to the Fund’s Class A shares. Under the 12b-1 Plan, the Fund pays to the Distributor distribution fees in connection with the sale and distribution of the Fund’s Class A shares and/or shareholder liaison service fees in connection with the provision of services to shareholders of such Class and the maintenance of shareholder accounts. For Class A shares, the maximum annual fee payable to the Distributor for such distribution and/or shareholder liaison services is 0.25% of the average daily net assets of such shares.

The Distributor may pay any or all amounts received under the 12b-1 Plan to other persons for any distribution or shareholder liaison services provided by such persons to the Fund. Payments under the 12b-1 Plan are not tied exclusively to distribution expenses actually incurred by the Distributor or others and the payments may exceed or be less than the amount of expenses actually incurred.

Since these fees are paid out of the Fund’s assets attributable to Class A shares, these fees will increase the cost of your investment and, over time, may cost you more than paying other types of sales charges. The net income attributable to Class A shares will be reduced by the amount of distribution and shareholder liaison service fees and other expenses of the Fund associated with the relevant class of shares.

To assist investors in comparing classes of shares, the table under the Prospectus heading “Fees and Expenses of the Fund” provides a summary of sales charges and expenses and an example of the sales charges and expenses of the Fund applicable to each class of shares offered in this Prospectus.

Class I shares are not subject to any distribution and shareholder liaison service fees under the 12b-1 Plan.

Shareholder Service Fee

The Trust, on behalf of the Fund, has adopted a Shareholder Service Plan (the “Shareholder Service Plan”) with respect to the Fund’s Class A shares, and Class I shares, as applicable. Under the Shareholder Service Plan, the Fund may pay a fee at an annual rate of up to 0.15% of its average daily net assets attributable to Class A shares, and Class I shares, as applicable, to shareholder servicing agents. Shareholder servicing agents provide non-distribution administrative and support services to their customers, which may include establishing and maintaining accounts and records relating to shareholders, processing dividend and distribution payments from the Fund on behalf of shareholders, responding to routine inquiries from shareholders concerning their investments, assisting shareholders in changing dividend options, account designations and addresses, and other similar services.

Additional Payments to Broker-Dealers and Other Financial Intermediaries

The Adviser, out of its own resources, and without additional cost to the Fund or its shareholders, may provide additional cash payments or non-cash compensation to broker-dealers or other financial intermediaries that sell shares of the Fund. These additional cash payments are generally made to intermediaries that provide shareholder servicing, marketing support and/or access to sales meetings, sales representatives and management representatives of the intermediary. These payments may be used for various purposes and take various forms. For example, the Adviser may pay cash compensation for inclusion of the Fund on a sales list, including a preferred or select sales list, or in other sales programs, or may pay an expense reimbursement in cases where the intermediary provides shareholder services to the Fund’s shareholders.

The level of payments made by the Adviser and/or its affiliates to individual financial intermediaries varies in any given year and may be negotiated on the basis of sales of Fund shares, the amount of Fund assets serviced by the financial intermediary or the quality of the financial intermediary’s relationship with the Adviser and/or its affiliates. These payments may be more or less than the payments received by the financial intermediaries from other mutual funds and may influence a financial intermediary to favor the sales of certain funds or share classes over others. In certain instances, the payments could be significant and may cause a conflict of interest for your financial intermediary. Please contact your financial intermediary for information about any payments it may receive in connection with the sale of Fund shares or the provision of services to Fund shareholders.

YOUR ACCOUNT WITH THE FUND

Share Price

The offering price of each class of the Fund's shares is the net asset value per share ("NAV") of that class (plus any sales charges, as applicable). The Fund's NAVs is calculated as of 4:00 p.m. Eastern Time, the normal close of regular trading on the New York Stock Exchange ("NYSE"), on each day the NYSE is open for trading. If for example, the NYSE closes at 1:00 p.m. New York time, the Fund's NAV would still be determined as of 4:00 p.m. New York time. In this example, portfolio securities traded on the NYSE would be valued at their closing prices unless a "fair value" adjustment is determined to be appropriate due to subsequent events. The NAV of a class of the Fund's shares is determined by dividing the value of the Fund's portfolio securities, cash and other assets (including accrued interest) allocable to such class, less all liabilities (including accrued expenses) allocable to such class, by the total number of outstanding shares of such class. Due to the fact that different expenses are charged to the Fund's Class A shares and Class I shares, as applicable, the NAV of the Fund's classes will vary. The Fund's NAVs may be calculated earlier if trading on the NYSE is restricted or if permitted by the SEC. The NYSE is closed on weekends and most U.S. national holidays. However, foreign securities listed primarily on non-U.S. markets may trade on weekends or other days on which the Fund does not value its shares, which may significantly affect the Fund's NAV on days when you are not able to buy or sell Fund shares.

The Fund's securities generally are valued at market price. Securities are valued at fair value when market quotations are not readily available. Fair value pricing inherently involves subjective judgments, and it is possible that the fair value determined for a security may be materially different than the value that could be realized upon the sale of that security. Fair value prices can differ from market prices when they become available or when a price otherwise becomes available. The Board has appointed the Adviser as its designee (the "Valuation Designee") for all fair value determinations and responsibilities, with respect to the Fund. If market quotations are not readily available, securities will be valued at their fair market value as determined in good faith by the Valuation Designee, subject to review and approval by the Adviser's Valuation Committee, in accordance with procedures approved by the Board. This designation is subject to Board oversight and certain reporting and other requirements designed to facilitate the Board's ability to effectively oversee the Valuation Designee's fair value determinations.

In certain circumstances, the Fund employs fair value pricing to ensure greater accuracy in determining daily NAV and to prevent dilution by frequent traders or market timers who seek to exploit temporary market anomalies. Fair value pricing may be applied to foreign securities held by the Fund upon the occurrence of an event after the close of trading on non-U.S. markets but before the close of trading on the NYSE when the Fund's NAV is determined. If the event may result in a material adjustment to the price of the Fund's foreign securities once non-U.S. markets open on the following business day (such as, for example, a significant surge or decline in the U.S. market), the Fund may value such foreign securities at fair value, taking into account the effect of such event, in order to calculate the Fund's NAV. Other types of portfolio securities that the Fund may fair value include, but are not limited to: (1) investments that are classified as illiquid or traded infrequently, which may include "restricted" securities and private placements for which there is no public market; (2) investments for which, in the judgment of the Adviser, the market price is stale; (3) securities of an issuer that has entered into a restructuring; (4) securities for which trading has been halted or suspended; and (5) fixed income securities for which there is no current market value quotation. The use of fair valuation in pricing a security involves the consideration of a number of subjective factors and therefore, is susceptible to the unavoidable risk that the valuation may be higher or lower than the price at which the security might actually trade if a reliable market price were readily available.

Purchase of Shares

This Prospectus offers Class A and Class I shares.

- Class A shares generally incur sales loads at the time of purchase and are subject to annual distribution fees and/or shareholder service fees.
- Class I shares are not subject to any sales loads or distribution fees or shareholder service fees.

By offering multiple classes of shares, the Fund permits investors to choose the class of shares that is most beneficial given the type of investor, the amount to be invested and the length of time the investor expects to hold the shares.

Before you invest, you should compare the features of each share class, so that you can choose the class that is right for you. When selecting a share class, you should consider the following:

- which shares classes are available to you;
- how long you expect to own your shares;
- how much you intend to invest;
- total costs and expenses associated with a particular share class; and
- whether you qualify for any reduction or waiver of sales charges

Class A shares are generally available to all investors; however, share class availability depends upon your financial intermediary's policies and procedures. Class I shares are subject to different eligibility requirements, fees and expenses, and may have different minimum investment requirements. For eligible investors, Class I shares may be more suitable than Class A shares. You should consult with your financial adviser for more information to determine which share class is most appropriate for your situation.

Each class of shares generally has the same rights, except for the differing sales loads, distribution fees, shareholder service fees, any related expenses associated with each class of shares, and the exclusive voting rights by each class with respect to any distribution plan or service plan for such class of shares. Please see the specific features available to each class of shares as discussed below.

To purchase shares of the Fund, you must invest at least the minimum amount indicated in the following table.

Minimum Investments	To Open Your Account	To Add to Your Account
Class A		
All Accounts	\$1,000	\$100
Class I		
All Accounts	\$100,000	None

Shares of the Fund may be purchased by check, by wire transfer of funds via a bank or through an approved financial intermediary (i.e., a supermarket, investment adviser, financial planner or consultant, broker, dealer or other investment professional and their agents) authorized by the Fund to receive purchase orders. Financial intermediaries may provide varying arrangements for their clients to purchase and redeem shares, which may include different sales charges as described in this Prospectus, additional fees and different investment minimums. In addition, from time to time, a financial intermediary may modify or waive the initial and subsequent investment minimums. Your financial intermediary may receive different compensation for selling Class A shares due to different sales charges among the share classes. Please see “**Class A Shares – Sales Charge Schedule**” and “**Appendix A – Waivers and Discounts Available from Certain Intermediaries.**” The share classes your financial intermediary sells may depend on, among other things, the type of investor account and the policies, procedures and practices adopted by your financial intermediary. You should review these arrangements with your financial intermediary. When purchasing shares of the Fund, investors must specify whether the purchase is for Class A or Class I shares, as applicable.

