It should be read and retained for future reference.**

SUMMARY SECTION – NORTH SQUARE SMALL CAP VALUE FUND

Investment Objective

The investment objective of the North Square Small Cap Value Fund (the “Fund”) is long-term capital appreciation.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table and example below.**

	Investor Class Shares	Class I Shares
Shareholder Fees <i>(fees paid directly from your investment)</i>	None	None
Annual Fund Operating Expenses <i>(expenses that you pay each year as a percentage of the value of your investment)</i>		
Management fees	0.85%	0.85%
Distribution and service (Rule 12b-1) fees	0.25%	None
Other expenses ¹	0.19%	0.19%
Acquired fund fees and expenses	<u>0.01%</u>	<u>0.01%</u>
Total Annual Fund Operating Expenses ²	1.30%	1.05%

1 “Other Expenses” are estimated for the current fiscal year.

2 Total Annual Fund Operating Expenses have been restated to reflect current contractual expense caps.

Example

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same (taking into account the contractual fee waiver until September 30, 2027). Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	One Year	Three Years	Five Years	Ten Years
Investor Class Shares	\$132	\$412	\$713	\$1,568
Class I Shares	\$107	\$334	\$579	\$1,283

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. During the most recent fiscal year, the portfolio turnover rate for the Predecessor Fund (as defined below) was 143.89% of the average value of its portfolio.

Principal Investment Strategies

In seeking to achieve the Fund’s investment objective, North Square Investments, LLC (the “Adviser”) has selected CSM Advisors, LLC (“CSM” or the “Sub-Adviser”), a wholly owned subsidiary of the Adviser, to serve as the Fund’s sub-adviser and allocates the Fund’s assets to the Sub-Adviser. The Adviser retains the ability to manage all or a portion of the Fund’s assets directly.

The Fund will invest primarily in a diversified portfolio of equity securities of companies that are similar in market capitalization to those listed on the Russell 2000[®] Value Index. As of December 31, 2024, the range of market capitalization of companies included in the Russell 2000[®] Value Index was \$8.2 million to \$13.2 billion. The size of companies in the Index changes with market conditions and the composition of the Index. The Sub-Adviser seeks to find overlooked companies with low price-to-earnings (“P/E”) ratios, solid financial strength and strong management that are selling below their intrinsic value.

Under normal circumstances, the Fund will invest at least 80% of its net assets (including borrowings for investment purposes) in common stocks of small capitalization companies that at the time of purchase are similar in market capitalization to those listed on the Russell 2000[®] Value Index. The Fund may invest up to 20% of its net assets in foreign securities, including American Depositary Receipts (“ADRs”) or Global Depositary Receipts (“GDRs”) that are traded on U.S. markets. Small capitalization companies in which the Fund may invest include closed-end funds that invest primarily in small capitalization companies. The Fund also may invest in preferred stocks, convertible securities, such as convertible preferred stock or convertible debt securities, and warrants. The Fund intends to remain substantially invested in equity securities. However, the Fund may invest up to 20% of its net assets in investment-grade fixed income securities of any maturity issued by small capitalization companies if the Sub-Adviser believes that a company’s fixed income securities offer more potential for long-term total return with less risk than an investment in its equity securities.

Principal Risks of Investing

Risk is inherent in all investing, including an investment in the Fund. An investment in the Fund involves risk, including the following principal risks, among others: Market Risk, Equity Risk, Value-Oriented Investment Strategies Risk, Management and Strategy Risk, Small-Cap Company Risk, Foreign Investment Risk, Valuation Risk, Sector Focus Risk (Financials Sector and Industrials Sector), Preferred Securities Risk, Convertible Securities Risk, Fixed Income Securities Risk, High Portfolio Turnover Risk, Cybersecurity Risk, and Reliance on Technology Risk. Summary descriptions of these and other principal risks of investing in the Fund are set forth below. Before you decide whether to invest in the Fund, carefully consider these risk factors associated with investing in the Fund, which may cause investors to lose money. There can be no assurance that the Fund will achieve its investment objective. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Market Risk. The market price of a security or instrument may decline, sometimes rapidly or unpredictably, due to general market conditions that are not specifically related to a particular company, such as real or perceived adverse economic or political conditions throughout the world, including war, public health crises (including the occurrence of a contagious disease or illness, such as COVID-19), changes in the general outlook for corporate earnings, inflation, changes in interest or currency rates or adverse investor sentiment generally. The market value of a security or instrument also may decline because of factors that affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry.

Equity Risk. The value of the equity securities held by the Fund may fall due to general market and economic conditions, perceptions regarding the industries in which the issuers of securities held by the Fund participate, or factors relating to specific companies in which the Fund invests.

Value-Oriented Investment Strategies Risk. Value stocks are those that are believed to be undervalued in comparison to their peers due to adverse business developments or other factors. Value investing is subject to the risk that the market will not recognize a security’s inherent value for a long time or at all, or that a stock judged to be undervalued may actually be appropriately priced or overvalued. In addition, during some periods (which may be extensive) value stocks generally may be out of favor in the markets.

Management and Strategy Risk. The value of your investment depends on the judgment of the Adviser or the Sub-Adviser about the quality, relative yield, value or market trends affecting a particular security, industry, sector or region, which may prove to be incorrect. Investment strategies employed by the Adviser or Sub-Adviser in selecting investments for the Fund may not result in an increase in the value of your investment or in overall performance equal to other investments.

Small-Cap Company Risk. The securities of small-capitalization companies may be subject to more abrupt or erratic market movements and may have lower trading volumes or more erratic trading than securities of larger, more established companies or market averages in general. In addition, such companies typically are more likely to be adversely affected than large-capitalization companies by changes in earning results, business prospects, investor expectations or poor economic or market conditions. Many small-capitalization companies may be in the early stages of development. Since equity securities of smaller companies may lack sufficient market liquidity and may not be regularly traded, it may be difficult or impossible to sell securities at an advantageous time or a desirable price.

Foreign Investment Risk. The prices of foreign securities may be more volatile than the prices of securities of U.S. issuers because of economic and social conditions abroad, political developments, and differences and changes in the regulatory environments of foreign countries. In addition, changes in exchange rates and interest rates may adversely affect the values of the Fund's foreign investments. Foreign companies are generally subject to different legal and accounting standards than U.S. companies, and foreign financial intermediaries may be subject to less supervision and regulation than U.S. financial firms. Foreign securities include American Depositary Receipts (ADRs), European Depositary Receipts (EDRs) and Global Depositary Receipts (GDRs). Unsponsored ADRs and GDRs are organized independently and without the cooperation of the foreign issuer of the underlying securities, and involve additional risks because U.S. reporting requirements do not apply. In addition, the issuing bank may deduct shareholder distribution, custody, foreign currency exchange, and other fees from the payment of dividends.

Investment Risk. Various sectors of the global financial markets have been experiencing an extended period of adverse conditions. Market uncertainty has increased dramatically, particularly in the United States and Europe, and adverse market conditions have expanded to other markets. These conditions have resulted in disruption of markets, periods of reduced liquidity, greater volatility, general volatility of spreads, an acute contraction in the availability of credit and a lack of price transparency. The long-term impact of these events is uncertain but could continue to have a material effect on general economic conditions, consumer and business confidence and market liquidity.

Valuation Risk. The sale price that the Fund could receive for a portfolio security may differ from the Fund's valuation of the security, particularly for securities that trade in low volume or volatile markets or that are valued using a fair value methodology. In addition, the value of the securities in the Fund's portfolio may change on days when shareholders will not be able to purchase or sell the Fund's shares. These and other valuation risks could result in you paying more than the market value when buying Fund shares or receiving less than the market value when selling Fund shares.

Sector Focus Risk. The Fund may from time to time invest a larger portion of its assets in one or more asset classes, market segments or sectors than many other mutual funds, and thus will be more susceptible to negative events affecting those sectors.

Financials Sector. The performance of companies in the financials sector, as traditionally defined, may be adversely impacted by many factors, including, among others, changes in government regulations, economic conditions, and interest rates, credit rating downgrades, adverse public perception, exposure concentration and decreased liquidity in credit markets. The impact of changes in regulation of any individual financial company, or of the financials sector as a whole, cannot be predicted.

Industrials Sector. The value of companies in the industrial sector may be adversely affected by supply and demand related to their specific products or services and industrial sector products in general. The products of manufacturing companies may face obsolescence due to rapid technological developments and the introduction of new products.

Preferred Securities Risk. Preferred securities represent an equity interest in a company that generally entitle the holder to receive, in preference to the holders of other stocks such as common stock, dividends and a fixed share of the proceeds resulting from a liquidation of the company. The market value of preferred securities is subject to company-specific and market risks applicable generally to equity securities and is also sensitive to changes in the company's creditworthiness, the ability of the company to make payments on the preferred securities, and changes in interest rates, typically declining in value if interest rates rise.

Convertible Securities Risk. Convertible securities are subject to market and interest rate risk and credit risk. When the market price of the equity security underlying a convertible security decreases, the convertible security tends to trade on the basis of its yield and other fixed income characteristics, and is more susceptible to credit and interest rate risks. When the market price of such equity security rises, the convertible security tends to trade on the basis of its equity conversion features and be more exposed to market risk. Convertible securities are frequently issued by smaller capitalized companies with stock prices that may be more volatile than those of other companies.

Fixed Income Securities Risk. The prices of fixed income securities respond to economic developments, particularly interest rate changes, as well as to changes in an issuer's credit rating or market perceptions about the creditworthiness of an issuer. Liquidity may decline unpredictably in response to overall economic conditions or credit tightening. For example, a general rise in interest rates may cause investors to move out of fixed income securities on a large scale, which could adversely affect the price and liquidity of fixed income securities and could also result in increased redemptions for the Fund.

High Portfolio Turnover Risk. The Fund may engage in active and frequent trading and may have a high portfolio turnover, which may increase the Fund's transaction costs, may adversely affect the Fund's performance and may generate a greater amount of capital gain distributions to shareholders than if the Fund had a low portfolio turnover rate.

Cybersecurity Risk. Cybersecurity incidents may allow an unauthorized party to gain access to Fund assets, customer data (including private shareholder information), or proprietary information, or cause the Fund, the Adviser, the Sub-Adviser and/or other service providers (including custodians, sub-custodians, transfer agents and financial intermediaries) to suffer data breaches, data corruption or loss of operational functionality. In an extreme case, a shareholder’s ability to exchange or redeem Fund shares may be affected.

Reliance on Technology Risk. The Fund’s trading strategies are highly reliant on technology, including hardware, software and telecommunications systems. In addition, data gathering, research, forecasting, order execution, trade allocation, risk management, operational, back office and accounting systems are all highly automated and computerized. Such automation and computerization relies on an extensive amount of both proprietary software and third party hardware and software. Any unforeseeable failures, malfunctions, errors or problems with respect to these or other technologies may have a materially adverse effect on investors in the Fund or the Fund’s performance.

Performance

Concurrently with the Fund’s commencement of operations, the Fund acquired all of the assets, subject to the liabilities, of the Foundry Partners Small Cap Value Fund, a series of Valued Advisers Trust (the “Predecessor Fund”), in a tax-free reorganization on April 25, 2025 (the “Reorganization”). The Predecessor Fund had an investment objective and strategies that were, in all material respects, the same as those of the Fund, and was managed in a manner that, in all material respects, complied with the investment guidelines and restrictions of the Fund. Further, the Predecessor Fund’s portfolio managers joined the Sub-Adviser to serve as the Fund’s portfolio managers as part of the Reorganization. The Predecessor Fund had two share classes: Investor Class shares and Institutional Class shares. In the Reorganization, the holders of the Investor Class shares and Institutional Class shares of the Predecessor Fund received Investor Class shares and Class I shares, respectively, of the Fund. The performance information presented below reflects the performance of the Predecessor Fund and, as applicable, its share classes. Prior to the Reorganization, the Fund was a “shell” fund with no assets and had not yet commenced operations.

The bar chart and table below provide some indication of the risks of investing in the Fund by showing changes in the performance of the Predecessor Fund’s Investor Class shares from year to year and by showing how the average annual total returns of Investor Class shares of the Predecessor Fund compare with the average annual total returns of a broad-based market index. Performance of Investor Class shares will differ from that of Class I shares due to, among other things, differences in fees and expenses. Updated performance information is available at the Fund’s website, www.northsquareinvest.com, or by calling the Fund at 1-855-551-5521.

The Predecessor Fund’s past performance, before and after taxes, is not necessarily an indication of how the Fund will perform in the future.

Calendar-Year Total Return (before taxes) for Investor Class Shares
For each calendar year at NAV

Class I		
Highest Calendar Quarter Return at NAV (non-annualized)	27.36%	Quarter ended December 31, 2020
Lowest Calendar Quarter Return at NAV (non-annualized)	-36.62%	Quarter ended March 31, 2020

Average Annual Total Returns <i>(for the periods ended December 31, 2024)</i>	1 Year	5 Years	10 Years
Investor Class Shares Return Before Taxes	3.82%	8.42%	7.23%
Investor Class Shares Return After Taxes on Distributions	(1.77%)	5.11%	4.82%
Investor Class Shares Return After Taxes on Distributions and Sale of Fund Shares	5.30%	5.98%	5.25%
Class I Shares Return Before Taxes	4.08%	8.68%	7.50%
Russell 3000 [®] Total Return Index (reflects no deduction for fees, expenses, or taxes) ¹	23.81%	13.86%	12.55%
Russell 2000 [®] Value Total Return Index (reflects no deduction for fees, expenses, or taxes) ²	8.05%	7.29%	7.14%

1 The Russell 3000[®] Total Return Index is an unmanaged index that measures the performance of the 3,000 largest U.S. companies based on total market capitalizations, which represents approximately 98% of the investable U.S. equity market. Investors cannot invest directly in an index. Index returns are gross of any fees, brokerage commissions or other expenses of investing.

2 The Russell 2000[®] Value Total Return Index is an unmanaged index that measures the performance of the small-cap value segment of the US equity universe. It includes those Russell 2000 companies with relatively lower price-to-book ratios, lower I/B/E/S forecast medium term (2 year) growth and lower sales per share historical growth (5 years). The Russell 2000[®] Value Total Return Index is an unmanaged, capitalization-weighted index of 2,000 small cap U.S. companies. Investors cannot invest directly in an index. Index returns are gross of any fees, brokerage commissions or other expenses of investing.

After-tax returns are shown for the Investor Class shares only. After-tax returns for Class I shares will vary. After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts. In certain cases, the Return After Taxes on Distributions and Sale of Fund Shares may be higher than the other return figures for the same period. This will occur when a capital loss is realized upon the sale of Fund shares or provides an assumed tax benefit that increases the return.

Investment Adviser and Sub-Adviser

North Square Investments, LLC is the Fund's investment adviser (the "Adviser"). CSM Advisors, LLC ("CSM"), an affiliate of, and under common control with, the Adviser, serves as the Fund's investment sub-adviser (the "Sub-Adviser").

Portfolio Managers

The portfolio managers for the Fund joined the Sub-Adviser in connection with the Reorganization of the Predecessor Fund into the Fund. Prior to the Reorganization, the Fund's portfolio managers were the Predecessor Fund's portfolio managers at Foundry Partners, LLC (the "Predecessor Fund's Adviser").

The Sub-Adviser's portfolio management team is comprised of: Mark Roach, Director, Small & Micro Cap Equities of CSM since April 2025; Managing Director and Portfolio Manager of the Predecessor Fund's Adviser from June 2016 to April 2025 and, from 2006 to June 2016, Portfolio Manager of the precursor to the Predecessor Fund as a Managing Director and Portfolio Manager of Dreman Value Management, LLC ("Dreman"), which was the adviser to the precursor to the Predecessor Fund; and Mario Tufano, CFA, Senior Portfolio Manager, Small Cap Equities of CSM since April 2025; Portfolio Manager of the Predecessor Fund's Adviser from June 2016 to April 2025 and, from 2010-2016, Portfolio Manager of the precursor to the Predecessor Fund as a Vice President and Senior Securities Analyst of Dreman. Mr. Roach is the lead portfolio manager and the portfolio management team is jointly and primarily responsible for the day-to-day management of the Fund's portfolio.

Purchase and Sale of Fund Shares

To purchase shares of the Fund, you must invest at least the minimum amount shown in the chart below. As described below, the minimums can be waived in certain circumstances and by certain financial institutions.

Minimum Investments	To Open Your Account	To Add to Your Account
Investor Class shares		
All Accounts	\$2,500	\$1,000
Class I shares		
All Accounts	\$100,000	\$1,000

Fund shares are redeemable on any business day the New York Stock Exchange (the “NYSE”) is open for business, by written request or by telephone.

Tax Information

The Fund’s distributions are generally taxable, and will ordinarily be taxed as ordinary income, qualified dividend income or capital gains, unless you are investing through a tax-advantaged arrangement, such as a 401(k) plan or an individual retirement account. Shareholders investing through such tax-advantaged arrangements may be taxed later upon withdrawal of monies from those arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.

MORE ABOUT THE FUND'S INVESTMENT OBJECTIVE, PRINCIPAL INVESTMENT STRATEGIES AND RISKS

The Fund's investment objective is non-fundamental and may be changed by the Board of Trustees without shareholder approval. The Fund will provide written notice to shareholders prior to, or concurrent with, any such changes as required by applicable law. Should the Fund change its policy of investing at least 80% of its assets (net assets, plus the amount of any borrowings for investment purposes) in the type of investment or industry suggested by its name, the Fund will provide shareholders at least 60 days' notice prior to making the change. The Fund's investment strategies and policies may be changed from time to time without shareholder approval or prior written notice, unless specifically stated otherwise in this Prospectus or the Statement of Additional Information ("SAI"). There can be no guarantee that the Fund will achieve its investment objectives.

The Fund's investment policies and limitations typically apply at the time an investment is made. As a result, the Fund generally may continue to hold positions that met a particular investment policy or limitation at the time the investment was made but subsequently do not meet the investment policy or limitation.

North Square Small Cap Value Fund

Investment Objective

The investment objective of the North Square Small Cap Value Fund (the "Fund") is long-term capital appreciation.

Principal Investment Strategies

The Fund will invest primarily in a diversified portfolio of equity securities of companies that are similar in market capitalization to those listed on the Russell 2000® Value Index. As of December 31, 2024, the range of market capitalization of companies included in the Russell 2000® Value Index was \$8.2 million to \$13.2 billion. The size of companies in the Index changes with market conditions and the composition of the Index. The Sub-Adviser seeks to find overlooked companies with low P/E ratios, solid financial strength and strong management that are selling below their intrinsic value.

Under normal circumstances, the Fund will invest at least 80% of its net assets (including borrowings for investment purposes) in common stocks of small capitalization companies that at the time of purchase are similar in market capitalization to those listed on the Russell 2000® Value Index. This investment policy may not be changed without at least sixty (60) days' notice to Fund shareholders. The Fund may invest up to 20% of its net assets in foreign securities (including securities of emerging market countries), including American Depositary Receipts (ADRs) or Global Depositary Receipts (GDRs) that are traded on U.S. markets. Small capitalization companies in which the Fund may invest include closed-end funds that invest primarily in small capitalization companies. The Fund also may invest in preferred stocks, convertible securities, such as convertible preferred stock or convertible debt securities, and warrants. The Fund intends to remain substantially invested in equity securities. However, the Fund may invest up to 20% of its net assets in investment-grade fixed income securities of any maturity issued by small capitalization companies if the Sub-Adviser believes that a company's fixed income securities offer more potential for long-term total return with less risk than an investment in its equity securities.

In considering whether to purchase a particular security, the Sub-Adviser considers a number of factors. Securities having a low P/E ratio are used to initially screen securities and establish the potential universe of securities from which the Sub-Adviser will select investments. The Sub-Adviser will then perform an analytical process to make the final security selection. The specific factors considered in this process will vary depending on the particular security, the sector it is in, as well as market conditions; however, these specific factors may include: trailing twelve month price-to earnings (or "P/E") ratio, price-to-book ratio, price-to-cash flow ratio, dividend yield, the method in which the company has historically utilized free cash flow (such as stock buy back programs, financing capital expenditures, etc.), market capitalization, stock price relative to the stock's historical stock price, earnings growth rate, debt to capital ratio, and return on equity. The order of the list above does not necessarily represent the order or weight given to those factors. Additional factors may be considered by the Sub-Adviser depending on market conditions and the security being evaluated for purchase.

Temporary Defensive Measures. From time to time, the Fund may take temporary defensive positions that are inconsistent with its principal investment strategies, in attempting to respond to adverse market, economic, political or other conditions. For example, the Fund may hold up to 100% of its assets in short-term U.S. government securities, money market instruments, shares of other no-load mutual funds or repurchase agreements. If the Fund invests in shares of another mutual fund, the shareholders of the Fund generally will be subject to duplicative management fees. As a result of engaging in these temporary measures, the Fund may not achieve its investment objective. The Fund may also invest in these instruments at any time to maintain liquidity or pending selection of investments in accordance with its investment strategies.

Principal Risks of Investing in the Fund

This section of the Prospectus provides additional information about the Fund's investment practices and related risks, including principal and non-principal strategies and risks. This Prospectus does not describe all of the Fund's investment practices; additional information about the Fund's risks and investments can be found in the Fund's SAI. The Fund's exposure to the risks discussed below may be through the Fund's direct investments or indirect through the Fund's investments in underlying funds, if applicable. Before you decide whether to invest in the Fund, carefully consider these risks and special considerations associated with investing in the Fund, which may cause you to lose money. An investment in the Fund is not a bank deposit and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. There is no guarantee that the Fund will achieve its investment objective.

Convertible Securities Risk. Convertible securities are securities that are convertible into or exchangeable for common or preferred stock. The values of convertible securities may be affected by changes in interest rates, the creditworthiness of their issuer, and the ability of the issuer to repay principal and to make interest payments. A convertible security tends to perform more like a stock when the underlying stock price is high and more like a debt security when the underlying stock price is low. A convertible security is not as sensitive to interest rate changes as a similar non-convertible debt security and generally has less potential for gain or loss than the underlying stock.

Credit Risk. If an obligor (such as the issuer itself or a party offering credit enhancement) for a security held by the Fund fails to pay amounts due when required by the terms of the security, otherwise defaults, is perceived to be less creditworthy, becomes insolvent or files for bankruptcy, a security's credit rating is downgraded or the credit quality or value of any underlying assets declines, the value of the Fund's investment could decline. If the Fund enters into financial contracts (such as certain derivatives, repurchase agreements, reverse repurchase agreements, and when-issued, delayed delivery and forward commitment transactions), the Fund will be subject to the credit risk presented by the counterparties. Credit risk is broadly gauged by the credit ratings of the securities in which the Fund invests.

Cybersecurity Risk. Cybersecurity incidents may allow an unauthorized party to gain access to Fund assets, customer data (including private shareholder information), or proprietary information, or cause the Fund, the Adviser, the Sub-Adviser, and/or other service providers (including custodians, sub-custodians, transfer agents and financial intermediaries) to suffer data breaches, data corruption or loss of operational functionality. In an extreme case, a shareholder's ability to exchange or redeem Fund shares may be affected. A breach in cybersecurity refers to both intentional and unintentional events that may cause the Fund to lose or compromise confidential information, suffer data corruption or lose operational capacity. Breaches in cybersecurity include, among other things, stealing or corrupting data maintained online or digitally, denial of service attacks on websites, the unauthorized release of confidential information or various other operational disruptions. Successful cybersecurity breaches of the Fund and/or the Fund's investment adviser, distributor, custodian, the transfer agent or other third party service providers may adversely impact the Fund and its shareholders. For instance, a successful cybersecurity breach may interfere with the processing of shareholder transactions, cause the release of private personal shareholder information, impede trading, subject the Fund to regulatory fines or financial losses, and/or cause reputational damage. The Fund relies on third-party service providers for many of the day-to-day operations, and is therefore subject to the risk that the protections and protocols implemented by those service providers will be ineffective in protecting the Fund from cybersecurity breaches. Similar types of cybersecurity risks are also present for issuers of securities in which the Fund may invest, which could result in material adverse consequences for such issuers and may cause the Fund's investments in such companies to lose value. There is no guarantee the Fund will be successful in protecting against cybersecurity breaches.

Duration Risk. Duration is a measure of the expected price volatility of a fixed-income security to changes in interest rates. The duration of a fixed-income security may be shorter than or equal to full maturity of a fixed-income security. Fixed-income securities with longer durations have more risk and will decrease in price as interest rates rise.

Emerging Market Risk. Many of the risks with respect to foreign investments are more pronounced for investments in issuers in developing or emerging market countries as defined by the World Bank, International Finance Corporation or the Morgan Stanley Capital International ("MSCI") emerging market indices or other comparable indices. Emerging market countries tend to have more government exchange controls, more volatile interest and currency exchange rates, less market regulation, and less developed economic, political and legal systems than those of more developed countries. In addition, emerging market countries may experience high levels of inflation and may have less liquid securities markets and less efficient trading and settlement systems. Their economies also depend heavily upon international trade and may be adversely affected by protective trade barriers and the economic conditions of their trading partners. Emerging market countries may have fixed or managed currencies that are not free-floating against the U.S. Dollar and may not be traded internationally. Some countries with emerging securities markets have experienced high rates of inflation for many years. Inflation and rapid fluctuations in inflation rates have had and may continue to have negative effects on the economies and securities markets of certain countries. Emerging securities markets typically have substantially less volume than U.S. markets, securities in these markets are less liquid, and their prices often are more volatile than those of comparable U.S. companies. Delays may occur in settling securities transactions in emerging market countries, which could adversely affect the Fund's ability to make or liquidate investments in those markets in a timely fashion. In addition, it may not be possible for the Fund to find satisfactory custodial services in an emerging market country, which could increase the Fund's costs and cause delays in the transportation and custody of its investments. Companies in emerging market countries may not be subject to accounting, auditing, financial reporting and recordkeeping requirements that are as robust as those in more developed countries, and therefore, material information about a company may be unavailable or unreliable, and U.S. regulators may be unable to enforce a company's regulatory obligations. The legal remedies for investors in emerging markets may be more limited than remedies available in the U.S. and the ability of U.S. authorities (e.g., the SEC and U.S. Department of Justice) to bring actions against bad actors may be limited.

Equity Risk. The value of equity securities held by the Fund may fall due to general market and economic conditions, perceptions regarding the industries in which the issuers of securities held by the Fund participate, or factors relating to specific companies in which the Fund invests. The price of common stock of an issuer in the Fund's portfolio may decline if the issuer fails to make anticipated dividend payments because, among other reasons, the financial condition of the issuer declines. Common stock is subordinated to preferred stocks, bonds and other debt instruments in a company's capital structure in terms of priority with respect to corporate income, and therefore will be subject to greater dividend risk than preferred stocks or debt instruments of such issuers. In addition, while broad market measures of common stocks have historically generated higher average returns than fixed income securities, common stocks have also experienced significantly more volatility in those returns.

Financials Sector Risk. The performance of companies in the financials sector, as traditionally defined, may be adversely impacted by many factors, including, among others, changes in government regulations, economic conditions, and interest rates, credit rating downgrades, adverse public perception, exposure concentration and decreased liquidity in credit markets. The impact of changes in regulation of any individual financial company, or of the financials sector as a whole, cannot be predicted. Cybersecurity incidents and technology malfunctions and failures have become increasingly frequent and have caused significant losses to companies in this sector, which may negatively impact the Fund.

Fixed Income Securities Risk. The prices of fixed income securities respond to economic developments, particularly interest rate changes, as well as to changes in an issuer's credit rating or market perceptions about the creditworthiness of an issuer. Prices of fixed income securities tend to move inversely with changes in interest rates. Generally, fixed income securities decrease in value if interest rates rise and increase in value if interest rates fall, with lower rated securities more volatile than higher rated securities. The longer the effective maturity and duration of the Fund's portfolio, the more the Fund's share price is likely to react to changes in interest rates. (Duration is a weighted measure of the length of time required to receive the present value of future payments, both interest and principal, from a fixed income security.) Some fixed income securities give the issuer the option to call, or redeem, the securities before their maturity dates. If an issuer calls its security during a time of declining interest rates, the Fund might have to reinvest the proceeds in an investment offering a lower yield, and therefore might not benefit from any increase in value of the security as a result of declining interest rates. During periods of market illiquidity or rising interest rates, prices of callable issues are subject to increased price fluctuation. In addition, the Fund may be subject to extension risk, which occurs during a rising interest rate environment because certain obligations may be paid off by an issuer more slowly than anticipated, causing the value of those securities held by the Fund to fall.

Foreign Investment Risk. Investments in foreign securities are affected by risk factors generally not thought to be present in the United States. The prices of foreign securities may be more volatile than the prices of securities of U.S. issuers because of economic and social conditions abroad, political developments, and differences and changes in the regulatory environments of foreign countries. Special risks associated with investments in foreign markets include less liquidity, less developed or less efficient trading markets, lack of comprehensive company information, less government supervision of exchanges, brokers and issuers, greater risks associated with counterparties and settlement, and difficulty in enforcing contractual obligations. In addition, changes in exchange rates and interest rates, and imposition of foreign taxes, may adversely affect the value of the Fund's foreign investments. Foreign companies are generally subject to different legal and accounting standards than U.S. companies, and foreign financial intermediaries may be subject to less supervision and regulation than U.S. financial firms. The Fund's investments in depositary receipts (including ADRs and GDRs) are subject to these risks, even if denominated in U.S. Dollars, because changes in currency and exchange rates affect the values of the issuers of depositary receipts. In addition, the underlying issuers of certain depositary receipts, particularly unsponsored or unregistered depositary receipts, are under no obligation to distribute shareholder communications to the holders of such receipts, or to pass through to them any voting rights with respect to the deposited securities.

Gap Risk. The Fund is subject to the risk that the value of the Fund's investment will change dramatically from one level to another with no trading in between and/or before the Fund can exit from the investment. Usually, such movements occur when there are adverse news announcements, which can cause a stock price or derivative value to drop substantially from the previous day's closing price. Trading halts may lead to gap risk.

High Portfolio Turnover Risk. The Fund may engage in active and frequent trading and may have a high portfolio turnover, which may increase the Fund's transaction costs, may adversely affect the Fund's performance and may generate a greater amount of capital gain distributions to shareholders than if the Fund had a low portfolio turnover rate.

Industrials Sector Risks. The value of companies in the industrial sector may be adversely affected by supply and demand related to their specific products or services and industrial sector products in general. The products of manufacturing companies may face obsolescence due to rapid technological developments and the introduction of new products.

Interest Rate Risk. Prices of fixed income securities tend to move inversely with changes in interest rates. Generally, fixed income securities decrease in value if interest rates rise and increase in value if interest rates fall, with longer-term securities being more sensitive than shorter-term securities. For example, the approximate percentage change in the price of a security with a three-year duration would be expected to drop by approximately 3% in response to a 1% increase in interest rates. Duration is a weighted measure of the length of time required to receive the present value of future payments, both interest and principal, from a fixed income security. Generally,

the longer the maturity and duration of a bond or fixed rate loan, the more sensitive it is to this risk. Falling interest rates also create the potential for a decline in the Fund's income. Changes in governmental policy, rising inflation rates, and general economic developments, among other factors, could cause interest rates to increase and could have a substantial and immediate effect on the values of the Fund's investments. These risks are greater during periods of rising inflation. In addition, a rise in interest rates may result in periods of volatility and increased redemptions that might require the Fund to liquidate portfolio securities at disadvantageous prices and times.

Investment Risk. The value of the Fund's investments, like other market investments, may move up or down, sometimes rapidly and unpredictably. All investments involve risks, including the risk that the entire amount invested may be lost. No guarantee or representation is made that the Fund's investment objectives will be achieved.

Various sectors of the global financial markets have been experiencing an extended period of adverse conditions. Market uncertainty has increased dramatically, particularly in the United States and Europe, and adverse market conditions have expanded to other markets. These conditions have resulted in disruption of markets, periods of reduced liquidity, greater volatility, general volatility of spreads, an acute contraction in the availability of credit and a lack of price transparency. These volatile and often difficult global market conditions have episodically adversely affected the market values of many securities, and this volatility may continue, and conditions could even deteriorate further. Some of the largest banks and companies across many sectors of the economy in the United States and Europe have declared bankruptcy, entered into insolvency, administration, or similar proceedings, been nationalized by government authorities, and/or agreed to merge with or be acquired by other banks or companies that had been considered their peers. The long-term impact of these events is uncertain but could continue to have a material effect on general economic conditions, consumer and business confidence and market liquidity.

Management and Strategy Risk. The value of your investment depends on the judgment of the Sub-Adviser about the quality, relative yield, value or market trends affecting a particular security, industry, sector or region, which may prove to be incorrect. Investment strategies employed by the Sub-Adviser in selecting investments for the Fund may not result in an increase in the value of your investment or in overall performance equal to other investments.

Market Risk. The market price of a security or instrument may decline, sometimes rapidly or unpredictably, due to general market conditions that are not specifically related to a particular company, such as domestic and foreign (non-U.S.) economic growth and real or perceived adverse economic or political conditions throughout the world, including war, social unrest, natural disaster, public health crises (including the occurrence of a contagious disease or illness, such as COVID-19), changes in the general outlook for corporate earnings, inflation, supply chain disruptions, sanctions, changes in interest or currency rates or adverse investor sentiment generally. These events may lead to economic uncertainty, decreased economic activity, and increased market volatility. The market value of a security or instrument also may decline because of factors that affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry. Given the interconnectedness of markets around the world, even if these events affect only a single or small number of issuers or countries, they may have disruptive effects across global economies and markets. For example, the financial crisis that began in 2008 caused a significant decline in the value and liquidity of many securities; in particular, the values of some sovereign debt and of securities of issuers that invest in sovereign debt and related investments fell, credit became more scarce worldwide and there was significant uncertainty in the markets. Such environments could make identifying investment risks and opportunities especially difficult for the Sub-Adviser. In response to the crisis, the United States and other governments took steps to support financial markets. The withdrawal of this support or failure of efforts in response to the crisis could negatively affect financial markets generally as well as the value and liquidity of certain securities. In addition, policy and legislative changes in the United States and in other countries are changing many aspects of financial regulation. The impact of these changes on the markets, and the practical implications for market participants, may not be fully known for some time. The current contentious domestic political environment, as well as political and diplomatic events within the United States and abroad, such as the U.S. government's inability at times to agree on a long-term budget and deficit reduction plan, has in the past resulted, and may in the future result, in a government shutdown, which could have an adverse impact on the Fund's investments and operations. Additional and/or prolonged U.S. federal government shutdowns may affect investor and consumer confidence and may adversely impact financial markets and the broader economy, perhaps suddenly and to a significant degree.

Preferred Securities Risk. There are two types of preferred securities: retail and institutional. Preferred securities pay fixed or floating dividends to investors and have "preference" over common stock in the payment of dividends and the liquidation of a company's assets. This means that a company must pay dividends on preferred stock before paying any dividends on its common stock. In order to be payable, distributions on such preferred securities must be declared by the issuer's board of directors. Income payments on preferred securities may be cumulative, causing dividends and distributions to accumulate even if not declared by the board of directors or otherwise made payable. In such a case, all accumulated dividends must be paid before any dividend on the common stock can be paid. However, many preferred securities are non-cumulative, in which case dividends do not accumulate and need not ever be paid. The Fund may invest in non-cumulative preferred securities, whereby the issuer does not have an obligation to make-up any missed payments to its stockholders. There is no assurance that dividends or distributions on the preferred securities in which the Fund invests will be declared or otherwise made payable. Preferred securities may also contain provisions under which payments must be stopped (i.e., stoppage is compulsory, not discretionary). The conditions under which this occurs may relate to, for instance, capitalization levels. Hence, if a company incurs significant losses that deplete retained earnings automatic payment stoppage could occur. In some cases the terms of the preferred

securities provide that the issuer would be obligated to attempt to issue common shares to raise funds for the purpose of making the preferred payments. However, there is no guarantee that the issuer would be successful in placing common shares. Preferred stockholders usually have no right to vote for corporate directors or on other matters. Shares of preferred securities have a liquidation preference that generally equals the original purchase price at the date of issuance. The market value of preferred securities may be affected by, among other factors, favorable and unfavorable changes impacting the issuer or industries in which they operate, movements in interest rates and inflation, and the broader economic and credit environments, and by actual and anticipated changes in tax laws, such as changes in corporate and individual income tax rates. Because the claim on an issuer's earnings represented by preferred securities may become onerous when interest rates fall below the rate payable on such securities, the issuer may redeem the securities. Thus, in declining interest rate environments in particular, the Fund's holdings of higher rate-paying fixed rate preferred securities may be reduced, and the Fund may be unable to acquire securities of comparable credit quality paying comparable rates with the redemption proceeds.

Reliance on Technology Risk. The Fund's trading strategies are highly reliant on technology, including hardware, software and telecommunications systems. In addition, data gathering, research, forecasting, order execution, trade allocation, risk management, operational, back office and accounting systems are all highly automated and computerized. Such automation and computerization relies on an extensive amount of both proprietary software and third party hardware and software. Because of the quantity and nature of the software utilized, software errors may occur, and certain of these errors may impact portfolios. Additionally, with respect to third party hardware and software, such errors are often entirely outside of the control of the Fund. The Sub-Adviser seeks to reduce the incidence of software errors through a certain degree of internal testing and seeks to reduce the impact of such errors through monitoring and the use of certain independent safeguards in the overall portfolio management system and often, with respect to proprietary software, in the software code itself. Despite such testing, monitoring and independent safeguards, these software errors may result in, among other things, the execution of unanticipated trades, the failure to execute anticipated trades, the failure to properly allocate trades among clients, the failure to properly gather and organize available data and/or the failure to take certain hedging or risk reducing actions. These errors may be extremely hard to detect. Regardless of how difficult their detection appears in retrospect, some of these errors may go undetected for long periods of time and some may never be detected. The impact caused by errors may be compounded over time. The Fund assumes that software errors and their ensuing risks are an inherent part of investing with a process-driven, systematic investment manager, and does not expect to perform a materiality analysis on the vast majority of errors it discovers. The Sub-Adviser seeks, on an ongoing basis, to create adequate backups of software and hardware where possible but there is no guarantee that such efforts will be successful. Further, to the extent that an unforeseeable software or hardware malfunction or problem is caused by a defect, virus or other outside force, investors may be materially adversely affected.

Small-Cap Company Risk. Investing in small-capitalization companies generally involves greater risks than investing in large-capitalization companies. Small-cap companies may have limited product lines, markets or financial resources or may depend on the expertise of a few people and may be subject to more abrupt or erratic market movements than securities of larger, more established companies or market averages in general. Many small-capitalization companies may be in the early stages of development. Since equity securities of smaller companies may lack sufficient market liquidity and may not be regularly traded, it may be difficult or impossible to sell securities at an advantageous time or a desirable price.

Sector Focus Risk. The Fund may invest a larger portion of its assets in one or more sectors than many other mutual funds and thus will be more susceptible to negative events affecting those sectors. At times the performance of the Fund's investments may lag the performance of other sectors or the broader market as a whole. Such underperformance may continue for extended periods of time.

Valuation Risk. If market conditions make it difficult to value some investments, the fund may value these investments using more subjective methods, such as fair value pricing. In such cases, the value determined for an investment could be different than the value realized upon such investment's sale. As a result, you could pay more than the market value when buying Fund shares or receive less than the market value when selling Fund share.

Value-Oriented Investment Strategies Risk. Value stocks are those that are believed to be undervalued in comparison to their peers due to adverse business developments or other factors. Value investing carries the risk that the market will not recognize a security's inherent value for a long time or at all, or that a stock judged to be undervalued may actually be appropriately priced or overvalued. In addition, during some periods (which may be extensive) value stocks generally may be out of favor in the markets. Therefore, the Fund is most suitable for long-term investors who are willing to hold their shares for extended periods of time through market fluctuations and the accompanying changes in share prices.

Yield Curve Risk. This is the risk that there is an adverse shift in market interest rates of fixed income investments. The risk is associated with either flattening or steepening of the yield curve, which is a result of changing yields among comparable bonds with different maturities. If the yield curve flattens, then the yield spread between long-and short-term interest rates narrows and the price of a bond will change. If the curve steepens, then the spread between the long- and short-term interest rates increases which means long-term bond prices decrease relative to short-term bond prices.

Portfolio Holdings Information

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the Fund's SAI.

MANAGEMENT OF THE FUND

Investment Adviser

North Square Investments, LLC (“North Square”), a Delaware limited liability company with its principal place of business at 200 West Madison Street, Suite 2610, Chicago, IL 60606, is the Fund’s investment adviser and provides investment advisory services to the Fund pursuant to an investment advisory agreement between the Adviser and Exchange Place Advisors Trust (“Trust”), on behalf of the Fund (the “Advisory Agreement”). Founded in September 2018, North Square is an investment adviser registered with the SEC.

Concurrently with the Fund’s commencement of operations, the Fund acquired all of the assets, subject to the liabilities, of the Foundry Partners Small Cap Value Fund, a series of Valued Advisers Trust (the “Predecessor Fund”), in a tax-free reorganization on April 25, 2025 (the “Reorganization”).

Under the Advisory Agreement, the Adviser is responsible for providing or overseeing the provision of all investment management services to the Fund, including furnishing a continuous investment program for the Fund and determining what securities and other investments the Fund should buy and sell. The Adviser, together with the administrator to the Fund, is also responsible for assisting in the supervision and coordination of all aspects of the Fund’s operations, including the coordination of the Fund’s other services providers and the provision of related administrative and other services. The Adviser is authorized to delegate certain of its duties with respect to the Fund to one or more sub-advisers. The Adviser has engaged CSM Advisors, LLC (“CSM”) (the “Sub-Adviser”) pursuant to this authority and is responsible for overseeing the Sub-Adviser and recommending its hiring, termination, and replacement for approval by the Board of Trustees (the “Board of Trustees” or the “Board”). The Adviser is also responsible for determining the portion of the Fund’s assets to be managed by any given sub-adviser and reallocating those assets as necessary from time to time.

As a sub-advised Fund, the Adviser retains overall responsibility for the management and investment of the assets of the Fund. In this capacity, the Adviser plays an active role in overseeing, monitoring and reviewing the Sub-Adviser in the performance of its duties. The Adviser monitors the investment performance of the Sub-Adviser and also evaluates the portfolio management teams to determine whether their investment activities remain consistent with the Fund’s investment objectives, strategies and policies. The Adviser also monitors changes that may impact the Sub-Adviser’s overall business and regularly performs due diligence reviews of the Sub-Adviser. In addition, the Adviser obtains detailed, comprehensive information concerning the Sub-Adviser’s performance and Fund operations and provides regular reports on these matters to the Board. In its role as sponsor and primary investment adviser to the Fund, the Adviser assumes reputational and other risks associated with the operation of the Fund and provides the Fund with the ability to use the Adviser’s name and brand, as well as access to other services provided by the Adviser and its affiliates.

For its services, the Adviser is entitled to receive the below annual management fee from the Fund, calculated daily and payable monthly, as a percentage of the Fund’s average daily net assets.

Fund	Contractual Advisory Fees As a Percentage of Average Daily Net Assets
North Square Small Cap Value Fund	0.85%

Manager-of-Managers Arrangement

Section 15(a) of the Investment Company Act of 1940, as amended (the “1940 Act”), requires that all contracts pursuant to which persons serve as investment advisers to investment companies be approved by shareholders. This requirement also applies to the appointment of sub-advisers to the Fund. The Trust and the Adviser have been granted exemptive relief from the SEC (the “Order”), which permits the Adviser, on behalf of the Fund and subject to the approval of the Board, including a majority of the independent members of the Board, to hire, and to modify any existing or future sub-advisory agreement with, unaffiliated sub-advisers and affiliated sub-advisers, including sub-advisers that are wholly-owned subsidiaries (as defined in the 1940 Act) of the Adviser or its parent company and sub-advisers that are partially-owned by, or otherwise affiliated with, the Adviser or its parent company (the “Manager-of-Managers Structure”). The Adviser has the ultimate responsibility for overseeing the Fund’s sub-advisers and recommending their hiring, termination and replacement, subject to oversight by the Board. The Order also provides relief from certain disclosure obligations with regard to sub-advisory fees. With this relief, the Fund may elect to disclose the aggregate fees payable to the Adviser and wholly-owned sub-advisers and the aggregate fees payable to unaffiliated sub-advisers and sub-advisers affiliated with the Adviser or its parent company, other than wholly-owned sub-advisers. The Order is subject to various conditions, including that the Fund will notify shareholders and provide them with certain information required by the exemptive order within 90 days of hiring a new sub-adviser. The Fund may also rely on any other current or future laws, rules or regulatory guidance from the SEC or its staff applicable to the Manager-of-Managers Structure. The sole initial shareholder of the Fund has approved the operation of the Fund under a Manager-of-Managers Structure with respect to any affiliated or unaffiliated sub-adviser, including in the manner that is permitted by the Order.

The Manager-of-Managers Structure enables the Trust to operate with greater efficiency by not incurring the expense and delays associated with obtaining shareholder approvals for matters relating sub-advisers or sub-advisory agreements. Operation of the Fund under the Manager-of-Managers Structure does not permit management fees paid by the Fund to the Adviser to be increased without shareholder approval. Shareholders will be notified of any changes made to sub-advisers or material changes to sub-advisory agreements within 90 days of the change.

The Adviser and its affiliates may have other relationships, including significant financial relationships, with current or potential sub-advisers or their affiliates, which may create a conflict of interest. However, in making recommendations to the Board to appoint or to change a sub-adviser, or to change the terms of a sub-advisory agreement, the Adviser considers the sub-adviser's investment process, risk management, and historical performance with the goal of retaining sub-advisers for the Fund that the Adviser believes are skilled and can deliver appropriate risk-adjusted returns over a full market cycle. The Adviser does not consider any other relationship it or its affiliates may have with a sub-adviser or its affiliates, and the Adviser discloses to the Board the nature of any material relationships it has with a sub-adviser or its affiliates when making recommendations to the Board to appoint or to change a sub-adviser, or to change the terms of a sub-advisory agreement.

Sub-Adviser

CSM Advisors, LLC ("CSM" or the "Sub-Adviser"), located at 2000 Ericsson Drive, Suite 100, Warrendale, Pennsylvania 15086, acts as an investment sub-adviser to the Fund. CSM is an affiliate of, and under common control with, the Adviser and is an investment adviser registered with the SEC. As part of the Reorganization of the Predecessor Fund into the Fund, the portfolio managers to the Predecessor Fund became employees and officers of the Sub-Adviser and, by extension, portfolio managers for the Fund.

For its investment sub-advisory services, CSM is entitled to receive an annual fee paid solely by the Adviser of 0.595% of the Fund's average daily net assets.

A summary of the factors considered by the Board in connection with the approval of the Advisory Agreement and Sub-Advisory Agreement for the Fund will be available in the Fund's annual report to shareholders for the period ending May 31, 2025.

Portfolio Managers

Portfolio Managers of CSM

Mark Roach and Mario Tufano are the portfolio managers of CSM who are jointly and primarily responsible for the day-to-day management of the Fund.

Mark Roach, the Lead Portfolio Manager, joined CSM in April 2025 as Director, Small & Micro Cap Equities, in connection with the Reorganization of the Predecessor Fund into the Fund.

While at the adviser to the Predecessor Fund (the "Predecessor Fund's Adviser"), Mr. Roach was a Portfolio Manager and Investment Analyst within the Small and Micro Cap Value Strategies team. Mr. Roach started in the industry in 1995 and was with the Predecessor Fund's Adviser's since its transaction with Dreman Value Management, LLC ("Dreman") in June of 2016. He was with Dreman from late 2006-June 20, 2016 in a similar capacity. Prior to joining Dreman, Mr. Roach was a Portfolio Manager at Vaughan Nelson Investment Management, managing a small cap product from 2002 through 2006. Mr. Roach has significant experience in working with institutions, pensions and endowments and is well known in the consulting and high net worth community. Mr. Roach served as a security analyst from 1994 to 2001 for various institutions including Fifth Third Bank, Lynch, Jones & Ryan and USAA.

Mr. Roach graduated from Baldwin Wallace College with a B.A. in Business, and earned a MBA from the University of Chicago's Booth School of Business. In addition, Mr. Roach is a former board member on the Rice University Wright Fund.

Mario Tufano joined CSM in April 2025 as Senior Portfolio Manager, Small Cap Equities, in connection with the Reorganization of the Predecessor Fund into the Fund.

While at the Predecessor Fund's Adviser, Mr. Tufano was a Portfolio Manager and Investment Analyst within the Small and Micro Cap Value Strategies team. Mr. Tufano started in the industry in 2002 and was with the Predecessor Fund's Adviser since the company's transaction with Dreman Value Management, LLC ("Dreman") in June of 2016. He joined Dreman in 2007 as a Senior Securities Analyst and was promoted to Associate Portfolio Manager in 2010. He is responsible for research of new investment ideas as well as current portfolio holdings for the firm's Small Cap Value products. Prior to joining the firm, he was an Associate Director and Equity Analyst at UBS Investment Bank covering the Consumer Staples and Discretionary sectors.

Mr. Tufano graduated from Pennsylvania State University with a B.S. in Finance. He is a CFA charterholder and is a member of the New York Society of Security Analysts (NYSSA).

The SAI provides additional information about the portfolio managers' method of compensation, other accounts managed by the portfolio managers and the portfolio managers' ownership of shares of the Fund.

Other Service Providers

Foreside Fund Services, LLC, a wholly-owned subsidiary of Foreside Financial Group, LLC (d/b/a ACA Group), (the “Distributor”) is the Trust’s principal underwriter and acts as the Trust’s distributor in connection with the offering of Fund shares. The Distributor may enter into agreements with banks, broker-dealers, or other financial intermediaries through which investors may purchase or redeem shares. The Distributor is not affiliated with the Trust, the Adviser, the Sub-Adviser or any other service provider for the Fund.

Fund Expenses

The Fund is responsible for its own operating expenses (all of which will be borne directly or indirectly by the Fund’s shareholders), including among others, legal fees and expenses of counsel to the Fund and the Fund’s independent trustees; insurance (including trustees’ and officers’ errors and omissions insurance); auditing and accounting expenses; taxes and governmental fees; listing fees; fees and expenses of the Fund’s custodians, administrators, transfer agents, registrars and other service providers; expenses for portfolio pricing services by a pricing agent, if any; expenses in connection with the issuance and offering of shares; brokerage commissions and other costs of acquiring or disposing of any portfolio holding of the Fund and any litigation expenses.

The Adviser has contractually agreed to waive its fees and/or pay for or reimburse operating expenses of the Fund to ensure that the total net annual fund operating expenses (excluding any taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, any acquired fund fees and expenses, expenses incurred in connection with any merger or reorganization, extraordinary expenses such as litigation expenses, and payments, if any, under a Rule 12b-1 Distribution Plan) do not exceed 1.25% of the Fund’s average daily net assets. This contractual arrangement may only be terminated by mutual consent of the Adviser and the Board of Trustees of the Trust, and it will automatically terminate upon the termination of the investment advisory agreement between the Fund and the Adviser. This agreement is in effect until September 30, 2027, and may be terminated before that date only upon the approval of the Board.

Any waiver of advisory fees or payment or reimbursement of the Fund’s expenses made by the Adviser in a fiscal year may be reimbursed by the Fund for a period ending 36 months after the date of the waiver, payment or reimbursement if the Adviser so requests. This reimbursement may be requested from the Fund if the reimbursement will not cause the Fund’s annual expense ratio to exceed the lesser of (a) the expense limitation amount in effect at the time such fees were waived, payments made or expenses reimbursed, or (b) the expense limitation amount in effect at the time of the reimbursement. The reimbursement amount may not exceed the total amount of fees waived and/or Fund expenses paid or reimbursed by the Adviser and will not include any amounts previously reimbursed to the Adviser by the Fund. Any such reimbursement is contingent upon the Board’s subsequent review of the reimbursed amounts. The Fund must pay current ordinary operating expenses before the Adviser is entitled to any reimbursement of fees and/or Fund expenses.

DISTRIBUTION AND SHAREHOLDER SERVICE PLAN

Distribution and Service (Rule 12b-1) Fees

The Trust, on behalf of the Fund, has adopted a Rule 12b-1 plan (the “12b-1 Plan”) with respect to the Fund’s Investor Class shares. Under the 12b-1 Plan, the Fund pays to the Distributor distribution fees in connection with the sale and distribution of the Fund’s Investor Class and/or shareholder liaison service fees in connection with the provision of services to shareholders of each such Class and the maintenance of shareholder accounts. For Investor Class shares, the maximum annual fee payable to the Distributor for such distribution and/or shareholder liaison services is 0.25% of the average daily net assets of such shares.

The Distributor may pay any or all amounts received under the 12b-1 Plan to other persons for any distribution or shareholder liaison services provided by such persons to the Fund. Payments under the 12b-1 Plan are not tied exclusively to distribution expenses actually incurred by the Distributor or others and the payments may exceed or be less than the amount of expenses actually incurred.

Since these fees are paid out of the Fund’s assets attributable to Investor Class shares, these fees will increase the cost of your investment and, over time, may cost you more than paying other types of sales charges. The net income attributable to Investor Class shares will be reduced by the amount of distribution and shareholder liaison service fees and other expenses of the Fund associated with the relevant class of shares.

To assist investors in comparing classes of shares, the table under the Prospectus heading “Fees and Expenses of the Fund” provides a summary of sales charges and expenses and an example of the sales charges and expenses of the Fund applicable to each class of shares offered in this Prospectus.

Class I shares are not subject to any distribution and shareholder liaison service fees under the 12b-1 Plan.

Additional Payments to Broker-Dealers and Other Financial Intermediaries

The Adviser, out of its own resources, and without additional cost to the Fund or its shareholders, may provide additional cash payments or non-cash compensation to broker-dealers or other financial intermediaries that sell shares of the Fund. These additional cash payments are generally made to intermediaries that provide shareholder servicing, marketing support and/or access to sales meetings, sales representatives and management representatives of the intermediary. These payments may be used for various purposes and take various forms. For example, the Adviser may pay cash compensation for inclusion of the Fund on a sales list, including a preferred or select sales list, or in other sales programs, or may pay an expense reimbursement in cases where the intermediary provides shareholder services to the Fund’s shareholders. The Adviser may also pay cash compensation in the form of finder’s fees that vary depending on the dollar amount of the shares sold.

The level of payments made by the Adviser and/or its affiliates to individual financial intermediaries varies in any given year and may be negotiated on the basis of sales of Fund shares, the amount of Fund assets serviced by the financial intermediary or the quality of the financial intermediary’s relationship with the Adviser and/or its affiliates. These payments may be more or less than the payments received by the financial intermediaries from other mutual funds and may influence a financial intermediary to favor the sales of certain funds or share classes over others. In certain instances, the payments could be significant and may cause a conflict of interest for your financial intermediary. Please contact your financial intermediary for information about any payments it may receive in connection with the sale of Fund shares or the provision of services to Fund shareholders.

YOUR ACCOUNT WITH THE FUND

Share Price

The offering price of each class of the Fund's shares is the net asset value per share ("NAV") of that class (plus any sales charges, as applicable). The Fund's net asset value per share ("NAV") is calculated as of 4:00 p.m. Eastern Time, the normal close of regular trading on the New York Stock Exchange ("NYSE"), on each day the NYSE is open for trading. If for example, the NYSE closes at 1:00 p.m. New York time, the Fund's NAV would still be determined as of 4:00 p.m. New York time. In this example, portfolio securities traded on the NYSE would be valued at their closing prices unless a "fair value" adjustment is determined to be appropriate due to subsequent events. The NAV is determined by dividing the value of the Fund's portfolio securities, cash and other assets (including accrued interest), less all liabilities (including accrued expenses), by the total number of outstanding shares. The Fund's NAV may be calculated earlier if trading on the NYSE is restricted or if permitted by the SEC. The NYSE is closed on weekends and most U.S. national holidays. However, foreign securities listed primarily on non-U.S. markets may trade on weekends or other days on which the Fund does not value its shares, which may significantly affect the Fund's NAV on days when you are not able to buy or sell Fund shares.

The Fund's securities generally are valued at market price. Fair value pricing inherently involves subjective judgments, and it is possible that the fair value determined for a security may be materially different than the value that could be realized upon the sale of that security. Fair value prices can differ from market prices when they become available or when a price otherwise becomes available. The Board has appointed the Adviser as its designee (the "Valuation Designee") for all fair value determinations and responsibilities, with respect to the Fund. If market quotations are not readily available, securities will be valued at their fair market value as determined in good faith by the Valuation Designee, subject to review and approval by the Adviser's Valuation Committee, in accordance with procedures approved by the Board. This designation is subject to Board oversight and certain reporting and other requirements designed to facilitate the Board's ability to effectively oversee the Valuation Designee's fair value determinations.

In certain circumstances, the Fund employs fair value pricing to ensure greater accuracy in determining the daily NAV and to prevent dilution by frequent traders or market timers who seek to exploit temporary market anomalies. Fair value pricing may be applied to foreign securities held by the Fund upon the occurrence of an event after the close of trading on non-U.S. markets but before the close of trading on the NYSE when the Fund's NAV is determined. If the event may result in a material adjustment to the price of the Fund's foreign securities once non-U.S. markets open on the following business day (such as, for example, a significant surge or decline in the U.S. market), the Fund may value such foreign securities at fair value, taking into account the effect of such event, in order to calculate the Fund's NAV. Other types of portfolio securities that the Fund may fair value include, but are not limited to: (1) investments that are classified as illiquid or traded infrequently, which may include "restricted" securities and private placements for which there is no public market; (2) investments for which, in the judgment of the Adviser, the market price is stale; (3) securities of an issuer that has entered into a restructuring; (4) securities for which trading has been halted or suspended; and (5) fixed income securities for which there is no current market value quotation. The use of fair valuation in pricing a security involves the consideration of a number of subjective factors and therefore, is susceptible to the unavoidable risk that the valuation may be higher or lower than the price at which the security might actually trade if a reliable market price were readily available.

Purchase of Shares

This Prospectus offers Investor Class shares and Class I shares.

- Investor Class shares are subject to annual distribution fees.
- Class I shares are not subject to annual distribution fees.

By offering multiple classes of shares, the Fund permits investors to choose the class of shares that is most beneficial given the type of investor, the amount to be invested and the length of time the investor expects to hold the shares.

Before you invest, you should compare the features of each share class, so that you can choose the class that is right for you. When selecting a share class, you should consider the following:

- which shares classes are available to you;
- how long you expect to own your shares;
- how much you intend to invest;
- total costs and expenses associated with a particular share class; and
- whether you qualify for any reduction or waiver of sales charges

Investor Class shares are generally available to all investors; however, share class availability depends upon your financial intermediary’s policies and procedures. Class I shares are subject to eligibility requirements, fees and expenses, and may have different minimum investment requirements. For eligible investors, Class I shares may be more suitable than Investor Class shares. You should consult with your financial adviser for more information to determine which share class is most appropriate for your situation.

Each class of shares generally has the same rights, except for the differing distribution fees, any related expenses associated with each class of shares, and the exclusive voting rights by each class with respect to any distribution plan or service plan for such class of shares. Please see the specific features available to each class of shares as discussed below.

To purchase shares of the Fund, you must invest at least the minimum amount indicated in the following table.

Minimum Investments	To Open Your Account	To Add to Your Account
Investor Class shares		
All Accounts	\$2,500	\$1,000
Class I shares		
All Accounts	\$100,000	\$1,000

Shares of the Fund may be purchased by check, by wire transfer of funds via a bank or through an approved financial intermediary (i.e., a supermarket, investment adviser, financial planner or consultant, broker, dealer or other investment professional and their agents) authorized by the Fund to receive purchase orders. Financial intermediaries may provide varying arrangements for their clients to purchase and redeem shares, which may include different sales charges as described in this Prospectus, additional fees and different investment minimums. In addition, from time to time, a financial intermediary may modify or waive the initial and subsequent investment minimums.

You may make an initial investment in an amount greater than the minimum amounts shown in the preceding table and the Adviser may, from time to time, reduce or waive the minimum initial investment amounts. This would allow the Adviser, for example, to waive or set different investment minimums for shares offered through financial intermediaries, and may waive the minimum investment requirements for employer-sponsored retirement plan accounts. The minimum initial investment amount is automatically waived for Fund shares purchased by Trustees of the Trust and current or retired directors and employees of the Adviser and its affiliates.

Automated Clearing House (“ACH”) Purchase: You may not use ACH transactions for your initial purchase of Fund shares. Current shareholders may purchase additional shares via ACH. To have this option added to your account, please send a letter to the Fund requesting this option and supply a voided check for the bank account. Only bank accounts held at domestic institutions that are ACH members may be used for these transactions.

To the extent allowed by applicable law, the Fund reserves the right to discontinue offering shares at any time or to cease operating entirely.

The Fund does not accept investments by non-U.S. persons.

Investor Class Shares

Investor Class shares of the Fund are sold at NAV without an initial sales charge. This means that 100% of your initial investment is placed into shares of the Fund. Under the Fund’s distribution and services plan adopted pursuant to Rule 12b-1 under the 1940 Act, Investor Class shares pay up to 0.25% on an annualized basis of the average daily net assets as reimbursement or compensation for service and distribution-related activities with respect to the Fund and/or shareholder services. Over time, fees paid under this distribution and service plan will increase the cost of an Investor Class shareholder’s investment and may cost more than other types of sales charges. The minimum initial investment in Investor Class shares of the Fund is \$2,500. The minimum subsequent investment in Investor Class shares of the Fund is \$100.

Class I Shares

Class I shares of the Fund are sold at NAV without an initial sales charge. This means that 100% of your initial investment is placed into shares of the Fund. Class I shares are intended for high net worth individual investors and qualified institutions purchasing shares for their own account or for qualifying omnibus accounts, and are not subject to any 12b-1 fees. Qualified institutions include corporations, banks, insurance companies, trusts, endowments, foundations, qualified retirement plans, registered investment advisors and broker-dealers. Class I shares are not subject to 12b-1 distribution fees, but have a higher minimum initial investment than Investor Class shares. To purchase Class I shares of the Fund, you generally must invest at least \$100,000. Class I shares are not subject to any initial sales charge. There also are no Contingent Deferred Sales Charges (“CDSCs”) imposed on redemptions of Class I shares, and you do not pay any ongoing distribution/shareholder service fees.

The minimum investment requirement for Class I shares may be waived if you or your financial intermediary invest through an omnibus account, have an aggregate investment in our family of funds of \$5 million or more, or in other situations as determined by the Adviser. In addition, financial intermediaries or plan record keepers may require retirement plans to meet certain other conditions, such as plan size or a minimum level of assets per participant, in order to be eligible to purchase Class I shares. The Adviser may permit a financial intermediary to waive applicable minimum initial investment for Class I shares in the following situations:

- Broker-dealers purchasing Fund shares for clients in broker-sponsored discretionary fee-based advisory programs where the portfolio manager of the program acts on behalf of the shareholder through omnibus accounts;
- Trust companies and bank wealth management organizations purchasing shares in a fiduciary, discretionary trustee or advisory account on behalf of the shareholder, through omnibus accounts or nominee name accounts;
- Qualified Tuition Programs under Section 529 that have entered into an agreement with the Distributor;
- Certain employer-sponsored retirement plans, as approved by the Adviser; and
- Certain other situations deemed appropriate by the Adviser.

In-Kind Purchases and Redemptions

The Fund reserves the right to accept payment for shares in the form of securities that are permissible investments for the Fund. The Fund also reserves the right to pay redemptions by an “in-kind” distribution of portfolio securities (instead of cash) from the Fund. In-kind purchases and redemptions are taxable events and may result in the recognition of gain or loss for federal income tax purposes. See the SAI for further information about the terms of these purchases and redemptions.

Additional Investments

Additional subscriptions in the Fund generally may be made by investing at least the minimum amount shown in the table above. Exceptions may be made at the Fund’s discretion. You may purchase additional shares of the Fund by sending a check together with the Invest by Mail form from your most recent confirmation statement to the Fund at the applicable address listed in the table below. Please ensure that you include your account number on the check. If you do not have the Invest by Mail form from your confirmation statement, list your name, address and account number on a separate sheet of paper and include it with your check. You may also make additional investments in the Fund by wire transfer of funds or through an approved financial intermediary. The minimum additional investment amount is automatically waived for shares purchased by Trustees of the Trust and current or retired directors and employees of the Adviser and its affiliates. Please follow the procedures described in this Prospectus.

ACH Purchase: Current shareholders may purchase additional shares via ACH. To have this option added to your account, please send a letter to the Fund requesting this option and supply a voided check for the bank account. Only bank accounts held at domestic institutions that are ACH members may be used for these transactions.

Online Transactions

To establish internet transaction privileges, you must enroll through the website. You automatically have the ability to establish internet transaction privileges unless you decline the privileges on your New Account Application or IRA Application. You will be required to enter into a user’s agreement through the website in order to enroll in these privileges. To purchase shares through the website, you must also have ACH instructions on your account. Redemption proceeds may be sent to you by check to the address on record, or if your account has existing bank information, by wire or ACH. Only bank accounts held at domestic financial institutions that are ACH members can be used for transactions through the Fund’s website. Transactions through the website are subject to the same minimums and maximums as other transaction methods. Please call 1-855-551-5521 for assistance in establishing online access.

You should be aware that the internet is an unsecured, unstable, unregulated and unpredictable environment. Your ability to use the website for transactions is dependent upon the internet and equipment, software, systems, data and services provided by various vendors and third parties. While the Fund and its service providers have established certain security procedures, the Fund, its distributor and its transfer agent cannot assure you that trading information will be completely secure.

There may also be delays, malfunctions, or other inconveniences generally associated with this medium. There also may be times when the website is unavailable for Fund transactions or other purposes. Should this happen, you should consider purchasing or redeeming shares by another method. Neither the Fund nor its transfer agent, distributor nor Adviser will be liable for any such delays or malfunctions or unauthorized interception or access to communications or account information.

Dividend Reinvestment

You may reinvest dividends and capital gains distributions in shares of the Fund. Such shares are acquired at NAV (without a sales charge) on the applicable payable date of the dividend or capital gain distribution. Unless you instruct otherwise, dividends and capital gains distributions are automatically reinvested in shares of the same class of the Fund paying the dividend or capital gains distribution. This instruction may be made by writing to Ultimus Fund Solutions, LLC, the Fund's transfer Agent (the "Transfer Agent") at the address disclosed on the back cover of this Prospectus or by telephone by calling 1-855-551-5521 at least five calendar days prior to the record date of the next distribution. You may, on the account application form or prior to any declaration, instruct that dividends and/or capital gains distributions be paid in cash or be reinvested in the Fund at the next determined NAV. If you elect to receive dividends and/or capital gains distributions in cash and the U.S. Postal Service cannot deliver the check, or if a check remains outstanding for six months or more, the Fund reserves the right to reinvest the distribution check in your account at the Fund's current NAV and to reinvest all subsequent distributions.

Customer Identification Information

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person who opens an account. When you open an account, you will be asked for your name, date of birth (for a natural person), your residential address or principal place of business, and mailing address (if different) as well as your Social Security Number or Taxpayer Identification Number. If you are opening the account in the name of a legal entity (e.g., partnership, limited liability company, business trust, corporation, etc.), you must also supply the identity of the beneficial owners. Additional information is required for corporations, partnerships and other entities. Applications without such information will not be considered in good order. The Fund reserves the right to deny any application if the application is not in good order.

This Prospectus should not be considered a solicitation to purchase or as an offer to sell shares of the Fund in any jurisdiction where it would be unlawful to do so under the laws of that jurisdiction. Please note that the value of your account may be transferred to the appropriate state if no activity occurs in the account within the time period specified by state law.

Timing and Nature of Requests

The purchase price you will pay for the Fund's shares will be at the next NAV (plus any sales charge, as applicable) calculated after the Transfer Agent or your authorized financial intermediary receives your request in good order. "Good order" means that your purchase request includes: (1) the name of the Fund and share class to be purchased, (2) the dollar amount of shares to be purchased, (3) your purchase application or investment stub, and (4) a check payable to North Square Funds. All requests received in good order before 4:00 p.m. (Eastern Time) on any business day will be processed on that same day. Requests received at or after 4:00 p.m. (Eastern Time) will be transacted at the next business day's NAV (plus any sales charge, if applicable). All purchases must be made in U.S. Dollars and drawn on U.S. financial institutions.

Methods of Buying

Through a broker-dealer or other financial intermediary

The Fund is offered through certain approved financial intermediaries (and their agents). The Fund is also offered directly. A purchase order placed with a financial intermediary or its authorized agent is treated as if such order were placed directly with the Fund, and will be deemed to have been received by the Fund when the financial intermediary or its authorized agent receives the order and executed at the next NAV (plus any sales charge, as applicable) calculated by the Fund. Your financial intermediary will hold your shares in a pooled account in its (or its agent's) name. The Fund may pay your financial intermediary (or its agent) to maintain your individual ownership information, maintain required records, and provide other shareholder services. A financial intermediary which offers shares may require payment of additional fees from its individual clients which may be in addition to those described in this Prospectus. For example, the financial intermediary may charge transaction fees or set different minimum investments. Your financial intermediary is responsible for processing your order correctly and promptly, keeping you advised of the status of your account, confirming your transactions and ensuring that you receive copies of the Fund's Prospectus. Please contact your financial intermediary to determine whether it is an approved financial intermediary of the Fund or for additional information.

By mail

All checks must be made in U.S. Dollars and drawn on U.S. financial institutions. The Fund will not accept payment in cash or money orders. The Fund does not accept post-dated checks or any conditional order or payment. To prevent check fraud, the Fund will not accept third party checks, Treasury checks, credit card checks, traveler's checks or starter checks for the purchase of shares.

To buy shares directly from the Fund by mail, complete an account application and send it together with your check for the amount you wish to invest to the Fund at the address indicated below. To make additional investments once you have opened your account, write your account number on the check and send it to the Fund together with the Invest by Mail form from your most recent confirmation statement received from the Transfer Agent. If your check is returned for insufficient funds, your purchase will be canceled and a \$25 fee will be assessed against your account by the Transfer Agent. The Transfer Agent will charge a \$25 fee against a shareholder's account, in addition to any loss sustained by the Fund, for any payment that is returned. Shares of the Fund have not been registered for sale outside of the United States. The Fund generally does not sell shares to investors residing outside the United States, even if they are United States citizens or lawful permanent residents, except to investors with United States military APO or FPO addresses.

Regular Mail

North Square Funds
c/o Ultimus Fund Solutions, LLC
P.O. Box 46707
Cincinnati, OH 45246-0707

Overnight Delivery

North Square Funds
c/o Ultimus Fund Solutions, LLC
225 Pictoria Drive, Suite 450
Cincinnati, OH 45246

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such delivery services, or receipt at Ultimus Fund Solutions, LLC's post office box, of purchase orders or redemption requests does not constitute receipt by the Transfer Agent of the Fund. Receipt of purchase orders or redemption requests is based on when the order is received at the Transfer Agent's offices.

By telephone

To make additional investments by telephone, you must authorize telephone purchases on your account application. If you have given authorization for telephone transactions and your account has been open for at least seven business days, call the Transfer Agent toll-free at 1-855-551-5521 and you will be allowed to move money in amounts of at least \$100 from your bank account to the Fund's account upon request. Only bank accounts held at U.S. institutions that are ACH members may be used for telephone transactions. If your order is placed before 4:00 p.m. (Eastern Time) on a business day shares will be purchased in your account at the NAV (plus any sales charge, as applicable) calculated on that day. Orders received at or after 4:00 p.m. (Eastern Time) will be transacted at the next business day's NAV (plus any sales charge, if applicable). For security reasons, requests by telephone will be recorded.

By wire

You may also buy shares of the Fund by wiring federal funds from your bank, which may charge you a fee for doing so. To wire money, you must call the Transfer Agent at Shareholder Services at 1-855-551-5521 to obtain instructions on how to set up your account and to obtain an account number.

You must provide a signed application to the Fund at the above address, to complete your initial wire purchase. Wire orders will be accepted only on a day on which the Fund, the custodian and the Transfer Agent are open for business. A wire purchase will not be considered made until the wired money is received and the purchase is accepted by the Fund. The purchase price per share will be the NAV determined after the wire purchase is received by the Fund. Any delays which may occur in wiring money, including delays which may occur in processing by the banks, are not the responsibility of the Fund or the Transfer Agent. There is presently no fee for the receipt of wired funds, but the Fund may charge shareholders for this service in the future.

Selling (Redeeming) Fund Shares

Through a broker-dealer or other financial intermediary

If you purchased your shares through an approved financial intermediary, your redemption order must be placed through the same financial intermediary. The Fund will be deemed to have received a redemption order when a financial intermediary or, if applicable, an intermediary's authorized designee, receives the order. The financial intermediary or its agent must receive your redemption order prior to 4:00 p.m. (Eastern Time) on a business day for the redemption to be processed at the current day's NAV. Orders received at or after 4:00 p.m. (Eastern Time) on a business day or on a day when the Fund does not value its shares will be transacted at the next business day's NAV. Please keep in mind that your financial intermediary may charge additional fees for its services. In the event your approved financial intermediary is no longer available or in operation, you may place your redemption order directly with the Fund as described below.

By mail

You may redeem shares purchased directly from the Fund by mail. Send your written redemption request to North Square Funds at the address indicated below. Your request must be in good order and contain the Fund's name, the name(s) on the account, your account number and the dollar amount or the number of shares to be redeemed. The redemption request must be signed by all shareholders listed on the account along with a signature guarantee (if applicable). Additional documents are required for certain types of shareholders, such as corporations, partnerships, executors, trustees, administrators, or guardians (i.e., corporate resolutions dated within 60 days, or trust documents indicating proper authorization).

Regular Mail
North Square Funds
c/o Ultimus Fund Solutions, LLC
P.O. Box 46707
Cincinnati, OH 45246

Overnight Delivery
North Square Funds
c/o Ultimus Fund Solutions, LLC
225 Pictoria Drive, Suite 450
Cincinnati, OH 45246

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such delivery services, or receipt at Ultimus Fund Solutions, LLC's post office box, of purchase orders or redemption requests does not constitute receipt by the Transfer Agent of the Fund. Receipt of purchase orders or redemption requests is based on when the order is received at the Transfer Agent's offices.

By telephone

To redeem shares by telephone, call the Fund at 1-855-551-5521 and specify the amount of money you wish to redeem. You may have a check sent to the address of record, or, if previously established on your account, you may have proceeds sent by wire or electronic funds transfer through the ACH network directly to your bank account. Wire transfers are subject to a \$15 fee paid by the shareholder and your bank may charge a fee to receive wired funds. Checks sent via overnight delivery are subject to a \$35 charge. You do not incur any charge when proceeds are sent via the ACH network; however, credit may not be available for two to three business days.

If you are authorized to perform telephone transactions (either through your account application form or by subsequent arrangement in writing with the Fund), you may redeem shares worth up to \$50,000 by instructing the Fund by phone at 1-855-551-5521. Telephone trades must be received by or prior to market close. During periods of high market activity, shareholders may encounter higher than usual call waits. Please allow sufficient time to place your telephone transaction. If an account has more than one owner or authorized person, the Fund will accept telephone instructions from any one owner or authorized person. Unless noted on the initial account application, a signature guarantee may be required of all shareholders in order to qualify for or to change telephone redemption privileges.

Note: The Fund and all of its service providers will not be liable for any loss or expense in acting upon instructions that are reasonably believed to be genuine. To confirm that all telephone instructions are genuine, the caller must verify the following:

- The applicable Fund account number;
- The name in which his or her account is registered;
- The Social Security Number or Taxpayer Identification Number under which the account is registered; and
- The address of the account holder, as stated in the account application form.

If you elect telephone privileges on the account application or in a letter to the Fund, you may be responsible for any fraudulent telephone orders as long as the Fund and/or its service providers have taken reasonable precautions to verify your identity. In addition, once you place a telephone transaction request, it cannot be canceled or modified after the close of regular trading on the NYSE (generally, 4:00 p.m., Eastern Time).

During periods of significant economic or market change, telephone transactions may be difficult to complete. If you are unable to contact the Fund by telephone, you may also mail your request to the Fund at the address listed under "Methods of Buying."

Signature Guarantee

Signature guarantees will generally be accepted from domestic banks, brokers, dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations, as well as from participants in the New York Stock Exchange Medallion Signature Program and the Securities Transfer Agents Medallion Program ("STAMP"). A notary public is not an acceptable signature guarantor.

A signature guarantee, from either a Medallion program member or a non-Medallion program member, is required in the following situations:

- If ownership is being changed on your account;
- When redemption proceeds are payable or sent to any person, address or bank account not on record;
- When a redemption transmitted by wire transfer or ACH to a bank of record prior to 30 calendar days since the bank instructions were added or changed;
- When a redemption is received by the Transfer Agent and the account address has changed within the last 15 calendar days; or
- You wish to redeem more than \$50,000 worth of shares.

In addition to the situations described above, the Fund and/or the Transfer Agent reserve the right to require a signature guarantee in other instances based on the circumstances relative to the particular situation. Non-financial transactions, including establishing or modifying certain services on an account, may require a signature guarantee, signature verification from a Signature Validation Program member, or other acceptable form of authentication from a financial institution source. The Fund reserves the right to waive any signature requirement at its discretion.

Systematic Withdrawal Plan

You may request that a predetermined dollar amount be sent to you on a monthly or quarterly basis. Your account must maintain a value of at least \$10,000 for you to be eligible to participate in the Systematic Withdrawal Plan ("SWP"). The minimum withdrawal amount is \$100. If you elect to receive redemptions through the SWP, the Fund will send a check to your address of record, or will send the payment via electronic funds transfer through the ACH network, directly to your bank account on record. You may request an application for the SWP by calling the Transfer Agent toll-free at 1-855-551-5521. The Fund may modify or terminate the SWP at any time. You may terminate your participation in the SWP by calling the Transfer Agent at least five calendar days before the next withdrawal.

Automatic Investment Plan

Once your account has been opened with the initial minimum investment, you may make additional purchases of shares at regular intervals through the Automatic Investment Plan ("AIP"). The AIP provides a convenient method to have monies deducted from your bank account, for investment into the Fund, on a monthly or quarterly basis. In order to participate in the AIP, your financial institution must be a member of the ACH network. There is no minimum for Class I shares to participate in the AIP. If your bank rejects your payment, the Transfer Agent will charge a \$25 fee to your account. To begin participating in the AIP, please complete the Automatic Investment Plan section on the account application or call the Transfer Agent at 1-855-551-5521, if you have questions about the AIP. Any request to change or terminate your AIP should be submitted to the Transfer Agent at least five calendar days prior to the automatic investment date.

Payment of Redemption Proceeds

You may redeem shares of the Fund at a price equal to the NAV next determined after the Transfer Agent and/or authorized intermediary or agent receives your redemption request in good order. Generally, your redemption request cannot be processed on days the NYSE is closed. Redemption proceeds for requests received in good order by the Transfer Agent and/or authorized agent before the close of the regular trading session of the NYSE (generally, 4:00 p.m. Eastern Time) will usually be sent on the following business day to the address of record or the bank you indicate or wired using the wire instructions on record. Payment of redemption proceeds may take longer than typically expected, but will be sent within seven calendar days after the Fund receives your redemption request, except as specified below.

If you did not purchase your shares with a wire payment, the Transfer Agent may delay payment of your redemption proceeds for up to 15 calendar days from the date of purchase or until your payment has cleared, whichever comes first. Furthermore, the Fund may suspend the right to redeem shares or postpone the date of payment upon redemption for more than seven calendar days: (1) for any period during which the NYSE is closed (other than customary weekend or holiday closings) or trading on the NYSE is restricted; (2) for any period during which an emergency exists affecting the sale of the Fund's securities or making such sale or the fair determination of the value of the Fund's net assets not reasonably practicable; or (3) for such other periods as the SEC may permit for the protection of the Fund's shareholders.

Other Redemption Information

Shareholders who hold shares of the Fund through an IRA or other retirement plan, must indicate on their written redemption requests whether to withhold federal income tax. Redemption requests failing to indicate an election not to have taxes withheld will generally be subject to a 10% federal income tax withholding. Shares held in IRAs and other retirement accounts may be redeemed by telephone at 1-855-551-5521. Investors will be asked whether or not to withhold taxes from any distribution. In addition, if you are a resident of certain states, state income tax also applies to non-Roth IRA distributions when federal withholding applies. Please consult with your tax professional.

The Fund generally pays sale (redemption) proceeds in cash. The Fund typically expects to satisfy redemption requests by selling portfolio assets or by using holdings of cash or cash equivalents. On a less regular basis, the Fund may also satisfy redemption requests by drawing on a line of credit. These methods may be used during both normal and stressed market conditions. Under unusual conditions, the Fund may pay all or part of a shareholder's redemption proceeds in portfolio securities with a market value equal to the redemption price (redemption in-kind) in lieu of cash in order to protect the interests of the Fund's remaining shareholders. The Fund may redeem shares in-kind during both normal and stressed market conditions. If the Fund redeems your shares in-kind, you will bear any market risks associated with investment in these securities, and you will be responsible for the costs (including brokerage charges) of converting the securities to cash.

The Fund may redeem all of the shares held in your account if your balance falls below the Fund's minimum initial investment amount due to your redemption activity. In these circumstances, the Fund will notify you in writing and request that you increase your balance above the minimum initial investment amount within 30 days of the date of the notice. If, within 30 days of the Fund's written request, you have not increased your account balance, your shares will be automatically redeemed at the current NAV. The Fund will not require that your shares be redeemed if the value of your account drops below the investment minimum due to fluctuations of the Fund's NAV.

IRA and Coverdell Education Savings Account Maintenance Fee. An annual account maintenance fee of \$25 will be charged for each IRA and Coverdell ESA Account.

Cost Basis Information

Federal tax law requires that regulated investment companies, such as the Fund, report their shareholders' cost basis, gain/loss, and holding period to the IRS on the shareholders' Consolidated Form 1099 when "covered" shares of the regulated investment companies are sold. Covered shares are any shares acquired (including pursuant to a dividend reinvestment plan) on or after January 1, 2012.

The Fund has chosen average cost as its standing (default) tax lot identification method for all shareholders, which means this is the method the Fund will use to determine which specific shares are deemed to be sold when there are multiple purchases on different dates at differing net asset values, and the entire position is not sold at one time. The Fund's standing tax lot identification method is the method it will use to report the sale of covered shares on your Consolidated Form 1099 if you do not select a specific tax lot identification method. Redemptions are taxable and you may realize a gain or a loss upon the sale of your shares. Certain shareholders may be subject to backup withholding.

Subject to certain limitations, you may choose a method other than the Fund's standing method at the time of your purchase or upon the sale of covered shares. **For all shareholders using a method other than the specific tax lot identification method, the Fund first redeems shares you acquired on or before December 30, 2011, and then applies your elected method to shares acquired after that date.** Please refer to the appropriate Treasury regulations or consult your tax adviser with regard to your personal circumstances.

Tools to Combat Frequent Transactions

The Board has adopted policies and procedures with respect to frequent purchases and redemptions of Fund shares by Fund shareholders. The Trust discourages excessive, short-term trading and other abusive trading practices that may disrupt portfolio management strategies and harm the Fund's performance. The Trust takes steps to reduce the frequency and effect of these activities in the Fund. These steps may include monitoring trading activity and using fair value pricing. In addition, the Trust may take action, which may include using its best efforts to restrict a shareholder's trading privileges in the Fund, if that shareholder has engaged in four or more "round trips" in the Fund during a 12-month period. Although these efforts (which are described in more detail below) are designed to discourage abusive trading practices, these tools cannot eliminate the possibility that such activity may occur. Further, while the Trust makes efforts to identify and restrict frequent trading, the Trust receives purchase and sale orders through financial intermediaries and cannot always know or detect frequent trading that may be facilitated by the use of intermediaries or the use of group or omnibus accounts by those intermediaries. The Trust seeks to exercise its judgment in implementing these tools to the best of its ability in a manner that the Trust believes is consistent with the interest of Fund shareholders.

Monitoring Trading Practices

The Trust may monitor trades in Fund shares in an effort to detect short-term trading activities. If, as a result of this monitoring, the Trust believes that a shareholder of the Fund has engaged in excessive short-term trading, it may, in its discretion, ask the shareholder to stop such activities or refuse to process purchases in the shareholder's accounts. In making such judgments, the Trust seeks to act in a manner that it believes is consistent with the best interest of Fund shareholders. Due to the complexity and subjectivity involved in identifying abusive trading activity, there can be no assurance that the Trust's efforts will identify all trades or trading practices that may be considered abusive.

General Transaction Policies

Some of the following policies are mentioned above. In general, the Adviser reserves the right to:

- vary or waive any minimum investment requirement;
- refuse, change, discontinue, or temporarily suspend account services, including purchase or telephone redemption privileges (if redemption by telephone is not available, you may send your redemption order to the Fund via regular or overnight delivery), for any reason;
- reject any purchase request for any reason (generally, the Fund does this if the purchase is disruptive to the efficient management of the Fund due to the timing of the investment or an investor's history of excessive trading);
- delay paying redemption proceeds for up to seven calendar days after receiving a request, if an earlier payment could adversely affect the Fund;
- reject any purchase or redemption request that does not contain all required documentation; and
- subject to applicable law and with prior notice, adopt other policies from time to time requiring mandatory redemption of shares in certain circumstances.

If you elect telephone privileges on the account application or in a letter to the Fund, you may be responsible for any fraudulent telephone orders as long as the Fund and/or its service providers have taken reasonable precautions to verify your identity. In addition, once you place a telephone transaction request, it cannot be canceled or modified after market close.

During periods of significant economic or market change, telephone transactions may be difficult to complete. If you are unable to contact the Fund by telephone, you may also mail your request to the Fund at the address listed under “Methods of Buying.”

Your broker or other financial intermediary may establish policies that differ from those of the Fund. For example, the organization may charge transaction fees, set higher minimum investments, or impose certain limitations on buying or selling shares in addition to those identified in this Prospectus. Contact your broker or other financial intermediary for details.

Please note that the value of your account may be transferred to the appropriate state if no activity occurs in the account within the time period specified by state law.

Exchange Privilege

You may exchange shares of the Fund for the same class of shares in an identically registered account of another North Square Fund (please contact the North Square Funds at 1-855-551-5521 to receive the prospectus). The amount of the exchange must be equal to or greater than the required minimum initial investment (see “Minimum Investments” table). You may realize either a gain or loss on those shares and will be responsible for paying the appropriate taxes. If you exchange shares through a broker, the broker may charge you a transaction fee. You may exchange shares by sending a written request to the Fund or, if authorized on your application, by telephone. Be sure that your written request includes the dollar amount or number of shares to be exchanged, the name(s) on the account and the account number(s), and is signed by all shareholders on the account. In order to limit expenses, the Fund reserves the right to limit the total number of exchanges you can make in any year. There are no sales charges for exchanges of shares.

Availability of Information

Information regarding any sales charges of the Fund and the applicability and availability of discounts from sales charges is available free of charge on the Fund’s website at www.northsquareinvest.com. The Prospectus and SAI are also available on the website.

Prospectus and Shareholder Report Mailings

In an effort to decrease costs, the Fund intends to reduce the number of duplicate prospectuses, supplements, and certain other shareholder documents you receive by sending only one copy of each to those addresses shared by two or more accounts and to shareholders we reasonably believe are from the same family or household. Once implemented, if you would like to discontinue householding for your accounts, please call toll-free at 1-855-551-5521 to request individual copies of these documents. Once the Fund receives notice to stop householding, we will begin sending individual copies thirty days after receiving your request. This policy does not apply to account statements.

Lost Shareholders, Inactive Accounts and Unclaimed Property

It is important that the Fund maintains a correct address for each investor. An incorrect address may cause an investor’s account statements and other mailings to be returned to the Fund. Based upon statutory requirements for returned mail, the Fund will attempt to locate the investor or rightful owner of the account. If the Fund is unable to locate the investor, then it will determine whether the investor’s account can legally be considered abandoned. Mutual fund accounts may be transferred to the state government of an investor’s state of residence if no activity occurs within the account during the “inactivity period” specified in the applicable state’s abandoned property laws, which varies by state. The Fund is legally obligated to escheat (or transfer) abandoned property to the appropriate state’s unclaimed property administrator in accordance with statutory requirements. The investor’s last known address of record determines which state has jurisdiction. Please proactively contact the Transfer Agent toll-free at 1-855-551-5521 at least annually to ensure your account remains in active status. Investors who are residents of the state of Texas may designate a representative to receive legislatively required unclaimed property due diligence notifications. Please contact the Fund to complete a Texas Designation of Representative form.

Additional Information

The Fund enters into contractual arrangements with various parties, including, among others, the Adviser and Sub-Adviser, who provide services to the Fund. Shareholders are not parties to, or intended (or “third party”) beneficiaries of, those contractual arrangements.

The Prospectus and the SAI provide information concerning the Fund that you should consider in determining whether to purchase shares of the Fund. The Fund may make changes to this information from time to time. Neither this Prospectus nor the SAI is intended to give rise to any contract rights or other rights in any shareholder, other than any rights conferred by federal or state securities laws that may not be waived.

Investors should note that the Fund reserves the right to discontinue offering shares at any time, to merge or reorganize itself or a class of shares, or to cease operations and liquidate at any time.

DIVIDENDS AND DISTRIBUTIONS

The Fund will make distributions of net investment income monthly and net capital gains, if any, at least annually, typically in December. The Fund may make an additional payment of dividends or distributions if it deems it desirable at any other time during the year.

If you buy shares of the Fund just before it makes a distribution (on or before the record date), you will receive some of the purchase price back in the form of a taxable distribution.

All dividends and distributions will be reinvested in Fund shares unless you choose one of the following options: (1) to receive net investment income dividends in cash, while reinvesting capital gain distributions in additional Fund shares; (2) to receive all dividends and distributions in cash, or (3) to receive capital gain distributions in cash, while reinvesting net investment income in additional Fund shares. If you wish to change your distribution option, please write to or call the Transfer Agent at least five calendar days before the record date of the distribution.

If you elect to receive distributions in cash and the U.S. Postal Service cannot deliver your check, or if your distribution check has not been cashed for six months, the Fund reserves the right to reinvest the distribution check in your account at the Fund's then current NAV and to reinvest all subsequent distributions.

FEDERAL INCOME TAX CONSEQUENCES

The following discussion is very general and does not address investors subject to special rules, such as investors who hold Fund shares through an IRA, 401(k) plan or other tax-advantaged account. The SAI contains further information about taxes. Because each shareholder's circumstances are different and special tax rules may apply, you should consult your tax adviser about your investment in the Fund.

You will generally have to pay federal income taxes, as well as any state or local taxes, on distributions received from the Fund, whether paid in cash or reinvested in additional shares. If you sell Fund shares, it is generally considered a taxable event. If you exchange shares of the Fund for shares of another fund, the exchange will be treated as a sale of the Fund's shares and any gain on the transaction may be subject to federal income tax.

Distributions of net investment income, other than "qualified dividend income" and distributions of net short-term capital gains, are taxable for federal income tax purposes at ordinary income tax rates. Distributions from the Fund's net capital gain (i.e., the excess of its net long-term capital gain over net short-term capital loss) are taxable for federal income tax purposes as long-term capital gain, regardless of how long the shareholder has held Fund shares.

Dividends paid by the Fund (but none of the Fund's capital gain distributions) may qualify in part for the dividends-received deduction available to corporate shareholders, provided certain holding period and other requirements are satisfied. Distributions of investment income that the Fund reports as "qualified dividend income" may be eligible to be taxed to non-corporate shareholders at the reduced rates applicable to long-term capital gain if derived from the Fund's qualified dividend income and if certain other requirements are satisfied. "Qualified dividend income" generally is income derived from dividends paid by U.S. corporations or certain foreign corporations that are either incorporated in a U.S. possession or eligible for tax benefits under certain U.S. income tax treaties. In addition, dividends that the Fund receives in respect of stock of certain foreign corporations may be qualified dividend income if that stock is readily tradable on an established U.S. securities market. Although dividends received from REITs generally do not constitute qualified dividend income, certain REIT dividends attributable to a REIT's trade or business income may qualify for a reduced rate of taxation as "qualified business income" in the hands of individuals, trusts and estates, provided certain holding period and other requirements are satisfied by the shareholder.

You may want to avoid buying shares of the Fund just before it declares a distribution (on or before the record date), because such a distribution will be taxable to you even though it may effectively be a return of a portion of your investment.

Although distributions are generally taxable when received, dividends declared in October, November or December to shareholders of record as of a date in such month and paid during the following January are treated as if received on December 31 of the calendar year when the dividends were declared. Information on the federal income tax status of dividends and distributions is provided annually.

Dividends and distributions from the Fund and net gain from redemptions of Fund shares will generally be taken into account in determining a shareholder's "net investment income" for purposes of the Medicare contribution tax applicable to certain individuals, estates and trusts.

If you do not provide the Fund with your correct taxpayer identification number and any required certifications, you will be subject to backup withholding on your redemption proceeds, dividends and other distributions. The backup withholding rate is currently 24%.

Dividends and certain other payments made by the Fund to a non-U.S. shareholder are subject to such withholding of federal income tax at the rate of 30% (or such lower rate as may be determined in accordance with any applicable treaty). Dividends that are reported by the Fund as "interest-related dividends" or "short-term capital gain dividends" are generally exempt from such withholding. In general, the Fund may report interest-related dividends to the extent of its net income derived from U.S.-source interest and the Fund may report short-term capital gain dividends to the extent its net short-term capital gain for the taxable year exceeds its net long-term capital loss. Backup withholding will not be applied to payments that have been subject to the 30% withholding tax described in this paragraph.

Unless certain non-U.S. entities that hold shares comply with IRS requirements that will generally require them to report information regarding U.S. persons investing in, or holding accounts with, such entities, a 30% withholding tax may apply to distributions to such non-U.S. entities. A non-U.S. shareholder may be exempt from the withholding described in this paragraph under an applicable intergovernmental agreement between the United States and a foreign government, provided that the shareholder and the applicable foreign government comply with the terms of the agreement.

Some of the Fund's investment income may be subject to foreign income taxes that are withheld at the country of origin. Tax treaties between certain countries and the United States may reduce or eliminate such taxes, but there can be no assurance that the Fund will qualify for treaty benefits.

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the Predecessor Fund's financial performance for the past five years. Certain information reflects financial results for a single Predecessor Fund share. The total returns in the table represent the rate an investor would have earned or lost on an investment in the Predecessor Fund, assuming the reinvestment of all dividends and distributions.

Pursuant to the Reorganization, the Fund acquired all assets, subject to the liabilities, of the Predecessor Fund. Following the Reorganization, the Investor Class and Class I share class of the Fund assumed the performance, financial and other historical information of the Investor Class and Institutional class, respectively, of the Predecessor Fund.

This information has been audited by the Predecessor Fund's independent registered public accounting firm, whose report, along with the Predecessor Fund's financial statements, are included in the Predecessor Fund's annual report dated October 31, 2024, which is available without charge upon request.

North Square Small Cap Value Fund FINANCIAL HIGHLIGHTS Investor Class

FOR MORE INFORMATION

Statement of Additional Information (“SAI”)

The SAI provides additional details about the investments and techniques of the Fund and certain other additional information. A current SAI is on file with the SEC and is incorporated into this Prospectus by reference. This means that the SAI is legally considered a part of this Prospectus even though it is not physically within this Prospectus.

Shareholder Reports

Additional information about the Fund’s investments is available in the Fund’s annual and semi-annual reports to shareholders and in Form N-CSR. In the Fund’s annual report, you will find a discussion of the market conditions and investment strategies that significantly affected the Fund’s performance during its most recent fiscal year. In Form N-CSR, you will find the Fund’s annual and semi-annual financial statements.

The Fund’s SAI is available and annual and semi-annual reports to shareholders, and other information such as the Fund’s financial statements, are available, free of charge, on or through the Fund’s website at www.northsquareinvest.com. You can also obtain a free copy of the Fund’s SAI or annual and semi-annual reports to shareholders, and other information such as the Fund’s financial statements, or inquire about the Fund by contacting a broker that sells shares of the Fund or by calling the Fund (toll-free) at 1-855-551-5521 or by writing to:
