The Fund's performance has not been restated to reflect any differences in expenses paid by the Predecessor Fund and those paid by the Fund.

The Morningstar Moderately Target Risk Index is representative of a broader market and range of securities than is found in the Fund's portfolio. Individuals cannot invest directly in an index; however, an individual may invest in exchange-traded funds or other investment vehicles that attempt to track the performance of a benchmark index.

The Fund's past performance is not a good predictor of how the Fund will perform in the future. The graph and table do not reflect the deduction of taxes that a shareholder would pay on fund distributions or redemption of fund shares.