You may make an initial investment in an amount greater than the minimum amounts shown in the preceding table and the Adviser may, from time to time, reduce or waive the minimum initial investment amounts. This would allow the Adviser, for example, to waive or set different investment minimums for shares offered through financial intermediaries, and may waive the minimum investment requirements for employer-sponsored retirement plan accounts. The minimum initial investment amount is automatically waived for Fund shares purchased by Trustees of the Trust and current or retired directors and employees of the Adviser and its affiliates.

Automated Clearing House (“ACH”) Purchase: You may not use ACH transactions for your initial purchase of Fund shares. Current shareholders may purchase additional shares via ACH. To have this option added to your account, please send a letter to the Fund requesting this option and supply a voided check for the bank account. Only bank accounts held at domestic institutions that are ACH members may be used for these transactions.

To the extent allowed by applicable law, the Fund reserves the right to discontinue offering shares at any time or to cease operating entirely.

The Fund does not accept investments by non-U.S. persons.

Class A Shares

Class A shares of the Fund are sold at the public offering price, which is the NAV plus an initial maximum sales charge which varies with the amount you invest as shown in the following chart. This means that part of your investment in the Fund will be used to pay the sales charge.

Class A Shares – Sales Charge Schedule			
Your Investment	Front-End Sales Charge As a % Of Offering Price*	Front-End Sales Charge As a % Of Net Investment	Dealer Reallowance As a % Of Offering Price
Less than \$50,000	5.75%	6.10%	5.00%
\$50,000 but less than \$100,000	4.50%	4.71%	4.00%
\$100,000 but less than \$250,000	3.50%	3.63%	3.00%
\$250,000 but less than \$500,000	2.50%	2.56%	2.00%
\$500,000 or more	See below**	See below**	See below**

* The offering price includes the sales charge.

** There is no initial sales charge on purchases of Class A shares in an account or accounts with an accumulated value of \$500,000 or more, but a CDSC of 1.00% will be imposed in the event of certain redemptions within 12 months of the date of purchase. See also the “Large Order Net Asset Value Purchase Privilege” section.

Because of rounding in the calculation of front-end sales charges, the actual front-end sales charge paid by an investor may be slightly higher or lower than the percentages noted above. No sales charge is imposed on Class A shares received from reinvestment of dividends or capital gain distributions.

Information on sales charges can also be found on the Fund’s website at www.northsquareinvest.com, or obtained by calling the Fund at 1-855-551-5521, or consulting with your financial adviser.

Class A Shares Purchase Programs

Eligible purchasers of Class A shares also may be entitled to reduced or waived sales charges through certain purchase programs offered by the Fund.

Eligible purchasers of Class A shares also may be entitled to reduced sales charges through the *Quantity Discount* programs offered by the Fund as discussed below. Eligible purchasers of Class A shares also may be entitled to waived sales charges as discussed below under *“Net Asset Value Purchases”* and *“Large Order Net Asset Value Purchase Privilege.”* The availability of certain sales charge waivers and discounts will depend on whether you purchase your shares directly from the Fund or through a financial intermediary. As described in Appendix A to this Prospectus, financial intermediaries may have different policies and procedures regarding the availability of front-end sales load waivers or CDSC waivers. In all instances, it is the purchaser’s responsibility to notify the Fund or the purchaser’s financial intermediary at the time of purchase of any relationship or other facts qualifying the purchaser for sales charge waivers or discounts. **For waivers and discounts not available through a particular intermediary, shareholders will have to purchase Fund shares directly from the Fund or through another intermediary to receive these waivers or discounts. Please see “Appendix A – Waivers and Discounts Available from Certain Intermediaries” of the Prospectus for a description of waivers or discounts available through certain intermediaries.**

Quantity Discounts.

When purchasing Class A shares, if the dollar amount of your purchase reaches a specified level, known as a breakpoint, you are entitled to pay a discounted initial sales charge. For example, a purchase of up to \$49,999.99 of Class A shares of the Fund would pay an initial charge of 5.75%, while a purchase of \$50,000 would pay an initial charge of 4.50%. There are several breakpoints for the Fund, as shown in the **“Class A Shares – Sales Charge Schedule”** table above. The greater the investment, the greater the sales charge discount. Investments above \$500,000 have no front-end sales charge but may be subject to a CDSC (please see *“Large Order Net Asset Value Purchase Privilege”* below for more information).

You may be able to lower your Class A sales charges if:

- you assure the Fund in writing that you intend to invest at least \$50,000 in Class A shares of the Fund over the next 13 months in exchange for a reduced sales charge (“Letter of Intent”) (see below); or
- the amount of Class A shares you already own in the Fund plus the amount you intend to invest in Class A shares is at least \$50,000 (“Cumulative Discount”).

By signing a Letter of Intent you can purchase shares of the Fund at a lower sales charge level. Your individual purchases will be made at the applicable sales charge based on the amount you intend to invest over a 13-month period as stated in the Letter of Intent.

Purchases resulting from the reinvestment of dividends and capital gains do not apply toward fulfillment of the Letter of Intent. Any shares purchased within 90 days of the date you sign the letter of intent may be used as credit toward completion, but the reduced sales charge will only apply to new purchases made on or after that date. Shares equal to 5.75% of the amount stated in the Letter of Intent will be held in escrow during the 13-month period. If, at the end of the period, the total net amount invested is less than the amount stated in the Letter of Intent, you will be required to pay the difference between the reduced sales charge and the sales charge applicable to the individual net amounts invested had the Letter of Intent not been in effect. This amount will be obtained from redemption of the escrowed shares. Any remaining escrowed shares after payment to the Fund of the difference in applicable sales charges will be released to you. If you establish a Letter of Intent with the Fund, you can aggregate your accounts as well as the accounts of your immediate family members. You will need to provide written instructions with respect to the other accounts whose purchases should be considered in fulfillment of the Letter of Intent.

The Letter of Intent and Cumulative Discount are intended to let you combine investments made at other times for purposes of calculating your present sales charge. Any time you can use any of these quantity discounts to “move” your investment into a lower sales charge level, it is generally beneficial for you to do so.

For purposes of determining whether you are eligible for a reduced Class A sales charge, you and your immediate family members (i.e., your spouse or domestic partner and your children or stepchildren age 21 or younger) may aggregate your investments in the Fund. This includes, for example, investments held in a retirement account, an employee benefit plan, or through a financial adviser other than the one handling your current purchase. These combined investments will be valued at their current offering price to determine whether your current investment amount qualifies for a reduced sales charge.

You must notify the Fund or an approved financial intermediary at the time of purchase whenever a quantity discount is applicable to purchases and you may be required to provide the Fund, or an approved financial intermediary, with certain information or records to verify your eligibility for a quantity discount. Such information or records may include account statements or other records regarding the shares of the Fund held in all accounts (e.g., retirement accounts) by you and other eligible persons which may include accounts held at the Fund or at other approved financial intermediaries. Upon such notification, you will pay the sales charge at the lowest applicable sales charge level. You should retain any records necessary to substantiate the purchase price of the Fund’s shares, as the Fund and the approved financial intermediary may not retain this information.

Net Asset Value Purchases.

Class A shares are available for purchase without a sales charge if you are:

- reinvesting dividends or distributions;
- participating in an investment advisory or agency commission program under which you pay a fee to an investment adviser or other firm for portfolio management or brokerage services;
- a financial intermediary purchasing on behalf of its clients that: (i) is compensated by clients on a fee-only basis, including but not limited to investment advisers, financial planners, and bank trust departments; or (ii) has entered into an agreement with the Fund to offer Class A shares through a no-load network or platform (please see Appendix A for a list of financial intermediaries that have these arrangements);
- a trustee or other fiduciary purchasing shares for employer-sponsored retirement plans with at least \$500,000 in total plan assets in connection with purchases of Fund shares made as a result of participant-directed exchanges between options in such a plan;
- a current Trustee of the Trust;
- an employee (including the employee's spouse, domestic partner, children, grandchildren, parents, grandparents, siblings and any dependent of the employee, as defined in Section 152 of the Internal Revenue Code) of the Adviser, Sub-Adviser or their affiliates or of a broker-dealer authorized to sell shares of the Fund.

Your financial adviser or the Fund's transfer agent (the "Transfer Agent") can answer your questions and help you determine if you are eligible.

Large Order Net Asset Value Purchase Privilege.

There is no initial sales charge on purchases of Class A shares in an account or accounts with an accumulated value of \$500,000 or more, but a contingent deferred sales charge ("CDSC") of 1.00% will be imposed in the event of certain redemptions within 12 months of the date of purchase. The CDSC is assessed on an amount equal to the lesser of the then current market value of the shares or the historical cost of the shares (which is the amount actually paid for the shares at the time of purchase) being redeemed.

A CDSC will be waived in the following circumstances:

- If you are a current Trustee of the Trust;
- If you are a trustee or other fiduciary purchasing shares for employer-sponsored retirement plans with at least \$500,000 in total plan assets in connection with purchases of Fund shares made as a result of participant-directed exchanges between options in such a plan;
- If you are an employee (including the employee's spouse, domestic partner, children, grandchildren, parents, grandparents, siblings and any dependent of the employee, as defined in Section 152 of the Internal Revenue Code) of the Adviser, Sub-Adviser or their affiliates or of a broker-dealer authorized to sell shares of the Fund; or
- Upon conversion of Class A shares into another class of shares of the Fund.

Your financial adviser or the Transfer Agent can answer your questions and help you determine if you are eligible for waiver of a sales charge.

Class I Shares

To purchase Class I shares of the Fund, you generally must invest at least \$100,000. Class I shares are not subject to any initial sales charge. There also are no CDSCs imposed on redemptions of Class I shares, and you do not pay any ongoing distribution/service fees; however, Class I shares of the Fund are subject to shareholder service fees.

The minimum investment requirement for Class I shares may be waived if you or your financial intermediary invest through an omnibus account, have an aggregate investment in our family of funds of \$5 million or more, or in other situations as determined by the Adviser. In addition, financial intermediaries or plan record keepers may require retirement plans to meet certain other conditions, such as plan size or a minimum level of assets per participant, in order to be eligible to purchase Class I shares. The Adviser may permit a financial intermediary to waive applicable minimum initial investment for Class I shares in the following situations:

- Broker-dealers purchasing Fund shares for clients in broker-sponsored discretionary fee-based advisory programs where the portfolio manager of the program acts on behalf of the shareholder through omnibus accounts;
- Trust companies and bank wealth management organizations purchasing shares in a fiduciary, discretionary trustee or advisory account on behalf of the shareholder, through omnibus accounts or nominee name accounts;
- Qualified Tuition Programs under Section 529 that have entered into an agreement with the Distributor;
- Certain employer-sponsored retirement plans, as approved by the Adviser; and
- Certain other situations deemed appropriate by the Adviser.

In-Kind Purchases and Redemptions

The Fund reserves the right to accept payment for shares in the form of securities that are permissible investments for the Fund. The Fund also reserves the right to pay redemptions by an "in-kind" distribution of portfolio securities (instead of cash) from the Fund. In-kind purchases and redemptions are taxable events and may result in the recognition of gain or loss for federal income tax purposes. See the SAI for further information about the terms of these purchases and redemptions.

Additional Investments

Additional subscriptions in the Fund generally may be made by investing at least the minimum amount shown in the table above. Exceptions may be made at the Fund's discretion. You may purchase additional shares of the Fund by sending a check together with the Invest by Mail form from your most recent confirmation statement to the Fund at the applicable address listed in the table below. Please ensure that you include your account number on the check. If you do not have the Invest by Mail form from your confirmation statement, list your name, address and account number on a separate sheet of paper and include it with your check. You may also make additional investments in the Fund by wire transfer of funds or through an approved financial intermediary. The minimum additional investment amount is automatically waived for shares purchased by Trustees of the Trust and current or retired directors and employees of the Adviser and its affiliates. Please follow the procedures described in this Prospectus.

ACH Purchase: Current shareholders may purchase additional shares via ACH. To have this option added to your account, please send a letter to the Fund requesting this option and supply a voided check for the bank account. Only bank accounts held at domestic institutions that are ACH members may be used for these transactions.

Online Transactions

To establish internet transaction privileges, you must enroll through the website. You automatically have the ability to establish internet transaction privileges unless you decline the privileges on your New Account Application or IRA Application. You will be required to enter into a user's agreement through the website in order to enroll in these privileges. To purchase shares through the website, you must also have ACH instructions on your account. Redemption proceeds may be sent to you by check to the address on record, or if your account has existing bank information, by wire or ACH. Only bank accounts held at domestic financial institutions that are ACH members can be used for transactions through the Fund's website. Transactions through the website are subject to the same minimums and maximums as other transaction methods. Please call 1-855-551-5521 for assistance in establishing online access.

You should be aware that the internet is an unsecured, unstable, unregulated and unpredictable environment. Your ability to use the website for transactions is dependent upon the internet and equipment, software, systems, data and services provided by various vendors and third parties. While the Fund and its service providers have established certain security procedures, the Fund, its distributor and its transfer agent cannot assure you that trading information will be completely secure.

There may also be delays, malfunctions, or other inconveniences generally associated with this medium. There also may be times when the website is unavailable for Fund transactions or other purposes. Should this happen, you should consider purchasing or redeeming shares by another method. Neither the Fund nor its transfer agent, distributor nor Adviser will be liable for any such delays or malfunctions or unauthorized interception or access to communications or account information.

Dividend Reinvestment

You may reinvest dividends and capital gains distributions in shares of the Fund. Such shares are acquired at NAV (without a sales charge) on the applicable payable date of the dividend or capital gain distribution. Unless you instruct otherwise, dividends and capital gains distributions are automatically reinvested in shares of the same class of the Fund paying the dividend or capital gains distribution. This instruction may be made by writing to the Transfer Agent or by telephone by calling 1-855-551-5521 at least five calendar days prior to the record date of the next distribution. You may, on the account application form or prior to any declaration, instruct that dividends and/or capital gains distributions be paid in cash or be reinvested in the Fund at the next determined NAV. If you elect to receive dividends and/or capital gains distributions in cash and the U.S. Postal Service cannot deliver the check, or if a check remains outstanding for six months or more, the Fund reserves the right to reinvest the distribution check in your account at the Fund's current NAV and to reinvest all subsequent distributions.

Customer Identification Information

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person who opens an account. When you open an account, you will be asked for your name, date of birth (for a natural person), your residential address or principal place of business, and mailing address (if different) as well as your Social Security Number or Taxpayer Identification Number. If you are opening the account in the name of a legal entity (e.g., partnership, limited liability company, business trust, corporation, etc.), you must also supply the identity of the beneficial owners. Additional information is required for corporations, partnerships and other entities. Applications without such information will not be considered in good order. The Fund reserves the right to deny any application if the application is not in good order.

This Prospectus should not be considered a solicitation to purchase or as an offer to sell shares of the Fund in any jurisdiction where it would be unlawful to do so under the laws of that jurisdiction. Please note that the value of your account may be transferred to the appropriate state if no activity occurs in the account within the time period specified by state law.

Timing and Nature of Requests

The purchase price you will pay for the Fund's shares will be at the next NAV (plus any sales charge, as applicable) calculated after the Transfer Agent or your authorized financial intermediary receives your request in good order. "Good order" means that your purchase request includes: (1) the name of the Fund and share class to be purchased, (2) the dollar amount of shares to be purchased, (3) your purchase application or investment stub, and (4) a check payable to North Square Funds. All requests received in good order before 4:00 p.m. (Eastern Time) on any business day will be processed on that same day. Requests received at or after 4:00 p.m. (Eastern Time) will be transacted at the next business day's NAV (plus any sales charge, if applicable). All purchases must be made in U.S. Dollars and drawn on U.S. financial institutions.

Methods of Buying

Through a broker-dealer or other financial intermediary

The Fund is offered through certain approved financial intermediaries (and their agents). The Fund is also offered directly. A purchase order placed with a financial intermediary or its authorized agent is treated as if such order were placed directly with the Fund, and will be deemed to have been received by the Fund when the financial intermediary or its authorized agent receives the order and executed at the next NAV (plus any sales charge, as applicable) calculated by the Fund. Your financial intermediary will hold your shares in a pooled account in its (or its agent's) name. The Fund may pay your financial intermediary (or its agent) to maintain your individual ownership information, maintain required records, and provide other shareholder services. A financial intermediary which offers shares may require payment of additional fees from its individual clients which may be in addition to those described in this Prospectus. For example, the financial intermediary may charge transaction fees or set different minimum investments. Your financial intermediary is responsible for processing your order correctly and promptly, keeping you advised of the status of your account, confirming your transactions and ensuring that you receive copies of the Fund's Prospectus. Please contact your financial intermediary to determine whether it is an approved financial intermediary of the Fund or for additional information.

By mail

All checks must be made in U.S. Dollars and drawn on U.S. financial institutions. The Fund will not accept payment in cash or money orders. The Fund does not accept post-dated checks or any conditional order or payment. To prevent check fraud, the Fund will not accept third party checks, Treasury checks, credit card checks, traveler's checks or starter checks for the purchase of shares.

To buy shares directly from the Fund by mail, complete an account application and send it together with your check for the amount you wish to invest to the Fund at the address indicated below. To make additional investments once you have opened your account, write your account number on the check and send it to the Fund together with the Invest by Mail form from your most recent confirmation statement received from the Transfer Agent. If your check is returned for insufficient funds, your purchase will be canceled and a \$25 fee will be assessed against your account by the Transfer Agent. The Transfer Agent will charge a \$25 fee against a shareholder's account, in addition to any loss sustained by the Fund, for any payment that is returned. Shares of the Fund have not been registered for sale outside of the United States. The Fund generally does not sell shares to investors residing outside the United States, even if they are United States citizens or lawful permanent residents, except to investors with United States military APO or FPO addresses.

Regular Mail

North Square Funds
c/o Ultimus Fund Solutions, LLC
P.O. Box 46707
Cincinnati, Ohio 45246

Overnight Delivery

North Square Funds
c/o Ultimus Fund Solutions, LLC
225 Pictoria Drive, Suite 450
Cincinnati, Ohio 45246

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such services, or receipt at Ultimus Fund Solutions, LLC's post office box, of purchase orders or redemption requests does not constitute receipt by the Transfer Agent of the Fund. Receipt of purchase orders or redemption requests is based on when the order is received at the Transfer Agent's offices.

By telephone

To make additional investments by telephone, you must authorize telephone purchases on your account application. If you have given authorization for telephone transactions and your account has been open for at least seven business days, call the Transfer Agent toll-free at 1-855-551-5521 and you will be allowed to move money in amounts of at least \$100 from your bank account to the Fund's account upon request. Only bank accounts held at U.S. institutions that are ACH members may be used for telephone transactions. If your order is placed before 4:00 p.m. (Eastern Time) on a business day, shares will be purchased in your account at the NAV (plus any sales charge, as applicable) calculated on that day. Orders received at or after 4:00 p.m. (Eastern Time) will be transacted at the next business day's NAV (plus any sales charge, if applicable). For security reasons, requests by telephone will be recorded.

By wire

You may also buy shares of the Fund by wiring federal funds from your bank, which may charge you a fee for doing so. To wire money, you must call the Transfer Agent at Shareholder Services at 1-855-551-5521 to obtain instructions on how to set up your account and to obtain an account number.

You must provide a signed application to the Fund at the above address, to complete your initial wire purchase. Wire orders will be accepted only on a day on which the Fund, the custodian and the Transfer Agent are open for business. A wire purchase will not be considered made until the wired money is received and the purchase is accepted by the Fund. The purchase price per share will be the NAV determined after the wire purchase is received by the Fund. Any delays which may occur in wiring money, including delays which may occur in processing by the banks, are not the responsibility of the Fund or the Transfer Agent. There is presently no fee for the receipt of wired funds, but the Fund may charge shareholders for this service in the future.

Selling (Redeeming) Fund Shares

Through a broker-dealer or other financial intermediary

If you purchased your shares through an approved financial intermediary, your redemption order must be placed through the same financial intermediary. The Fund will be deemed to have received a redemption order when a financial intermediary or, if applicable, an intermediary's authorized designee, receives the order. The financial intermediary or its agent must receive your redemption order prior to 4:00 p.m. (Eastern Time) on a business day for the redemption to be processed at the current day's NAV. Orders received at or after 4:00 p.m. (Eastern Time) on a business day or on a day when the Fund does not value its shares will be transacted at the next business day's NAV. Please keep in mind that your financial intermediary may charge additional fees for its services. In the event your approved financial intermediary is no longer available or in operation, you may place your redemption order directly with the Fund as described below.

By mail

You may redeem shares purchased directly from the Fund by mail. Send your written redemption request to North Square Funds at the address indicated below. Your request must be in good order and contain the Fund's name, the name(s) on the account, your account number and the dollar amount or the number of shares to be redeemed. The redemption request must be signed by all shareholders listed on the account along with a signature guarantee (if applicable). Additional documents are required for certain types of shareholders, such as corporations, partnerships, executors, trustees, administrators, or guardians (i.e., corporate resolutions dated within 60 days, or trust documents indicating proper authorization).

Regular Mail

North Square Funds
c/o Ultimus Fund Solutions, LLC
P.O. Box 46707
Cincinnati, Ohio 45246

Overnight Delivery

North Square Funds
c/o Ultimus Fund Solutions, LLC
225 Pictoria Drive, Suite 450
Cincinnati, Ohio 45246

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such services, or receipt at Ultimus Fund Solutions, LLC's post office box, of purchase orders or redemption requests does not constitute receipt by the Transfer Agent of the Fund. Receipt of purchase orders or redemption requests is based on when the order is received at the Transfer Agent's offices.

By telephone

To redeem shares by telephone, call the Fund at 1-855-551-5521 and specify the amount of money you wish to redeem. You may have a check sent to the address of record, or, if previously established on your account, you may have proceeds sent by wire or electronic funds transfer through the ACH network directly to your bank account. Wire transfers are subject to a \$15 fee paid by the shareholder and your bank may charge a fee to receive wired funds. Checks sent via overnight delivery are subject to a \$35 charge. You do not incur any charge when proceeds are sent via the ACH network; however, credit may not be available for two to three business days.

If you are authorized to perform telephone transactions (either through your account application form or by subsequent arrangement in writing with the Fund), you may redeem shares worth up to \$50,000 by instructing the Fund by phone at 1-855-551-5521. Telephone trades must be received by or prior to market close. During periods of high market activity, shareholders may encounter higher than usual call waits. Please allow sufficient time to place your telephone transaction. If an account has more than one owner or authorized person, the Fund will accept telephone instructions from any one owner or authorized person. Unless noted on the initial account application, a signature guarantee may be required of all shareholders in order to qualify for or to change telephone redemption privileges.

Note: The Fund and all of its service providers will not be liable for any loss or expense in acting upon instructions that are reasonably believed to be genuine. To confirm that all telephone instructions are genuine, the caller must verify the following:

- The applicable Fund account number;
- The name in which his or her account is registered;
- The Social Security Number or Taxpayer Identification Number under which the account is registered; and
- The address of the account holder, as stated in the account application form.

If you elect telephone privileges on the account application or in a letter to the Fund, you may be responsible for any fraudulent telephone orders as long as the Fund and/or its service providers have taken reasonable precautions to verify your identity. In addition, once you place a telephone transaction request, it cannot be canceled or modified after the close of regular trading on the NYSE (generally, 4:00 p.m., Eastern time).

During periods of significant economic or market change, telephone transactions may be difficult to complete. If you are unable to contact the Fund by telephone, you may also mail your request to the Fund at the address listed under "Methods of Buying."

Signature Guarantee

Signature guarantees will generally be accepted from domestic banks, brokers, dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations, as well as from participants in the New York Stock Exchange Medallion Signature Program and the Securities Transfer Agents Medallion Program (“STAMP”). A notary public is not an acceptable signature guarantor.

A signature guarantee, from either a Medallion program member or a non-Medallion program member, is required in the following situations:

- If ownership is being changed on your account;
- When redemption proceeds are payable or sent to any person, address or bank account not on record;
- When a redemption transmitted by wire transfer or ACH to a bank of record prior to 30 calendar days since the bank instructions were added or changed;
- When a redemption is received by the Transfer Agent and the account address has changed within the last 15 calendar days; or
- You wish to redeem more than \$50,000 worth of shares.

In addition to the situations described above, the Fund and/or the Transfer Agent reserve the right to require a signature guarantee in other instances based on the circumstances relative to the particular situation. Non-financial transactions, including establishing or modifying certain services on an account, may require a signature guarantee, signature verification from a Signature Validation Program member, or other acceptable form of authentication from a financial institution source. The Fund reserves the right to waive any signature requirement at its discretion.

Systematic Withdrawal Plan

You may request that a predetermined dollar amount be sent to you on a monthly or quarterly basis. Your account must maintain a value of at least \$10,000 for you to be eligible to participate in the Systematic Withdrawal Plan (“SWP”). The minimum withdrawal amount is \$100. If you elect to receive redemptions through the SWP, the Fund will send a check to your address of record, or will send the payment via electronic funds transfer through the ACH network, directly to your bank account on record. You may request an application for the SWP by calling the Transfer Agent toll-free at 1-855-551-5521. The Fund may modify or terminate the SWP at any time. You may terminate your participation in the SWP by calling the Transfer Agent at least five calendar days before the next withdrawal.

Automatic Investment Plan

Once your account has been opened with the initial minimum investment, you may make additional purchases of shares at regular intervals through the Automatic Investment Plan (“AIP”). The AIP provides a convenient method to have monies deducted from your bank account, for investment into the Fund, on a monthly or quarterly basis. In order to participate in the AIP, each purchase must be in the amount of \$100 or more for Class A shares and your financial institution must be a member of the ACH network. There is no minimum for Class I shares to participate in the AIP. If your bank rejects your payment, the Transfer Agent will charge a \$25 fee to your account. To begin participating in the AIP, please complete the Automatic Investment Plan section on the account application or call the Transfer Agent at 1-855-551-5521, if you have questions about the AIP. Any request to change or terminate your AIP should be submitted to the Transfer Agent at least five calendar days prior to the automatic investment date.

Payment of Redemption Proceeds

You may redeem shares of the Fund at a price equal to the NAV next determined after the Transfer Agent and/or authorized intermediary or agent receives your redemption request in good order. Generally, your redemption request cannot be processed on days the NYSE is closed. Redemption proceeds for requests received in good order by the Transfer Agent and/or authorized agent before the close of the regular trading session of the NYSE (generally, 4:00 p.m. Eastern Time) will usually be sent on the following business day to the address of record or the bank you indicate or wired using the wire instructions on record. Payment of redemption proceeds may take longer than typically expected, but will be sent within seven calendar days after the Fund receives your redemption request, except as specified below.

If you did not purchase your shares with a wire payment, the Transfer Agent may delay payment of your redemption proceeds for up to 15 calendar days from the date of purchase or until your payment has cleared, whichever comes first. Furthermore, the Fund may suspend the right to redeem shares or postpone the date of payment upon redemption for more than seven calendar days: (1) for any period during which the NYSE is closed (other than customary weekend or holiday closings) or trading on the NYSE is restricted; (2) for any period during which an emergency exists affecting the sale of the Fund’s securities or making such sale or the fair determination of the value of the Fund’s net assets not reasonably practicable; or (3) for such other periods as the SEC may permit for the protection of the Fund’s shareholders.

Other Redemption Information

Shareholders who hold shares of the Fund through an IRA or other retirement plan, must indicate on their written redemption requests whether to withhold federal income tax. Redemption requests failing to indicate an election not to have taxes withheld will generally be subject to a 10% federal income tax withholding. Shares held in IRAs and other retirement accounts may be redeemed by telephone at 1-855-551-5521. Investors will be asked whether or not to withhold taxes from any distribution. In addition, if you are a resident of certain states, state income tax also applies to non-Roth IRA distributions when federal withholding applies. Please consult with your tax professional.

The Fund generally pays sale (redemption) proceeds in cash. The Fund typically expects to satisfy redemption requests by selling portfolio assets or by using holdings of cash or cash equivalents. On a less regular basis, the Fund may also satisfy redemption requests by drawing on a line of credit. These methods may be used during both normal and stressed market conditions. Under unusual conditions, the Fund may pay all or part of a shareholder's redemption proceeds in portfolio securities with a market value equal to the redemption price (redemption in-kind) in lieu of cash in order to protect the interests of the Fund's remaining shareholders. The Fund may redeem shares in-kind during both normal and stressed market conditions. If the Fund redeems your shares in kind, you will bear any market risks associated with investment in these securities, and you will be responsible for the costs (including brokerage charges) of converting the securities to cash.

The Fund may redeem all of the shares held in your account if your balance falls below the Fund's minimum initial investment amount due to your redemption activity. In these circumstances, the Fund will notify you in writing and request that you increase your balance above the minimum initial investment amount within 30 days of the date of the notice. If, within 30 days of the Fund's written request, you have not increased your account balance, your shares will be automatically redeemed at the current NAV. The Fund will not require that your shares be redeemed if the value of your account drops below the investment minimum due to fluctuations of the Fund's NAV.

IRA and Coverdell Education Savings Account Maintenance Fee

An annual account maintenance fee of \$25 will be charged for each IRA and Coverdell Education Savings Account.

Cost Basis Information

Federal tax law requires that regulated investment companies, such as the Fund, report its shareholders' cost basis, gain/loss, and holding period to the IRS on the shareholders' Consolidated Form 1099s when "covered" shares of the regulated investment companies are sold. Covered shares are any shares acquired (including pursuant to a dividend reinvestment plan) on or after January 1, 2012.

The Fund has chosen average cost as its standing (default) tax lot identification method for all shareholders, which means this is the method the Fund will use to determine which specific shares are deemed to be sold when there are multiple purchases on different dates at differing net asset values, and the entire position is not sold at one time. The Fund's standing tax lot identification method is the method it will use to report the sale of covered shares on your Consolidated Form 1099 if you do not select a specific tax lot identification method. Redemptions are taxable and you may realize a gain or a loss upon the sale of your shares. Certain shareholders may be subject to backup withholding.

Subject to certain limitations, you may choose a method other than the Fund's standing method at the time of your purchase or upon the sale of covered shares. **For all shareholders using a method other than the specific tax lot identification method, the Fund first redeems shares you acquired on or before December 30, 2011, and then apply your elected method to shares acquired after that date.** Please refer to the appropriate Treasury regulations or consult your tax adviser with regard to your personal circumstances.

Tools to Combat Frequent Transactions

The Board has adopted policies and procedures with respect to frequent purchases and redemptions of Fund shares by Fund shareholders. The Trust discourages excessive, short-term trading and other abusive trading practices that may disrupt portfolio management strategies and harm the Fund's performance. The Trust takes steps to reduce the frequency and effect of these activities in the Fund. These steps may include monitoring trading activity and using fair value pricing. In addition, the Trust may take action, which may include using its best efforts to restrict a shareholder's trading privileges in the Fund, if that shareholder has engaged in four or more "round trips" in the Fund during a 12-month period. Although these efforts (which are described in more detail below) are designed to discourage abusive trading practices, these tools cannot eliminate the possibility that such activity may occur. Further, while the Trust makes efforts to identify and restrict frequent trading, the Trust receives purchase and sale orders through financial intermediaries and cannot always know or detect frequent trading that may be facilitated by the use of intermediaries or the use of group or omnibus accounts by those intermediaries. The Trust seeks to exercise its judgment in implementing these tools to the best of its ability in a manner that the Trust believes is consistent with the interest of Fund shareholders.

Monitoring Trading Practices

The Trust may monitor trades in Fund shares in an effort to detect short-term trading activities. If, as a result of this monitoring, the Trust believes that a shareholder of the Fund has engaged in excessive short-term trading, it may, in its discretion, ask the shareholder to stop such activities or refuse to process purchases in the shareholder's accounts. In making such judgments, the Trust seeks to act in a manner that it believes is consistent with the best interest of Fund shareholders. Due to the complexity and subjectivity involved in identifying abusive trading activity, there can be no assurance that the Trust's efforts will identify all trades or trading practices that may be considered abusive.

General Transaction Policies

Some of the following policies are mentioned above. In general, the Adviser reserves the right to:

- vary or waive any minimum investment requirement;
- refuse, change, discontinue, or temporarily suspend account services, including purchase or telephone redemption privileges (if redemption by telephone is not available, you may send your redemption order to the Fund via regular or overnight delivery), for any reason;
- reject any purchase request for any reason (generally, the Fund does this if the purchase is disruptive to the efficient management of the Fund due to the timing of the investment or an investor's history of excessive trading);
- delay paying redemption proceeds for up to seven calendar days after receiving a request, if an earlier payment could adversely affect the Fund;
- reject any purchase or redemption request that does not contain all required documentation; and
- subject to applicable law and with prior notice, adopt other policies from time to time requiring mandatory redemption of shares in certain circumstances.

If you elect telephone privileges on the account application or in a letter to the Fund, you may be responsible for any fraudulent telephone orders as long as the Fund and/or its service providers have taken reasonable precautions to verify your identity. In addition, once you place a telephone transaction request, it cannot be canceled or modified after market close.

During periods of significant economic or market change, telephone transactions may be difficult to complete. If you are unable to contact the Fund by telephone, you may also mail your request to the Fund at the address listed under "Methods of Buying."

Your broker or other financial intermediary may establish policies that differ from those of the Fund. For example, the organization may charge transaction fees, set higher minimum investments, or impose certain limitations on buying or selling shares in addition to those identified in this Prospectus. Contact your broker or other financial intermediary for details.

Please note that the value of your account may be transferred to the appropriate state if no activity occurs in the account within the time period specified by state law.

Exchange Privilege

You may exchange shares of the Fund for the same class of shares in an identically registered account of another North Square Fund (please contact the North Square Funds at 1-855-551-5521 to receive the prospectus). The amount of the exchange must be equal to or greater than the required minimum initial investment (see "Minimum Investments" table). You may realize either a gain or loss on those shares and will be responsible for paying the appropriate taxes. If you exchange shares through a broker, the broker may charge you a transaction fee. You may exchange shares by sending a written request to the Fund or, if authorized on your application, by telephone. Be sure that your written request includes the dollar amount or number of shares to be exchanged, the name(s) on the account and the account number(s), and is signed by all shareholders on the account. In order to limit expenses, the Fund reserves the right to limit the total number of exchanges you can make in any year. There are no sales charges for exchanges of shares.

Conversion of Shares

A share conversion is a transaction in which shares of one class of the Fund are exchanged for shares of another class of the same Fund. Share conversions can occur between each share class of the Fund. Generally, share conversions occur when a shareholder becomes eligible for another share class of the Fund or no longer meets the eligibility criteria of the share class owned by the shareholder (and another class exists for which the shareholder would be eligible). Please note that a share conversion is generally a non-taxable event, but you should consult with your personal tax adviser on your particular circumstances.

A request for a share conversion will not be processed until it is received in "good order" (as defined above) by the Fund or your financial intermediary or its designee. To receive the NAV of the new class calculated that day, conversion requests must be received in good order by the Fund or your financial intermediary before 4:00 p.m., Eastern Time or the financial intermediary's earlier applicable deadline. Please note that, because the NAV of each class of the Fund will generally vary from the NAVs of the other classes due to differences in expenses, you will receive a number of shares of the new class that is different from the number of shares that you held of the old class, but the total value of your holdings will remain the same.

The Fund's frequent trading policies will not be applicable to share conversions. If you hold your shares through a financial intermediary, please contact the financial intermediary for more information on share conversions. Please note that certain financial intermediaries may not permit all types of share conversions. The Fund reserves the right to terminate, suspend or modify the share conversion privilege for any shareholder or group of shareholders.

The Fund reserves the right to automatically convert shareholders from one class to another if they either no longer qualify as eligible for their existing class or if they become eligible for another class. Such mandatory conversions may be as a result of a change in value of an account due to market movements, exchanges or redemptions. The Fund will notify affected shareholders in writing prior to any mandatory conversion.

Availability of Information

Information regarding sales charges of the Fund and the applicability and availability of discounts from sales charges is available free of charge on the Fund's website at www.northsquareinvest.com. The Prospectus and SAI are also available on the website.

Prospectus and Shareholder Report Mailings

In an effort to decrease costs, the Fund intends to reduce the number of duplicate prospectuses, supplements, and certain other shareholder documents you receive by sending only one copy of each to those addresses shared by two or more accounts and to shareholders we reasonably believe are from the same family or household. Once implemented, if you would like to discontinue householding for your accounts, please call toll-free at 1-855-551-5521 to request individual copies of these documents. Once the Fund receives notice to stop householding, we will begin sending individual copies thirty days after receiving your request. This policy does not apply to account statements.

Lost Shareholders, Inactive Accounts and Unclaimed Property

It is important that the Fund maintains a correct address for each investor. An incorrect address may cause an investor's account statements and other mailings to be returned to the Fund. Based upon statutory requirements for returned mail, the Fund will attempt to locate the investor or rightful owner of the account. If the Fund is unable to locate the investor, then they will determine whether the investor's account can legally be considered abandoned. Mutual fund accounts may be transferred to the state government of an investor's state of residence if no activity occurs within the account during the "inactivity period" specified in the applicable state's abandoned property laws, which varies by state. The Fund is legally obligated to escheat (or transfer) abandoned property to the appropriate state's unclaimed property administrator in accordance with statutory requirements. The investor's last known address of record determines which state has jurisdiction. Please proactively contact the Transfer Agent toll-free at 1-855-551-5521 at least annually to ensure your account remains in active status. Investors who are residents of the state of Texas may designate a representative to receive legislatively required unclaimed property due diligence notifications. Please contact the Fund to complete a Texas Designation of Representative form.

Additional Information

The Fund enters into contractual arrangements with various parties, including, among others, the Adviser and Sub-Adviser, who provide services to the Fund. Shareholders are not parties to, or intended (or "third party") beneficiaries of, those contractual arrangements.

The Prospectus and the SAI provide information concerning the Fund that you should consider in determining whether to purchase shares of the Fund. The Fund may make changes to this information from time to time. Neither this Prospectus nor the SAI is intended to give rise to any contract rights or other rights in any shareholder, other than any rights conferred by federal or state securities laws that may not be waived.

Investors should note that the Fund reserves the right to discontinue offering shares at any time, to merge or reorganize itself or a class of shares, or to cease operations and liquidate at any time.

DIVIDENDS AND DISTRIBUTIONS

The Fund will make distributions of net investment income annually and net capital gains, if any, at least annually, typically in December. The Fund may make an additional payment of dividends or distributions if it deems it desirable at any other time during the year.

The per share distributions on Class A shares may be lower than the per share distributions on Class I shares as a result of the higher distribution/service fees applicable to Class A shares.

If you buy shares of the Fund just before it makes a distribution (on or before the record date), you will receive some of the purchase price back in the form of a taxable distribution.

All dividends and distributions will be reinvested in Fund shares unless you choose one of the following options: (1) to receive net investment income dividends in cash, while reinvesting capital gain distributions in additional Fund shares; (2) to receive all dividends and distributions in cash, or (3) to receive capital gain distributions in cash, while reinvesting net investment income in additional Fund shares. If you wish to change your distribution option, please write to or call the Transfer Agent at least five calendar days before the record date of the distribution.

If you elect to receive distributions in cash and the U.S. Postal Service cannot deliver your check, or if your distribution check has not been cashed for six months, the Fund reserves the right to reinvest the distribution check in your account at the Fund's then current NAV and to reinvest all subsequent distributions.

FEDERAL INCOME TAX CONSEQUENCES

The following discussion is very general and does not address investors subject to special rules, such as investors who hold Fund shares through an IRA, 401(k) plan or other tax-advantaged account. The SAI contains further information about taxes. Because each shareholder's circumstances are different and special tax rules may apply, you should consult your tax adviser about your investment in the Fund.

You will generally have to pay federal income taxes, as well as any state or local taxes, on distributions received from the Fund, whether paid in cash or reinvested in additional shares. If you sell Fund shares, it is generally considered a taxable event. If you exchange shares of the Fund for shares of another fund, the exchange will be treated as a sale of the Fund's shares and any gain on the transaction may be subject to federal income tax.

Distributions of net investment income, other than "qualified dividend income" and distributions of net short-term capital gains, are taxable for federal income tax purposes at ordinary income tax rates. Distributions from the Fund's net capital gain (i.e., the excess of its net long-term capital gain over net short-term capital loss) are taxable for federal income tax purposes as long-term capital gain, regardless of how long the shareholder has held Fund shares.

Dividends paid by the Fund (but none of the Fund's capital gain distributions) may qualify in part for the dividends-received deduction available to corporate shareholders, provided certain holding period and other requirements are satisfied. Distributions of investment income that the Fund reports as "qualified dividend income" may be eligible to be taxed to non-corporate shareholders at the reduced rates applicable to long-term capital gain if derived from the Fund's qualified dividend income and if certain other requirements are satisfied. "Qualified dividend income" generally is income derived from dividends paid by U.S. corporations or certain foreign corporations that are either incorporated in a U.S. possession or eligible for tax benefits under certain U.S. income tax treaties. In addition, dividends that the Fund receives in respect of stock of certain foreign corporations may be qualified dividend income if that stock is readily tradable on an established U.S. securities market. Although dividends received from REITs generally do not constitute qualified dividend income, certain REIT dividends attributable to a REIT's trade or business income may qualify for a reduced rate of taxation as "qualified business income" in the hands of individuals, trusts and estates, provided certain holding period and other requirements are satisfied by the shareholder.

You may want to avoid buying shares of the Fund just before it declares a distribution (on or before the record date), because such a distribution will be taxable to you even though it may effectively be a return of a portion of your investment.

Although distributions are generally taxable when received, dividends declared in October, November or December to shareholders of record as of a date in such month and paid during the following January are treated as if received on December 31 of the calendar year when the dividends were declared. Information on the federal income tax status of dividends and distributions is provided annually.

Dividends and distributions from the Fund and net gain from redemptions of Fund shares will generally be taken into account in determining a shareholder's "net investment income" for purposes of the Medicare contribution tax applicable to certain individuals, estates and trusts.

If you do not provide the Fund with your correct taxpayer identification number and any required certifications, you will be subject to backup withholding on your redemption proceeds, dividends and other distributions. The backup withholding rate is currently at a rate set under Section 3406 of the Code for U.S. residents.

Dividends and certain other payments made by the Fund to a non-U.S. shareholder are subject to such withholding of federal income tax at the rate of 30% (or such lower rate as may be determined in accordance with any applicable treaty). Dividends that are reported by the Fund as "interest-related dividends" or "short-term capital gain dividends" are generally exempt from such withholding. In general, the Fund may report interest-related dividends to the extent of its net income derived from U.S.-source interest and the Fund may report short-term capital gain dividends to the extent its net short-term capital gain for the taxable year exceeds its net long-term capital loss. Backup withholding will not be applied to payments that have been subject to the 30% withholding tax described in this paragraph.

Unless certain non-U.S. entities that hold shares comply with IRS requirements that will generally require them to report information regarding U.S. persons investing in, or holding accounts with, such entities, a 30% withholding tax may apply to distributions. A non-U.S. shareholder may be exempt from the withholding described in this paragraph under an applicable intergovernmental agreement between the United States and a foreign government, provided that the shareholder and the applicable foreign government comply with the terms of the agreement.

Some of the Fund's investment income may be subject to foreign income taxes that are withheld at the country of origin. Tax treaties between certain countries and the United States may reduce or eliminate such taxes, but there can be no assurance that the Fund will qualify for treaty benefits.

FINANCIAL HIGHLIGHTS

Because the Fund has not commenced investment operations as of the date of this Prospectus, no financial highlights are available for the Fund at this time. In the future, financial highlights will be presented in this section of the Prospectus.

APPENDIX A – WAIVERS AND DISCOUNTS AVAILABLE FROM CERTAIN INTERMEDIARIES

The availability of certain sales charge waivers and discounts will depend on whether you purchase your shares directly from a North Square Fund or through a financial intermediary. Intermediaries may have different policies and procedures regarding the availability of front-end sales load waivers or contingent deferred sales load (“CDSC”) waivers, some of which are discussed below. In all instances, it is the purchaser’s responsibility to notify the Funds or the purchaser’s financial intermediary at the time of purchase of any relationship or other facts qualifying the purchaser for sales charge waivers or discounts. **For waivers and discounts not available through a particular intermediary, shareholders will have to purchase Fund shares directly from a Fund or through another intermediary to receive these waivers or discounts.**

The following shareholders that purchase a Fund’s shares through the following financial intermediaries will be eligible for the following load waivers (front-end sales charge waivers and contingent deferred, or back-end, sales charge waivers) and discounts, which may differ from those disclosed elsewhere in the Funds’ Prospectus or SAI:

Front-End Sales Load Waivers on Class A Shares
<u>Fidelity Brokerage Services</u> <ul style="list-style-type: none">• Fund shares purchased by Employee Benefit Plans through Fidelity Investments Institutional Operations Company, Inc.• Fund shares listed on Fidelity’s No Transaction Fee platform that are purchased through accounts maintained through Fidelity’s Institutional Wealth Services.
<u>TD Ameritrade, Inc.</u> <ul style="list-style-type: none">• Fund shares sold through fee-based programs or separate accounts sponsored, offered or facilitated by TD Ameritrade or its affiliates, clients or customers.• Fund shares sold through TD Ameritrade’s Premier List.• Fund shares purchased by third party investment advisors on behalf of their advisory clients through TD Ameritrade’s platform.
CDSC Waivers on Class C Shares
<u>Fidelity Brokerage Services</u> <ul style="list-style-type: none">• Fund shares purchased by Employee Benefit Plans through Fidelity Investments Institutional Operations Company, Inc.• Shares of Funds on Fidelity’s No Transaction Fee platform that are purchased through accounts maintained through Fidelity’s Institutional Wealth Services.
<u>TD Ameritrade, Inc.</u> <ul style="list-style-type: none">• Fund shares sold through fee-based programs or separate accounts sponsored, offered or facilitated by TD Ameritrade or its affiliates, clients or customers.• Fund shares sold through TD Ameritrade’s Premier List.• Fund shares purchased by third party investment advisors on behalf of their advisory clients through TD Ameritrade’s platform.

Purchases or sales of front-end (i.e. Class A) or level-load (i.e., Class C) mutual fund shares through a Merrill Lynch, Pierce, Fenner & Smith, Inc. (“Merrill”) platform or account will be eligible only for the following sales load waivers (front-end, contingent deferred, or back-end waivers) and discounts, which differ from those disclosed elsewhere in this Fund’s prospectus. Purchasers will have to buy mutual fund shares directly from the mutual fund company or through another intermediary to be eligible for waivers or discounts not listed below.

It is the client’s responsibility to notify Merrill at the time of purchase or sale of any relationship or other facts that qualify the transaction for a waiver or discount. A Merrill representative may ask for reasonable documentation of such facts and Merrill may condition the granting of a waiver or discount on the timely receipt of such documentation.

Additional information on waivers and discounts is available in the Merrill Sales Load Waiver and Discounts Supplement (the “Merrill SLWD Supplement”) and in the Mutual Fund Investing at Merrill pamphlet at ml.com/funds. Clients are encouraged to review these documents and speak with their financial advisor to determine whether a transaction is eligible for a waiver or discount.

Front-end Load Waivers Available at Merrill
Shares of mutual funds available for purchase by employer-sponsored retirement, deferred compensation, and employee benefit plans (including health savings accounts) and trusts used to fund those plans provided the shares are not held in a commission-based brokerage account and shares are held for the benefit of the plan. For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs, SAR-SEPs or Keogh plans
Shares purchased through a Merrill investment advisory program
Brokerage class shares exchanged from advisory class shares due to the holdings moving from a Merrill investment advisory program to a Merrill brokerage account
Shares purchased through the Merrill Edge Self-Directed platform
Shares purchased through the systematic reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same mutual fund in the same account
Shares exchanged from level-load shares to front-end load shares of the same mutual fund in accordance with the description in the Merrill SLWD Supplement
Shares purchased by eligible employees of Merrill or its affiliates and their family members who purchase shares in accounts within the employee's Merrill Household (as defined in the Merrill SLWD Supplement)
Shares purchased by eligible persons associated with the fund as defined in this prospectus (e.g. the fund's officers or trustees)
Shares purchased from the proceeds of a mutual fund redemption in front-end load shares provided (1) the repurchase is in a mutual fund within the same fund family; (2) the repurchase occurs within 90 calendar days from the redemption trade date, and (3) the redemption and purchase occur in the same account (known as Rights of Reinstatement). Automated transactions (i.e. systematic purchases and withdrawals) and purchases made after shares are automatically sold to pay Merrill's account maintenance fees are not eligible for Rights of Reinstatement
Contingent Deferred Sales Charge ("CDSC") Waivers on Front-end, Back-end, and Level Load Shares Available at Merrill
Shares sold due to the client's death or disability (as defined by Internal Revenue Code Section 22(e)(3))
Shares sold pursuant to a systematic withdrawal program subject to Merrill's maximum systematic withdrawal limits as described in the Merrill SLWD Supplement
Shares sold due to return of excess contributions from an IRA account
Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the investor reaching the qualified age based on applicable IRS regulation
Front-end or level-load shares held in commission-based, non-taxable retirement brokerage accounts (e.g. traditional, Roth, rollover, SEP IRAs, Simple IRAs, SAR-SEPs or Keogh plans) that are transferred to fee-based accounts or platforms and exchanged for a lower cost share class of the same mutual fund
Front-end load Discounts Available at Merrill: Breakpoints, Rights of Accumulation & Letters of Intent
Breakpoint discounts, as described in this prospectus, where the sales load is at or below the maximum sales load that Merrill permits to be assessed to a front-end load purchase, as described in the Merrill SLWD Supplement
Rights of Accumulation (ROA), as described in the Merrill SLWD Supplement, which entitle clients to breakpoint discounts based on the aggregated holdings of mutual fund family assets held in accounts in their Merrill Household
Letters of Intent (LOI), which allow for breakpoint discounts on eligible new purchases based on anticipated future eligible purchases within a fund family at Merrill, in accounts within your Merrill Household, as further described in the Merrill SLWD Supplement

Effective May 1, 2020, if you purchase fund shares through a Janney Montgomery Scott LLC ("Janney") brokerage account, you will be eligible for the following load waivers (front-end sales charge waivers and contingent deferred sales charge ("CDSC"), or back-end sales charge, waivers) and discounts, which may differ from those disclosed elsewhere in this fund's Prospectus or SAI.

Front-end sales charge* waivers on Class A shares available at Janney

- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same fund (but not any other fund within the fund family).
- Shares purchased by employees and registered representatives of Janney or its affiliates and their family members as designated by Janney.
- Shares purchased from the proceeds of redemptions within the same fund family, provided (1) the repurchase occurs within ninety (90) days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (i.e., right of reinstatement).
- Employer-sponsored retirement plans (e.g., 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans). For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs, SAR-SEPs or Keogh plans.
- Shares acquired through a right of reinstatement.
- Class C shares that are no longer subject to a contingent deferred sales charge and are converted to Class A shares of the same fund pursuant to Janney's policies and procedures.

CDSC waivers on Class A and C shares available at Janney

- Shares sold upon the death or disability of the shareholder.
- Shares sold as part of a systematic withdrawal plan as described in the fund's Prospectus.
- Shares purchased in connection with a return of excess contributions from an IRA account.
- Shares sold as part of a required minimum distribution for IRA and retirement accounts pursuant to the Internal Revenue Code.
- Shares sold to pay Janney fees but only if the transaction is initiated by Janney.
- Shares acquired through a right of reinstatement.
- Shares exchanged into the same share class of a different fund.

Front-end sales charge* discounts available at Janney: breakpoints, rights of accumulation, and/or letters of intent

- Breakpoints as described in the fund's Prospectus.
- Rights of accumulation ("ROA"), which entitle shareholders to breakpoint discounts, will be automatically calculated based on the aggregated holding of fund family assets held by accounts within the purchaser's household at Janney. Eligible fund family assets not held at Janney may be included in the ROA calculation only if the shareholder notifies his or her financial advisor about such assets.
- Letters of intent which allow for breakpoint discounts based on anticipated purchases within a fund family, over a 13-month time period. Eligible fund family assets not held at Janney Montgomery Scott may be included in the calculation of letters of intent only if the shareholder notifies his or her financial advisor about such assets.

* Also referred to as an "initial sales charge."

Morgan Stanley

Effective July 1, 2018, shareholders purchasing Fund shares through a Morgan Stanley Wealth Management transactional brokerage account will be eligible only for the following front-end sales charge waivers with respect to Class A shares, which may differ from and may be more limited than those disclosed elsewhere in this Funds' Prospectus or SAI.

Front-end Sales Charge Waivers on Class A Shares available at Morgan Stanley Wealth Management

- Employer-sponsored retirement plans (*e.g.*, 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase plans and defined benefit plans). For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs, SAR-SEPs or Keogh plans
- Morgan Stanley employee and employee-related accounts according to Morgan Stanley's account linking rules
- Shares purchased through reinvestment of dividends and capital gains distributions when purchasing shares of the same fund
- Shares purchased through a Morgan Stanley self-directed brokerage account
- Shares purchased from the proceeds of redemptions within the same fund family, provided (i) the repurchase occurs within 90 days following the redemption, (ii) the redemption and purchase occur in the same account, and (iii) redeemed shares were subject to a front-end or deferred sales charge

Raymond James & Associates, Inc., Raymond James Financial Services, Inc. and each entity's affiliates ("Raymond James")

Effective March 1, 2019, shareholders purchasing fund shares through a Raymond James platform or account or through an introducing broker-dealer or independent registered investment adviser for which Raymond James provides trade execution, clearance, and/or custody services, will be eligible only for the following load waivers (front-end sales charge waivers and contingent deferred, or back-end, sales charge waivers) and discounts, which may differ from those disclosed elsewhere in this fund's prospectus or SAI.

Front-end sales load waivers on Class A shares available at Raymond James

- Shares purchased in an investment advisory program.
- Shares purchased within the same fund family through a systematic reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same fund (but not any other fund within the fund family).
- Employees and registered representatives of Raymond James or its affiliates and their family members as designated by Raymond James.
- Shares purchased from the proceeds of redemptions within the same fund family, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (known as Rights of Reinstatement).

CDSC Waivers on Classes A and C shares available at Raymond James

- Death or disability of the shareholder.
- Shares sold as part of a systematic withdrawal plan as described in the fund's prospectus.
- Return of excess contributions from an IRA Account.
- Shares sold as part of a required minimum distribution for IRA and retirement accounts pursuant to the Internal Revenue Code.
- Shares sold to pay Raymond James fees but only if the transaction is initiated by Raymond James.
- Shares acquired through a right of reinstatement.

Front-end load discounts available at Raymond James: breakpoints, rights of accumulation and/or letters of intent

- Breakpoints as described in this prospectus.
- Rights of accumulation which entitle shareholders to breakpoint discounts will be automatically calculated based on the aggregated holding of fund family assets held by accounts within the purchaser's household at Raymond James. Eligible fund family assets not held at Raymond James may be included in the calculation rights of accumulation calculation only if the shareholder notifies his or her financial adviser about such assets.
- Letters of intent will allow for breakpoint discounts based on anticipated purchases within a fund family, over a 13-month time period. Eligible fund family assets not held at Raymond James may be included in the calculation of letters of intent only if the shareholder notifies his or her financial adviser about such assets.

Effective May 20, 2020, shareholders purchasing Fund shares through an Oppenheimer & Co. Inc. ("OPCO") platform or account are eligible only for the following load waivers (front-end sales charge waivers and contingent deferred, or back-end, sales charge waivers) and discounts, which may differ from those disclosed elsewhere in this Fund's prospectus or SAI.

Front-end Sales Load Waivers on Class A Shares available at OPCO

- Employer-sponsored retirement, deferred compensation and employee benefit plans (including health savings accounts) and trusts used to fund those plans, provided that the shares are not held in a commission-based brokerage account and shares are held for the benefit of the plan
- Shares purchased by or through a 529 Plan
- Shares purchased through a OPCO affiliated investment advisory program
- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same fund (but not any other fund within the fund family)
- Shares purchased from the proceeds of redemptions within the same fund family, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (known as Rights of Restatement)
- A shareholder in the Fund's Class C shares will have their shares converted at net asset value to Class A shares (or the appropriate share class) of the Fund if the shares are no longer subject to a CDSC and the conversion is in line with the policies and procedures of OPCO
- Employees and registered representatives of OPCO or its affiliates and their family members
- Directors or Trustees of the Fund, and employees of the Fund's investment adviser or any of its affiliates, as described in this prospectus

CDSC Waivers on A and C Shares available at OPCO

- Death or disability of the shareholder
- Shares sold as part of a systematic withdrawal plan as described in the Fund's prospectus
- Return of excess contributions from an IRA Account
- Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the shareholder reaching the qualified age based on applicable IRS regulations as described in the prospectus
- Shares sold to pay OPCO fees but only if the transaction is initiated by OPCO
- Shares acquired through a right of reinstatement

Front-end load Discounts Available at OPCO: Breakpoints, Rights of Accumulation & Letters of Intent

- Breakpoints as described in this prospectus.
- Rights of Accumulation (ROA) which entitle shareholders to breakpoint discounts will be automatically calculated based on the aggregated holding of fund family assets held by accounts within the purchaser's household at OPCO. Eligible fund family assets not held at OPCO may be included in the ROA calculation only if the shareholder notifies his or her financial adviser about such assets

Effective June 15, 2020, shareholders purchasing fund shares through a Robert W. Baird & Co. (“Baird”) platform or account will only be eligible for the following sales charge waivers (front-end sales charge waivers and CDSC waivers) and discounts, which may differ from those disclosed elsewhere in this prospectus or the SAI.

Front-End Sales Charge Waivers on Investors A-shares Available at Baird

- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same fund
- Shares purchase by employees and registers representatives of Baird or its affiliate and their family members as designated by Baird
- Shares purchased using the proceeds of redemptions from a Fund, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same accounts, and (3) redeemed shares were subject to a front-end or deferred sales charge (known as rights of reinstatement)
- A shareholder in the Funds Investor C Shares will have their share converted at net asset value to Investor A shares of the same fund if the shares are no longer subject to CDSC and the conversion is in line with the policies and procedures of Baird
- Employer-sponsored retirement plans or charitable accounts in a transactional brokerage account at Baird, including 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans. For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs or SAR-SEPs

CDSC Waivers on Investor A and C shares Available at Baird

- Shares sold due to death or disability of the shareholder
- Shares sold as part of a systematic withdrawal plan as described in the Fund’s Prospectus
- Shares bought due to returns of excess contributions from an IRA Account
- Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the shareholder reaching the qualified age based on applicable Internal Revenue Service regulations as described in the Fund’s prospectus
- Shares sold to pay Baird fees but only if the transaction is initiated by Baird
- Shares acquired through a right of reinstatement

Front-End Sales Charge Discounts Available at Baird: Breakpoints and/or Rights of Accumulations

- Breakpoints as described in this prospectus
- Rights of accumulations which entitles shareholders to breakpoint discounts will be automatically calculated based on the aggregated holding of Fund assets held by accounts within the purchaser’s household at Baird. Eligible Fund assets not held at Baird may be included in the rights of accumulations calculation only if the shareholder notifies his or her financial advisor about such assets
- Letters of Intent (LOI) allow for breakpoint discounts based on anticipated purchases of the Fund through Baird, over a 13-month period of time

Waiver of Initial Sales Charge on Purchases of Class A Shares by Certain Financial Institutions:

No initial sales charge is imposed on purchases of Class A shares by the following financial institutions that (i) are compensated by clients on a fee-only basis, or (ii) to the extent that they have entered into an agreement with the Funds to offer Class A shares through no-load network or platforms as described in “Net Asset Value Purchases” of this Prospectus.

In addition to the Financial Institutions above, the list below includes, but is not limited to, additional Financial Institutions that may waive the initial sales charge imposed on purchases of Class A Shares. For more information, please contact your Financial Intermediary:
