* Class I shares inception date is 11/1/2008; Class A shares inception date is 5/1/2023. Benchmark since inception return corresponds to Class I shares inception date. The Fund has adopted the historical performance of the Oak Ridge Dynamic Small Cap Fund as a result of a reorganization on May 10, 2019. At the time of the reorganization, the Fund and the predecessor fund had substantially the same investment strategies. Additionally, the performance information presented for periods prior to September 30, 2015 is also based on a different predecessor fund. The predecessor fund's and the Fund's objectives, policies, guidelines and restrictions are, in all material respects, equivalent to those of the predecessor account. Please see the Fund's prospectus for additional information.

Call 855-551-5521 or visit northsquareinvest.com for the most recent month-end performance results. Fund facts are as of 12/31/24 unless otherwise stated. Current performance may be lower or higher than the performance data quoted. The performance data quoted represents past performance, which is no guarantee of future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost.

Performance would have been lower without expense limitations in effect.

Principal Risks of Investing: Risk is inherent in all investing, including an investment in the Fund. An investment in the Fund involves risk, including the following principal risks, among others: Small Cap Company Risk, Equity Risk, Reliance on Technology Risk, Value-Oriented Investment Strategies Risk, Management and Strategy Risk, Liquidity Risk, Portfolio Turnover Risk, ETF Risk, Preferred Stock Risk, Foreign Investment Risk, Real Estate Investment Trust ("REIT") Risk, and IPO Risk. Summary descriptions of these and other principal risks of investing in the Fund are set forth in the Fund's prospectus. Before you decide whether to invest in the Fund, carefully consider these risk factors and special considerations associated with investing in the Fund, which may cause investors to lose money. There can be no assurance that the Fund will achieve its investment objective. An investment in the Fund is not a deposit of the bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Please see the Fund's prospectus for additional risk disclosures.

Before investing you should carefully consider the Fund's investment objectives, risks, charges and expenses. This and other information is in the prospectus, a copy of which may be obtained by calling 855-551-5521. Please read the prospectus carefully before you invest. The benchmark shown represents the Fund's performance benchmark, which is different from the Fund's regulatory benchmark. The Fund's regulatory benchmark is the Russell 3000® TR Index, which measures the performance of the 3,000 largest U.S. companies based on total market capitalization, which represents approximately 98% of the investable U.S. equities. The Fund's regulatory benchmark can be found in the Fund's prospectus and/or shareholder report, available online at northsquareinvest.com, where current performance information is also available.

The Russell 2000® Index measures the performance of the small cap segment of the U.S. equity universe. The Russell 2000 Index is a subset of the Russell 3000® Index representing approximately 10% of the total market capitalization of that index. It includes approximately 2000 of the smallest securities based on a combination of their market cap and current index membership. The volatility (beta) of the account may be greater or less than that of the benchmark. It is not possible to invest directly in an index.

The Morningstar Rating™ for funds, or “star rating”, is calculated monthly for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product’s monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. The Ranking may reflect the waiver of all or a portion of the fund’s fees. Without such waiver, the Rankings may have been lower. © 2024 Morningstar, Inc. All Rights Reserved. Price-to-Earnings Ratio is the price of a stock divided by its earnings per share.

Active Share is a measure of the percentage of stock holdings in a manager’s portfolio that differ from the benchmark index.

“High-Alpha” is a term used in investing to describe an investment strategy’s ability to beat the market, or the “edge” that the strategy is intended to possess. Alpha is also often referred to as excess return.

***The “Fi360 Fiduciary Score®” is a peer percentile ranking of an investment against a set of quantitative due diligence criteria selected to reflect prudent fiduciary management. The Fi360 Fiduciary Score® Average is a one-, three-, five-, or ten-year rolling average of an investment’s Fi360 Fiduciary Score®. Each investment is evaluated against a set of factors and thresholds and allotted points. The points are totaled and compared to all other investments within the peer group. Investments with 0 points are automatically given an Fi360 Fiduciary Score® of 0. Every other investment is then given a Score of 1-100, representing their percent ranking based on its placement in the distribution of their peer group. An Fi360 Fiduciary Score® of 0 is most favorable. It represents that an investment meets or exceeds all of Broadridge Fi360 Solutions’ recommended due diligence thresholds. A Score of 100 is least favorable. Visit www.fi360.com/fi360-Fiduciary-Score for the complete methodology document.
